Creating **Exceptional Workplaces***

At Kimberly-Clark Professional*, we understand the value of people. That's why everything we do is designed to put people first and make sure they're taken care of. Because it's only when your people are well cared for that your company is able to thrive.

With brands you can trust, you'll find we have the solutions and programs designed to get your employees actively involved in making their workplace healthier, safer, and more productive.

Do You Have an Efficient Workplace?

The Efficient Workplace from Kimberly-Clark Professional* focuses on quick, easy changes in industrial and washroom supply management that can have a big impact on safety and productivity.

Why Kimberly-Clark?

Kimberly-Clark Professional* is highly skilled in problem solving with industrial and washroom supply management through our achievements in hazard reduction and efficiencies in our own manufacturing facilites. That means we look at the entire lifecycle of the supplies you use, including product choice, storage, dispensing, use and disposal. Then we find simple ways to eliminate wastes and hazards.

Take a Walk With Us

Discover hidden opportunities for continued improvement. And remember, little changes can have a big impact so contact us today to start your continuous improvement journey.

Kimberly-Clark PROFESSIONAL* | Exceptional Workplaces*

RightCycle* by KIMBERLY-CLARK PROFESSIONAL*

Turn previously hard-to-recycle products into useful, eco-friendly items.

RightCycle by Kimberly-Clark Professional* is a program that enables you to collect previously hard-to-recycle items such as Kimberly-Clark Professional* nitrile gloves and single-use apparel, and have them turned into ecofriendly patio furniture, trash cans, planters & more.

Why The RightCycle Program?

Our Program enables you to:

- Reach your organization's sustainability goals
- Divert from your waste stream towards zero landfill
- Aid in the creation of colorful, eco-friendly products

Take the next step in your waste reduction journey and choose RightCycle by Kimberly-Clark Professional*.

Look for this symbol to see which products are eligible for recycling.

Personal Protective Equipment

Kimberly-Clark Professional* is your partner for innovative safety products designed to make your workplace healthier, safer and more productive. Our leading brands — Jackson Safety* and KleenGuard* — deliver trusted product solutions across a broad range of safety categories, from protective apparel, gloves and eyewear to respiratory solutions – all recognized for unsurpassed protection, comfort and style.

KleenGuard* Brand **Apparel**

Protection, Comfort & Style designed around you.

KleenGuard* Brand Protective Apparel solutions are designed to increase worker compliance and productivity by delivering quality protection with optimal comfort.

See our interactive selection tool to help you choose the right apparel.

Product by Hazards

	Dry Particle Protection		Liquid Particulate Protection			Flame Resistant	Chemical Protection	
	General Dirt & Grime	Light Splash	Liquid Under Pressure	Isocyanate[1] & Chromate[2]	Blood & Bloodborne Pathogens	Sparks/Flame	Chemical Splash	Chemical Splash & Vapor/Gas
Premium	**A20**	**A30**	**A40**	**A45**	**A60**	**A65**	**A70**	**A80**
Economy	**A10**		**A35**					

[1] *Tested against polyurethane containing polymeric isocyanate (40% concentration)*
[2] *Tested against potassium chromate (20% concentration)*

Choosing a Garment

Before choosing a protective garment, a detailed hazard and risk assessment must be performed. Factors to be considered include **the consequence and likelihood of exposure; specific work environment; route of exposure and the orientation of exposure to the hazard.** Upon recording the hazards and assessing all risks, engineering controls are the first step to mitigating any hazard. When exposure to hazards cannot be engineered completely out of normal operations or maintenance work, and when safe work practices and other forms of administrative controls cannot provide sufficient additional protection, a supplementary method of control is the use of protective clothing.

Styles

Reflex Design includes elastic back*

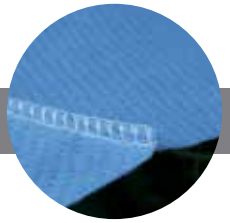
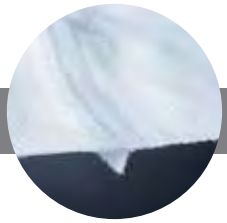
Seams



A ***SERGED SEAM*** is a basic stitched seam that's appropriate for exposure to non-hazardous substances. Overlap stitching provides strength and durability.

A ***BOUND SEAM*** is a serged seam that's reinforced with binding for strength and tear resistance.



A ***TAPED SEAM*** is serged, then reinforced with a film tape that's resistant to water and many liquid chemicals.

If your application requires a chemical-resistant taped seam, you should ensure that the tape offers appropriate resistance to the chemical involved.

