640 - GREEN			

I. GENERAL DESCRIPTION

Description: Aervoe Tree Marking Paint is a full line of ready-mixed products for use during all seasons. This heavily-pigmented product provides bright visual identification at a great distance for dependable and cost-effective boundary and inventory marking.

Benefits: Available in eight regular and five fluorescent colors. Blended to offer speedy application, and will not soak into the wood. Aerosol tip selections provide a choice of either vertical or horizontal markings. Excellent for horizontal numbering, lettering or writing. All colors are lead-free for safest application and environmental consideration. Contains no ozone depleting substances.

Application: Use for marking cut wood, trees, logs, railroad ties, pulpwood and finished lumber for grade and select cut marking.

Directions: Apply to a dry, or near dry, surface that is somewhat clean and free of mud and other material that may block paint adhesion. For wet applications use Aervoe Wet Coat tree marking paint. For best results, use at temperatures between 30° and 100°F (-1° and 38°C).

For aerosol application, each can is supplied with two spray tip heads. Select desired spray nozzle and place in valve seat. The red spray tip, which is standard on the can, provides a circular spray pattern for banding and spotting, and should be sprayed at a distance of 8 to 12 inches. The white spray tip is for numbering and writing at 8 to 12 inches. Exchange tips for the application required, as needed. Align sprayhead with black mark on valve rim to ensure complete evacuation of contents. Shake can vigorously for at least one minute after agitator ball rattles, and intermittently during use. Recoating is not necessary. Prepare can for storage by turning upside down and spraying for 2 to 3 seconds. If clogging occurs, turn spray tip 1/4 turn; if it persists, remove and clean slot on tip. Never stick a pin or any other object into tip opening or into stem. Replace spray tip with a gentle, twisting motion, making certain the tip is pointed away from you.

Limitations: Please refer to the Safety Data Sheet for specific information on material hazards, etc. Product is extremely flammable, and is intended for outdoor use only.

Packaging:

Aerosol:

Cans (16 oz.)
12 cans/case

12 oz. net wt. (340 grams)
14 lbs. (6.4 kg)

12.7 fl. oz. (376 ml)
0.47 CF (0.013 CM)
