

Hooks, Picks, Magnetic Pick Up and Inspection Tools

HOOKS & PICKS

Different tip styles are available to suit all applications from removing o-rings or gaskets, to cleaning out grooves or hooking springs.

MAGNETIC TOOLS

The PowerCap slides over the magnet, focusing its power and preventing the side of it attaching to other metal surfaces.

INSPECTION TOOLS

The 84087 is available with an LED for illuminating dark areas for easier inspection.

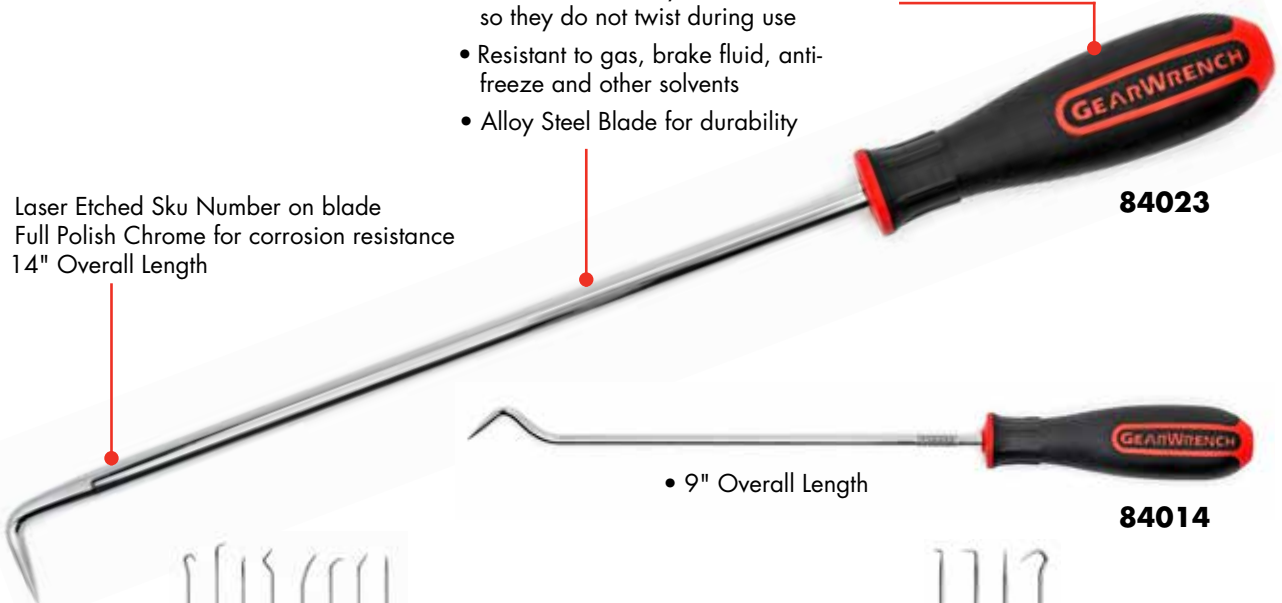

GearWrench Hooks and Picks are available in a range of lengths and different tip styles to suit most applications. The 14" Heavy-Duty hooks and picks come in 4 styles and have handles that exceed a 200 lb pull off force specification. The 9" Long Slim-Line hooks and picks come in 8 styles, providing more versatility, and have a 100 lb pull off force specification for durability. The range also includes mini hooks and picks that have 3-1/8" long blades for getting into tighter spaces. All these hooks and picks come with the tri-lobe, solvent resistant, standard GearWrench handles to give you the grip and control to **GET IT DONE.**

Strength

- Blades are securely fixed in the handle so they do not twist during use
- Resistant to gas, brake fluid, anti-freeze and other solvents
- Alloy Steel Blade for durability

- Laser Etched Sku Number on blade
- Full Polish Chrome for corrosion resistance
- 14" Overall Length