Key

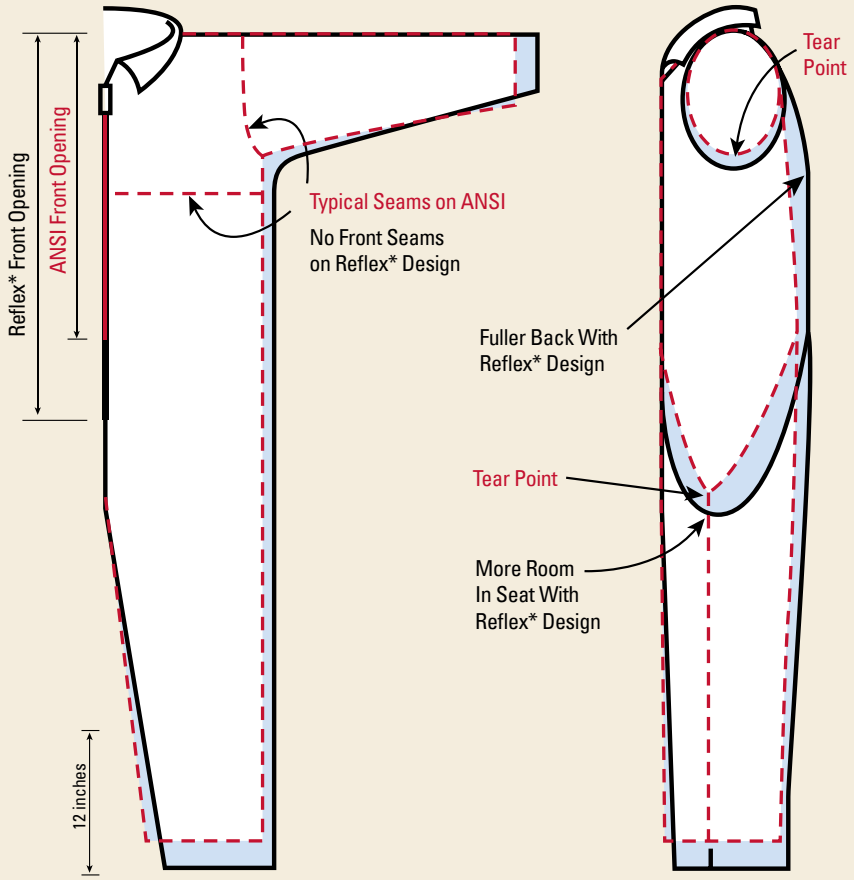
- **TAA:** Product complies with the Trade Agreements Act
- **Vending:** Vending Machine Ready
- **MTO:** Made-to-Order denoted by ■
- **RightCycle** by Kimberly-Clark Professional*

Look for this symbol to see which products are eligible for recycling.

Reflex* Design Sizing

Reflex* Coverall Design:

- Provides a fuller cut and a generous fit for added range of motion
- 7-1/2 times less likely to rip out vs. minimum ANSI
- 6% longer body length
- 12% more chest room
- Seamless front provides more protection in the primary exposure area



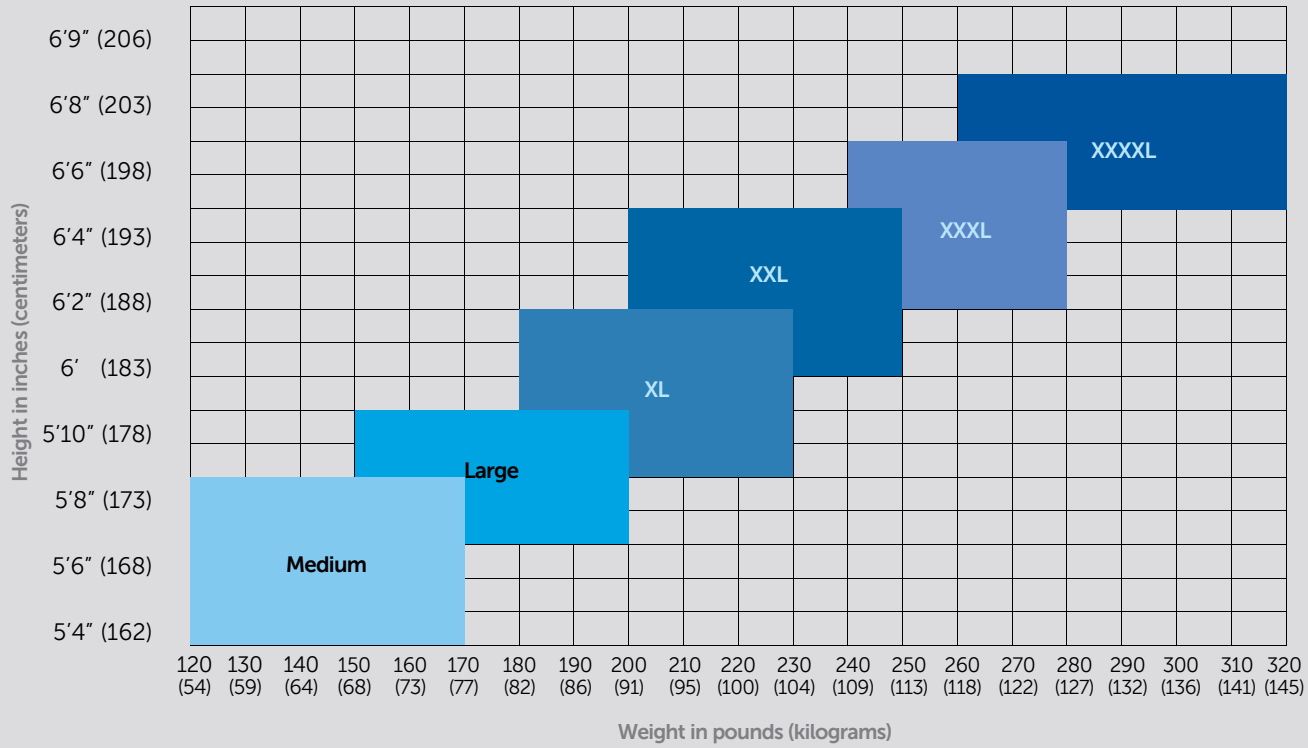
Solid ***Black*** line indicates KleenGuard* Brand Reflex* Design

Dotted ***Red*** line indicates ANSI/ISEA 101-1996 Design Minimums

Blue areas demonstrate the superior Reflex* Design over ANSI design

The following KleenGuard* Brand Coveralls have the Reflex* Design: A20, A30, A45, A60, A70 and A80.

