

## Clean-View Pads 5850

Cuts labor — not light — as it protects paint booth windows and light fixtures.

3M™ Clean-View Pads 5850 are the simple solution for over-spray on paint booth windows and light fixtures. Unlike other protective coverings, 5850 is an innovative multi-sheeted system that consists of a twenty-layer pad. Each individual sheet is tabbed and peels off for easy removal after use.

Clean-View Pads 5850 help eliminate the labor, mess and disposal associated with conventional cleaning solvents and chemicals. 5850 is the clear choice for protecting windows and light fixtures when painting:

- Aircraft
- Cars and trucks
- Boats and recreational vehicles
- Industrial vehicles and equipment

Wherever paint booth operations must proceed without compromising productivity or quality, this innovative form of protection gives you a logical, cost-effective alternative.

The layered pad construction of 5850 consists of:

- Individual transparent sheets
- Low profile construction
- Removable liner
- Acrylic adhesive
- Individually tabbed and numbered sheets

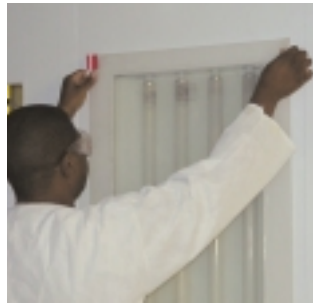

# Uncover the advantage of 3M™ Clean-View Pads 5850.

- Transparent sheets for better light transmittance and clear visibility of painting operations.
- Reduces labor expense, costly downtime and messy cleanup associated with the use of solvents and chemical sprays.
- Acrylic adhesive eliminates adhesive transfer for reduced cleanup time.
- Polyethylene film backing protects windows and light fixtures from over-spray.
- Low-profile construction and lined film backing assure easy handling for reduced setup time.
- Individually tabbed sheets remove quickly and easily, exposing a clean sheet ready for immediate use.
- 85%+ light transmission through full 20 sheet pad.

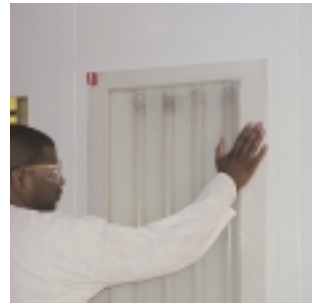

## Don't compromise productivity! 5850 provides easy installation and quick changeover.

User is responsible for determining whether the 3M product is fit for a particular purpose and suitable for user's method of application. Please remember that many factors can affect the use and performance of a 3M ITSD product in a particular application. The materials to be used with the product, the surface preparation of those materials, the product selected for use, the conditions in which the product is used, and the time and environmental conditions in which the product is expected to perform are among the many factors that can affect the use and performance of a 3M ITSD product. Given the variety of factors that can affect the use

of a 3M ITSD product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M ITSD product to determine whether it is fit for a particular purpose and suitable for the user's method of application.

**LIMITATION OF REMEDIES AND LIABILITY:** If the 3M product is proved to be defective, THE EXCLUSIVE REMEDY, AND 3M'S SOLE OBLIGATION SHALL BE, AT 3M'S OPTION TO REFUND THE PURCHASE PRICE OR TO REPAIR OR REPLACE THE DEFECTIVE 3M PRODUCT. 3M shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including, but not limited to, contract, negligence, warranty, or strict liability.
