

Premium Synthetic Wax Cable Pulling Lube 1-Quart

From Klein Tools, Premium Synthetic Wire-Pulling Lubricant is a high-performance waxed-based lubricant designed for general electrical and utility applications, and is compatible with all types of cable, including low-density polyethylene (LDPE). This product goes beyond traditional lubricants with a synthetic formulation that significantly advances the properties of the compound, drastically reducing friction for easier pulling.

Specifications

Application:	Lubricant for General Electrical and Utility Application	Special Features:	Easy to Apply Gel Clings Instantly
Size:	1 Quart (0.9 L)	Container:	Squeeze Bottle
Working Temperature:	20° F to 122° F (-6° C to 50° C)	Weight:	2.3 lb (1.0 kg)