Sizing Chart for Reflex* Design Garments



TAA Compliant

Complying with the Federal Acquisition Regulations (FAR) is something that is top of mind for all Federal Government employees. One of the key elements and most easily missed elements of the FAR is the reference to the Trade Agreements Act (TAA), meaning products be manufactured or "substantially transformed" in a "designated country." Kimberly-Clark has developed a full line of TAA compliant protective apparel that provides you with the peace of mind and reassurance that you are purchasing product that complies with the Trade Agreements Act.

These items are identified throughout the catalog with this icon: TAA

A10 Light Duty Apparel

Protective wear designed for entry level hazardous dust protection

IDEAL FOR USE when workers are in temporary contact with dirt and grime such as:

- Food processing
- General maintenance and manufacturing

FEATURES

- Lightweight, breathable coverall providing a cool, comfortable work environment
- Meets ANSI/ISEA 101-1996 sizing standards
- Serged seams

A20 Breathable Particle Protection Apparel

Designed to move with you while protecting against non-hazardous and hazardous dust

IDEAL FOR USE when workers are in nonstop contact with dirt and grime such as:

- Laboratories
- Remediation
- Heavy dust environments
- Pesticide application
- Modesty garment

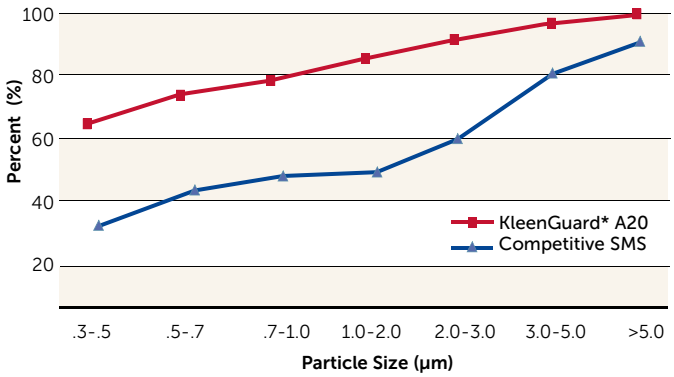
The KleenGuard* A20 SMMMS offers superior particle holdout coupled with unmatched comfort attributes offering workers protection without sacrificing comfort. The A20 fabric is five layers of stacked barrier protection (SMMMS) against hazardous particles.

FEATURES

- Lightweight and breathable
- Reflex* Coverall Design offers excellent fit and freedom of movement
- Seamless front to provide more protection in the primary exposure area
- Passes NFPA 99 for antistatic materials
- Serged seams

Available in White and Blue Denim

Superior Particle Holdout



KleenGuard* A20 Coveralls meet the EPA Agricultural Worker Protection Standard (WPS) requirements for "coveralls"

A30 Breathable Splash & Particle Protection Apparel

Designed to move with you while protecting against hazardous dry particles, aerosols and non-hazardous light liquid splash

IDEAL FOR USE when workers are in nonstop contact with dirt and grime where light splashes exist, such as:

- Pressure washing
- Powder painting
- Pharmaceutical research
- Fine-particle contamination
- Aerospace
- Maintenance/general manufacturing
- Aerosolized spray painting

KleenGuard* Apparel Microforce* Barrier SMS Fabric
Outer Layers – Cloth-like, yet tough and abrasion-resistant spunbond polypropylene

Middle Layers – Intricate web of micro-fibers that filter out many water-based liquids and dry particulates.

FEATURES

- Strong and abrasion-resistant
- Filters out many water-based liquids and dry particles
- Reflex* Coverall Design offers excellent fit and freedom of movement
- Seamless front provides more protection in the primary exposure area
- Breathable, patented Microforce* Barrier SMMMS fabric blocks particles from penetrating garment
- Passes NFPA 99 for antistatic materials
- Serged seams

A40 Liquid & Particle Protection Apparel

Designed for protection against hazardous particles and liquids

*Also available with **Blue Breathable Back***

*Now available with **Thumb Holes***

IDEAL FOR USE when workers are in nonstop contact with hazardous particles or liquids such as:

- Fiberglass manufacturing
- Tank cleaning
- Utilities
- Liquid handling
- Pressure washing
- Maintenance/ general manufacturing
- Mold remediation
- Agriculture
- Lead abatement
- Sewage work

FEATURES

- Liquid barrier, particulate barrier, low in lint
- Passes NFPA 99 for antistatic materials
- Passes ASTM F1670 testing for penetration of blood and bodily fluids
- Meets ANSI/ISEA 101-1996 sizing standards
- Serged seams

*Reference the Technical Data Guide for current liquid chemical resistance information at **www.KCProfessional.com***

A45 Liquid & Particle Protection Surface Prep & Paint Apparel

Designed to move with you while protecting in work environments where hazardous or non-hazardous contaminants may be present

Reflex* Coverall Design offers excellent fit and freedom of movement

IDEAL FOR USE in surface prep and paint application areas where isocyanate[1] and chromate dust protection is mandated.

Made with lighter-weight fabric than KleenGuard* A40 Liquid and Particle Protection suit allowing for improved comfort without sacrificing protection.

