**Sanding
made simple.**

Introducing Sanding Made Simple.

For more than 100 years, 3M Science has provided technologies designed to make your life easier and improve the world — one finish at a time. 3M offers the most advanced technologies and processes in the industry — and a wide selection of sanding discs to tackle any job. With so many choices, *Sanding Made Simple* helps you choose the best disc to get the job done right.

It's easy, just:

1. Select your substrate

2. Choose your application

3. See your product recommendation

Now *that's* simple.

3M™ Clean Sanding for Superior Performance

Discs cut and last longer when dust isn't loading the cutting surface of the abrasives. And reducing dust is easier than ever with 3M™ Clean Sanding Discs. Featuring 3M-proprietary, precise multi-hole patterns, these discs can evacuate dust better than 5- or 6-hole products — dramatically increasing disc life and cut rate.

Metal

For stock removal, light weld blending and paint preparation of metal surfaces from carbon steel to aluminum.

Primary Industries:

- Equipment
- Construction
- Metal Fabrication
- Transportation

See selection guide on page 6.

All-Purpose

Premium: Best in class all-around performing disc whether for deburring, removing discoloration or preparing the surface for painting.

Good: All-around sanding disc for intermediate sanding steps of surface preparation.

3M™ Cubitron™ II 775L Disc Family

- Precision-shaped ceramic and aluminum oxide blend for fast cut rate and long life
- Film backing for greater durability

375L Disc Family

- Aluminum oxide mineral for fast cut
- Film backing for greater durability

Aggressive Sanding

Aggressive sanding disc completes burr and weld removal and also finishes.

763U Disc Family

- Aluminum oxide and ceramic blend for fast cut rate and long life
- Heavier paper backing for tear resistance

Edges and Corners

Disc durable enough to handle sharp corners and edges while still providing a fast cut rate.

341D Disc Family

- Heavier cloth backing to avoid edge wear

Composites and Coatings

For sanding on composite surfaces, fine sanding coatings such as gel coat or paint, coating removal and paint stripping.

Primary Industries:

- Marine
- Solid Surface
- Transportation
- Energy

See selection guide on page 6.

All-Purpose

Premium: Best in class all-around performing disc whether for removing sanding marks, removing coatings or retouching a coating.

Good: All-around sanding disc for intermediate sanding steps of surface preparation.

3M™ Cubitron™ II 775L Disc Family

- Precision-shaped ceramic and aluminum oxide blend for fast cut rate and long life
- Film backing for greater durability

375L Disc Family

- Aluminum oxide mineral for fast cut
- Film backing for greater durability

Finishing

Disc for surface finishing for gel coat applications.

360L Disc Family

- Aluminum oxide mineral for long life
- Film backing for durability
- Non-stearated disc

Edges and Corners

Disc durable enough to handle corners and edges while still providing flexibility.

900DZ Disc Family

- Ceramic mineral for fast cut
- Durable cloth backing minimizes edge wear while still providing flexibility

Wood

For stock removal, blending and finishing on solid wood and wood-based materials.

Primary Industries:

- Furniture
- Cabinetry
- Millwork

See selection guide on page 6.

All-Purpose

Premium: Best in class all-around performing disc whether for removing sanding marks or preparing surface for painting.

Good: All-around sanding disc for intermediate sanding steps of surface preparation.

735U Disc Family

- Aluminum oxide and ceramic mineral blend lasts longer and yields a uniform finish
- Mid-weight paper backing provides durable foundation for mineral

375L Disc Family

- Film backing for durability and uniform finish
- Aluminum oxide mineral for fast cut

Fine Finish

Finest finishing disc for preparing the surface for staining or creating a high quality final smooth surface.

426U Disc Family

- Silicon carbide mineral for fine and consistent finish
- Light weight paper backing for greater conformability

Edges and Corners

Disc durable enough to handle corners and edges while still providing flexibility.

900DZ Disc Family

- Durable cloth backing minimizes edge wear while still providing flexibility
- Ceramic mineral for fast cut

Abrasives Selection Guide

3M ID	Substrate			Technical Specs				Form Availability*	Standard Grade Availability**

* Form Availability
 S = 3M™ Stikit™ Disc
 H = 3M™ Hookit™ Disc
 CS = 3M™ Clean Sanding Disc

** Standard Grade Availability
 A = ANSI (American National Standards Institute) grades
 P = FEPA (Federation of the European Producers of Abrasives) grades
 + = 3M™ PSG (Precision Shaped Grain) grade

And Don't Forget... All-Purpose, All Applications

Multi-purpose discs for a wide range of sanding applications.

236U Disc Family

- Aluminum oxide on a C wt paper backing
- Durable, tear resistant backing

732U Disc Family

- Precision shaped and aluminum oxide on a C wt paper backing

3M™ Random Orbital Sanders — Elite Series

We took our best line of air-powered 3M™ Random Orbital Sanders and made it even better.

- Exclusive 3M™ Gripping Material
- Extended, curved wrist rest for more support
- Recessed lever, eliminating pinch points
- Internal muffler won't break off and decreases noise by as much as 6 dB
- Durable composite cover helps prevent cracked housings
- Improved dust collection port

Complete the 3M System with a Random Orbital Sander

Select the orbit that's right for your project.

3/8" Diameter Orbit
most aggressive sanding

Gold – 3/8"

5/16" Diameter Orbit
aggressive sanding

Black – 5/16"

3/16" Diameter Orbit
general purpose sanding

Silver – 3/16"

3/32" Diameter Orbit
fine finish sanding

Chrome – 3/32"

Lever indicates orbit diameter.

Tech Tip

Start on... Stop off... A simple rule of thumb to prevent unnecessary swirl marks on the work surface. Start the sander on the work surface, stop the tool as it is removed from the work surface. For best results, operate tool at 90 PSI air pressure.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