Designed specifically for the Surface Prep and Paint area in mind, KleenGuard* A45 allows more freedom of movement and less restriction allowing the worker to complete their job without modifying the garment.

FEATURES

- Protects against isocyanates[1]
- Protects against chromate dust
- Silicone-free[2]
- Reflex* Coverall Design offers excellent fit and freedom of movement
- Passes NFPA 99 for antistatic materials
- Not processed with natural rubber latex
- Respirator fit hood design
- Water-resistant zipper
- Serged seams

KleenGuard* A45 Fabric Liquid Chemical Resistance Test

Chemicals	Test Method	Results
Isocyanate paint 40%	F903 Method D	Pass
Chromated epoxy corrosion primer 10%	F903 Method D	Pass

Reference the Technical Data Guide for current liquid chemical resistance information at www.KCProfessional.com

[1] *Tested against polyurethane containing polymeric isocyanate (40% concentration)*

[2] *Per BMS 15-5G Method 2611 and AMS 3819C, 1% detection limit*

Dry Particle Protection		Liquid Particulate Protection			Flame Resistant	Chemical Protection	
General Dirt & Grime	Light Splash	Liquid Under Pressure	Isocyanate[1] & Chromate[2]	Blood & Bloodborne Pathogens	Sparks/Flame	Chemical Splash	Chemical Splash & Vapor/Gas

A60 Bloodborne Pathogen & Chemical Protection Apparel

Designed to move with you, offering protection in work environments where contact with blood, bodily fluids and bloodborne pathogen hazards are present

IDEAL FOR USE when workers may come into contact with bloodborne pathogens in:

- Crime lab
- Emergency medical response
- Crime scene cleanup
- Embalming/forensics and animal research

This protective coverall is made from a patented seven-layer fabric. The tough outer layers protect the film barrier from tearing and abrasion.

FEATURES

- Passes ASTM F1670/F1671 testing for penetration of blood, bodily fluids and bloodborne pathogens
- Reflex* Coverall Design offers excellent fit and freedom of movement
- Seamless front to provide more protection in the primary exposure area
- Three-layer fabric construction features:
  - A middle layer of microporous film that allows heat and sweat vapor to escape keeping the worker cool
  - Outer-layer film barrier against tearing and abrasion
- Taped storm flap
- Passes NFPA 99 for antistatic materials
- Serged seams

Recommended by: American Biorecovery Association

A65 Flame Resistant Apparel

Designed for protection against non-hazardous and hazardous dust in areas where exposure to sparks is possible

Do not use for fire protection. Avoid open flame or intense heat. KleenGuard A65 garments do not provide thermal insulation/ protection.*

IDEAL FOR USE when workers may be exposed to sparks; in environments, such as:

- Oil refining
- Utilities
- Welding processes
- Grinding processes

KleenGuard* A65 is breathable with a high moisture vapor transmission rate to be worn comfortably over Flame-Resistant garments.

- Flame-resistant and compliant with NFPA 701 FLAME PROPAGATION TEST (1999 edition)
- Complies with flame resistance requirements cited by paragraph 6.1 of CAN/CGSB-155.2-2000
- Passes NFPA 99 for antistatic materials
- Design meets ANSI/ISEA 101-1996 sizing standard
- Serged seams

A70 Chemical Spray Protection Apparel

Designed to move with you, offering protection in environments where contact with hazardous chemicals are present

IDEAL FOR USE when workers may come into contact with hazardous chemicals, as in:

- Hazardous waste remediation
- Environmental cleanup
- Petrochemical/oil refining
- Acid/caustic handling
- Biohazard cleanup
- Tank cleaning
- Pharmaceutical manufacturing

KleenGuard* A70 is 1.5 mil polyethylene-coated fabric resistant to many water-based liquids, greases and oils, and liquid chemical splashes. Protection with exceptional comfort is why 75% of industrial workers preferred KleenGuard* A70 over the leading brand for fit and productivity.

- Wick-away lining for enhanced comfort
- Liquid-resistant, extra-long zipper
- Taped, sealable zipper flap
- Reflex* Coverall Design offers excellent fit and freedom of movement
- Seamless front for more protection in the primary exposure area
- Bound seams
- Passes NFPA 99 for antistatic materials

A80 Chemical Permeation & Jet Liquid Protection Apparel

Designed to move with you, offering protection in environments where contact with hazardous chemical vapors may be present

IDEAL FOR USE when workers may come into contact with hazardous chemical vapors such as:

- Chemical handling/mixing/cleanup
- Hazardous material handling
- Hazardous waste cleanup
- Industrial Hazmat teams
- Petrochemicals
- Utilities

KleenGuard* A80 is made of Saranex® 23-P Film laminated to a durable fabric which provides a soft cloth-like feel against the skin.

- Saranex® 23-P Film laminated
- Taped, sealable zipper flap
- Liquid-resistant, extra-long zipper
- Reflex* Coverall Design offers excellent fit and freedom of movement
- Seamless front provides more protection in the primary exposure area
- Respirator-fit hood design for compatibility with complementary PPE
- Taped seams

⚠ **WARNING:** Fabric passes penetration testing; however, the chemical is a known or suspected carcinogen or skin absorbed toxin.

38724	N/A	Grey & Salt & Pepper	10 (XL)	12 pairs/bag • 1 bag/case
38725	N/A	Grey & Salt & Pepper	11 (2XL)	12 pairs/bag • 1 bag/case

Product Features

- ANSI Level 4/EN388 Level 5 cut resistance
- CPPT = 2085 grams
- Superior cut resistance based on tests performed against the competition
- Ultra-High-Molecular-Weight Polyethylene (UHMWPE) fiber spun with glass, stainless steel and spandex
- Polyurethane coating enhances grip
- Touchscreen compatible

G60 Level 2 Cut Resistant Sleeves†

Code	Vending	Color	Size	Case Count
90070	**37731**	Yellow	One size fits all	6 pairs/bag • 5 bags/case
90071	**37732**	Yellow	One size fits all	6 pairs/bag • 5 bags/case

† CAUTION: This Product Contains Natural Rubber Latex Which May Cause Allergic Reactions.
Sleeve must not come into contact with a naked flame.

Product Features

- ANSI Level 2/EN388 Level 2 cut resistance
- CPPT = 934 grams with thumbhole/ 920 grams without thumbhole
- 18" length
- Cut-resistant outer layer with cotton inner layer for comfortable fit
- Good breathability

G60 Level 5 Cut Resistant Sleeve†

Code	Vending	Color	Size	Case Count
90075	**43408**	Salt & Pepper	One size fits all	6 pairs/bag • 2 bags/case

† CAUTION: This Product Contains Natural Rubber Latex Which May Cause Allergic Reactions.

Product Features

- ANSI Level 3/EN388 Level 5 cut resistance
- CPPT = 1244 grams
- 18" length
- Ultra-High-Molecular-Weight Polyethylene (UHMWPE) fiber with nylon, Lycra® fiber and glass liner
- Proprietary adjustable closure on arm and wrist

G80 Chemical-Resistant Gloves

G80 Nitrile Chemical Resistant Gloves

Code	Vending	Color	Size	Case Count
94445	**42622**	Green	7 (S)	12 pairs/bag • 5 bags/case

Designed with the wearer's needs and style in mind, Jackson Safety* branded eyewear offers a comprehensive portfolio of eye protection options. Kimberly-Clark Professional* offers a wide variety of performance safety eyewear under the Smith & Wesson® brand.

Standards

- **ANSI Z87.1:** The American National Standards Institute (ANSI) is a private non-for-profit organization that aims to enhance the global competitiveness of U.S. business and the American quality of life by promoting and facilitating voluntary consensus standards and conformity. With ANSI Z87.1, ANSI establishes the requirements for the design, construction, testing, and use of eye protection, including standards for impact and penetration resistance. ANSI Z87.1 also provides guidelines around safety markings, including:
  - **"Z87+"** indicates impact rated as determined by a minimum threshold set forth in the ANSI tests and performance requirements for coverage area, penetration, and high-mass/high-velocity impact tests ("Z87" alone indicates non-impact rated)
  - **"D3"** indicates that the eyewear is capable of keeping liquid splashes or droplets from reaching the wearer's eyes when worn properly, as determined by an ANSI-established test method and performance requirement
  - **"D4"** indicates that the eyewear is capable of keeping large dust particles from reaching the wearer's eyes when worn properly, as determined by an ANSI-established test method and performance requirement
  - **"D5"** indicates that the eyewear is capable of keeping fine dust particles from reaching the wearer's eyes when worn properly, as determined by an ANSI-established test method and performance requirement
  - **"W"** + a shade number (1.3 to 14) indicates the extent to which a welding lens will filter harmful radiation, attenuate visible light, and prevent injurious rays from reaching the wearer's eyes , as determined by an ANSI-established transmittance test
  - **"S"** indicates that lenses are tinted but do not provide any protective filtering properties. These lenses are often worn for comfort or style and usually (although not always) have less than 85% visible light transmission, as determined by an ANSI-established transmittance test and performance requirement
- **CSA Z94.3:** The Canadian Standards Association (CSA) is a not-for-profit, membership-based association in Canada that develops standards that address needs such as enhancing the public safety and health. The CSA Z94.3 standard relates to eye and face protectors for industrial and educational processes, outlining the performance requirements against hazards such as: flying particles/objects, heat/sparks, chemical splashes, molten metal, UV, visible and infrared radiation.
- **CE Standards**: CE is a mandatory European product marketing and certification system that indicates whether or not the product complies with all applicable European product safety, health and environmental requirements. The EN166 standard establishes basic technical requirements for eye and face protection. Within the EN166 standard, there are numerous levels of compliance, depending on the end use of the piece of equipment in question. There are additional standards applied, based on the product type and use. Other CE standards address optical and non-optical test methods for the EN166 performance requirements.

Other Governing Bodies

- **OSHA:** Occupational Safety and Health Administration (OSHA) is an agency of the United States Department of Labor. Their mission is to prevent work-related injuries, illnesses, and deaths by issuing and enforcing standards for workplace safety and health.
- **ISEA:** The International Safety Equipment Association is the trade association in the United States for companies that manufacture safety and personal protective equipment and an ANSI-accredited standards-developing organization. ISEA works closely with safety equipment manufacturers, test labs, subject matter experts, end-users, and government agencies with the objective of protecting workers worldwide.

Symbols Key

- **Z87.1+:** Meet the ANSI requirements for high-impact protection
- **CSA:** Certified to meet the requirements of CSA Z94.3
- **UV:** Lenses are made of a polycarbonate material that provides 99.9% UVA/UVB/UVC protection
- **TAA:** Product complies with the Trade Agreements Act
- **Base Curve:** Number denotes the base curve of the eyewear; a higher base curve provides more wraparound protection and peripheral vision, and can reduce the need for side shields
- **D3:** Meet the ANSI D3 requirements for protecting from liquid splashes or droplets
- **D4:** Meet the ANSI D4 requirements for dust protection
- **D5:** Meet the ANSI D5 requirements for fine dust protection

Selecting the Right Eyewear

Lens Color Selection

Color[1]	Visible Light Transmittance[2]	Description	Environment
Clear	100-85%	Allows maximum visible light transmission	Indoor
Amber/Yellow	91-74%	Light-gathering properties for low-contrast areas	Low Light
Light Blue	70-55%	Provides enhanced contrast	Indoor
Gradient Smoke	68-62%	Lenses are darkest at the top and progressively become lighter to protect eyes from the sun while allowing greater visibility at the bottom of the lens.	Outdoor
Indoor/Outdoor	66-45%	Move from indoor or shaded conditions to outdoor	Indoor/Outdoor
Orange	56-52%	Light-gathering properties for low-contrast areas	Low Light
1/2 Shade	50-45%	1/2 way between clear and smoke tint	Indoor/Outdoor
Copper Blue Shield	40-34%	Filters out blue light for enhanced contrast	Outdoor
Teal	37-33%	Provides enhanced contrast	Indoor
Bronze	26-20%	Provides visual definiton with increased contrast	Indoor/Outdoor
Smoke	25-8%	Worn on bright, sunny days to provide glare reduction	Outdoor
Metallic Rainbow	20-16%	Amplifies color contrast with outdoor metallic finish coating	Outdoor
Brown Polarized	18-22%	Brown-tinted lenses with embedded polarized technology effective for filtering scattered blue light to improve depth perception and contrast	Outdoor
Smoke Polarized	18-22%	Smoke-tinted lenses with embedded polarized technology for optical clarity and to help reduce the glare of reflected light, eye stress, and eye fatigue	Outdoor
IRUV Shade 3.0	18-8.5%	Protects against infrared (IR) and ultraviolet radiation (UVA/UVB)	Light Cutting/ Brazing
Red Mirror	17-33%	Smoke-tinted sunglasses with outer red-mirror finish coating	Outdoor
Silver Mirror	16-7%	Silver-tinted sunglasses with outer silver-mirror finish coating	Outdoor
Smoke Mirror	16-7%	Smoke-tinted sunglasses with outer mirror finish coating	Outdoor
Blue Mirror	16-3.5%	Smoke-tinted sunglasses with outer blue-mirror finish coating	Outdoor
Metallic Blue	15-11%	Amplifies color contrast with outdoor metallic-finish coating	Outdoor
Mirror	13-9%	Outer silver-mirror finish coating	Outdoor
Green Mirror	13-9%	Smoke-tinted sunglasses with outer green-mirror finish coating	Outdoor
Gold Metallic	13-9%	Smoke-tinted sunglasses with outer mirror finish coating	Outdoor
Brown	12-8%	Worn on bright, sunny days to provide glare reduction	Outdoor
IRUV Shade 5.0	3.16-1.18%	Protects against infrared (IR) and ultraviolet radiation (UVA/UVB)	Medium Cutting/ Brazing

Lens Type Selection	
Uncoated	For economical budgets and fewer uses
Hardcoated	For scratch resistance and longer life
Anti-Fog	For humid environments and temperature variances

[1] Actual lens colors may vary according to each style
[2] A range is provided, as % visible light transmittance (% VLT) may vary by style

These devices are tinted for comfort and style only, and the transmittance is reported for information on "darkness" of the lens only. Unless the product is marked as such, these are not tested to the ANSI Z87 requirements for visible light protectors.

Jackson Safety* **Face Shields**

Used in conjunction with protective eyewear, Jackson Safety* Brand Face Shields provide a high degree of on-the-job protection for heat applications, as well as for grinding, flying debris and splash protection, among others.

All Jackson Safety* Brand Face Shields meet ANSI Z87.1 2010 Standards when used with any Jackson Safety* Brand Headgear.

(except for 28765)

F60	Wire Face Shields
F50	Polycarbonate Special Face Shields
F40	Propionate Face Shields
F30	Acetate Face Shields
F20	Polycarbonate Face Shields
F10	PETG Face Shields

MATERIAL TYPES

PETG
- A low-cost, recyclable option

Polycarbonate
- Impact performance
- Good performance against heat
- Excellent cold flexibility

Acetate
- Robust combination of weight and strength
- Excellent cold flexibility

Propionate
- Lightweight

Wire Mesh
- Wear with face shield to dissipate heat
- Ideal for flying-debris applications
- Air flow for comfort

LENS TINTS

Clear
Allows for maximum visible-light transmission.

IRUV
Worn for applications and in environments where others are performing welding tasks such as torch brazing, torch soldering, gas welding, and oxygen cutting. Available in Shades 3.0 and 5.0.

SPECIAL TINTS
Enhances vision and reduces glare by blocking light transmission. Available in light, medium, and dark green tints.

WARNING: APPLICATIONS & SAFETY
Face shields do not provide unlimited eye and face protection — primary eye protection (safety eyewear or goggles) must be worn.

Jackson Safety*
Head Protection

With a variety of styles and suspension options available, Jackson Safety* Brand Hard Hats and Attachment Accessories are your first line of defense against potential head hazards.

TYPES & CLASS STANDARDS

Protective hard hats are classified according to the specific impact and electrical performance requirements they are designed to meet. All protective hard hats in accordance with this standard shall meet either Type I or Type II impact requirements. In addition, all hard hats are further classified as meeting Class C, Class G, or Class E electrical requirements.

IMPACT TYPES

Type I: Hard hats intended to reduce the force of impact resulting from a blow only to the top of the head.

Type II: Hard hats intended to reduce the force of impact resulting from a blow which may receive limited protection off center, lateral or to the top of the head.

ELECTRICAL CLASSES

Class C (Conductive): Class C hard hats are not intended to provide protection against contact with electrical conductors.

Class G (General): Class G hard hats are intended to reduce the danger of contact exposure to low-voltage conductors. Test samples are proof-tested at 2,200 volts (phase to ground). However, this voltage is not intended as an indication of the voltage at which the hard hat protects the wearer.

Class E (Electrical): Class E hard hats are intended to reduce the danger of exposure to higher-voltage conductors. Test samples are proof-tested at 20,000 volts (phase to ground). However, this voltage is not intended as an indication of the voltage at which the hard hat protects the wearer.

OPTIONAL STANDARDS

Reverse Donning: Reverse wearing option hard hats must pass force transmission requirements whether they are worn facing frontward or backwards in accordance with the manufacturer's wearing instructions.

LT-Low Temperature: Hard hats marked with LT for low temperature shall pass impact testing after samples are placed in an environmental chamber maintained at -30°C ± 2°C for at least four hours with the base of the helmet facing upward.

HV-High Visibility: Hard hats marked with HV for high visibility shall demonstrate chromaticity and luminance developed for high-visibility applications.

Jackson Safety* Hard Hat Interchange System

The All-In-One Safety Solution. Injuries can happen in a split second — even during the time it takes to remove a hard hat when you need a face shield or welding helmet.

Now it's easy to stay protected at all times with the Jackson Safety* Hard Hat Interchange System from Kimberly-Clark Professional*. It lets you easily add, remove or switch between your welding helmet or face shield — all without removing your hard hat.

Hard Hat Interchange System

39477

Code	Description	Case Count
39477	Hard Hat Interchange System	6
38426	Interchange Welding Helmet System	6
38425	Hard Hat Interchange Face Shield System	6
39476	Hard Hat Interchange System SC-6 Replacement Blades	6

Product Features

- One-button action for quick release, even with gloves on
- Vertical lock-in eliminates helmet/face shield creep
- Audible click — know your PPE is assembled correctly without visual inspection
- Keep your hard hat ANSI Z98.1 class E rated with dielectric Hard Hat Interchange System
- Accommodates all Jackson Safety* Face Shields; HSL Series Hoods; HaloX Hoods and Nitro* Hoods

Keep Your Hat On — And Your Productivity Up.

See how easy it is to stay protected at all times in this "How to" video.

Blade Mounted

437 Capshield

Code	Old Code	Description	Case Count
14947	3002444	437 Capshield	12

Product Features

- Totally dielectric[1], for slotted caps
- Curved plastic channel fits over the bill of the cap and includes pivoting blades that snap easily into cap slots
- Face shields are secured with integral plastic lugs
- Attaches to SC-6 and Sentry III* Hard Hats

A-5500X

Code	Old Code	Description	Case Count
14506	3000448	A-5500X	15

Product Features

- Used with slotted caps
- Pivots up and secures in different positions
- Face shields are secured with integral plastic lugs
- Attaches to SC-6, Sentry III* and Charger* Hard Hats

382 B Cap Adapter

Code	Old Code	Description	Case Count
14944	3002441	382 B Cap Adapter	12
14951	3002449	Bulk Pack	40

Product Features

- Totally dielectric[1] for slotted caps
- Polyethylene spark deflector with pivoting blades
- Face shields are secured with integral plastic lugs
- Attaches to SC-6, Sentry III* and Charger* Hard Hats

[1] Dielectric means all exposed parts are plastic or rubber

82 B Capmount Adapter

Code	Old Code	Description	Case Count
14941	3002438	82 B Capmount Adapter (Plastic detach brackets)	12
14949	3002446	82 BM Capmount Adapter (Metal detach brackets)	12

Product Features

- Used with slotted caps
- Polyethylene spark deflector with quick detach brackets
- Face shields are secured with integral plastic lugs
- Attaches to any cap equipped with 87 mounting blades

Cord Mounted

337 Capshield

Code	Old Code	Description	Case Count
14946	3002443	337 Capshield	12

Product Features

- Totally dielectric[1] for non-slotted caps
- Curved plastic channel fits over the bill and secures with adjustable rubber headband that stretches around the exterior cap crown
- Face shields are secured with integral plastic lugs
- Attaches to SC-6, Sentry III* and Charger* Hard Hats

282 B Capmount Adapter

Code	Old Code	Description	Case Count
14943	3002440	282 B Capmount Adapter	12
14952	3002450	282 B Capmount Adapter (Bulk)	40

Product Features

- Used with non-slotted caps
- Uses clips pressed over the cap rim for firm fit
- Polyethylene spark deflector

A-5500SN

Code	Old Code	Description	Case Count
14505	3000447	A-5500SN	12

Product Features

- Totally dielectric[1]
- Heavy-duty rubber cord holds bracket in place
- Attaches to SC-6 and Charger* Hard Hats

Model K-4 Cap Adapter

Code	Old Code	Description	Case Count
14398	3000046	Model K-4 Cap Adapter	6
14397	3000045	Model K-4 Cap Adapter (Bulk)	60

Product Features

- Holds face shield firmly on caps with heavy-duty clips and springs
- Includes spark guard with slots that can hold face shield in down position

Cap Coil Spring Attachments

Model P Cap Adapter

Code	Old Code	Description	Case Count
14391	3000034	Model P Cap Adapter	24

Used with bill forward-facing hats

Product Features

- Locking device holds face shield securely in the up or down position
- Face shield sold separately
- Attaches to SC-6, Sentry III* and Charger* Hard Hats

[1] *Dielectric means all exposed parts are plastic or rubber*

137 Capshield

Code	Old Code	Description	Case Count
14948	3002445	137 Capshield	12

Product Features

- Metal device for non-slotted caps
- Curved aluminum channel and coil spring attachment
- Attaches to SC-6, Sentry III* and Charger* Hard Hats

182 B Capmount Adapter

Code	Old Code	Description	Case Count
14942	3002439	182 B Capmount Adapter	12

Product Features

- Used with non-slotted caps
- Polyethylene spark deflector
- Face shields are secured with integral plastic lugs

Model C Cap Adapter

Code	Old Code	Description	Case Count
14390	3000032	Model C Cap Adapter	24

Used with bill backward-facing hats

Product Features

- Model C cap adapter easily attaches face shield
- Face shield sold separately
- Attaches to SC-6, Sentry III* and Charger* Hard Hats

Model H Hat Adapter

Code	Old Code	Description	Case Count
14393	3000038	Model H Hat Adapter	24

Product Features

- Locking device holds face shield securely in the up or down position
- Attaches to full-brim hard hats

37 Hatshield

Code	Old Code	Description	Case Count
14945	3002442	37 Hatshield	12

Product Features

- Curved aluminum channel and coil spring attachment allows attachment of most Jackson Safety* Face Shields
- Attaches to full-brim hard hats

Hard Hat Accessories

Safe 2 Protection System

Code	Old Code	Description	Case Count
16797	3005410	Face Shield Bracket	1/Box
25973	3005401	Face Shield: Clear Polycarbonate	1/Box
16800	3005415	Face Shield: Nylon Mesh	1/Box
16799	3005413	Face Shield: Steel Mesh	1/Box

20778	3015093	Capmount Earmuffs: Black NRR 27	1/Box

Product Features

- System is designed for slotted caps
- Face shield bracket features an encapsulated stainless steel spring which ensures that the face shield stays in the selected position
- Face shields are shaped to follow the contours of the face
- Hard hat, bracket, face shield and ear muffs all sold separately

AA-7 Windgard* Head Protection

Code	Old Code	Description	Case Count
16756	3005341	AA-7, Red	12/Pack
14494	3000434	AA-7, Navy Blue	12/Pack
14495	3000435	AA-7, Orange	12/Pack

Product Features

- Warmth for temps 32˚ to 0˚F (0˚ to -20˚C)
- Fits over most safety caps and full-brim styles

AA-8 Windgard* Head Protection

Code	Old Code	Description	Case Count
14496	3000436	AA-8, Red	12/Pack

Product Features

- Warmth for temps 32˚ to 0˚F (0˚ to -20˚C)
- Snug-fitting cap style fits over most hard hats

AA-9 Windgard* Head Protection

Code	Old Code	Description	Case Count
16757	3005342	AA-9, Red	12/Pack
14497	3000434	AA-9, Navy Blue	12/Pack

Product Features

- Warmth for temps 0˚ to -20˚F (-20˚ to -28 ˚C)
- Full face and neck model protects mouth and cheeks
- Fits over most safety caps

Jackson Safety*
Seasonal Apparel

Choose from a number of seasonal products including lightweight cooling headbands, winterliners and wind guards that make protection and comfort easy in both hot and cold weather.

Winterliners

Kimberly-Clark Professional* offers a comprehensive line of thermal winterwear designed to protect workers from the elements.

Temperature Range Coding					
	45° to 32°F or 8° to 0°C		32° to 0°F or 0° to -20°C		0° to -20°F or -20° to -28°C

The above suggested ranges are to assist in choosing an appropriate liner for various climates

225 Plus Winterliner

Code	Old Code	Description	Case Count	Product Features
14502	3000442	225 Plus Winterliner	12/Pack	• Can be worn under caps and hats • Hook-and-loop fastener for a comfortable, close fit • Outer shell: quilted nylon with extra-thick foam fill • Lining: polyester fleece • Meets 16 CFR 1610, Class 1

250M Winterliner

Code	Old Code	Description	Case Count	Product Features
16762	3005348	250M Winterliner	12/Pack	• Can be worn under caps and hats • Hook-and-loop fastener for a comfortable, close fit • Outer shell: cotton twill • Lining: polyester fleece • Meets 16 CFR 1610, Class 1

305 TSL Winterliner

Code	Old Code	Description	Case Count
14503	3000443	305 TSL Winterliner	3/Pack

Product Features

- Ideal for cold-weather environments
- Full head and neck coverage with extra-wide wrapped collar
- Shoulder-length liner can be tucked into jacket
- Hook-and-loop fastener straps
- Outer shell: 100% cotton twill
- Inner shell: heavyweight fleece
- Meets 16 CFR 1610, Class 1

325 Ultra Winterliner

Code	Old Code	Description	Case Count
14499	3000439	325 Ultra Winterliner	3/Pack

Product Features

- Ideal for cold-weather environments
- Can be worn over hearing products
- Top section is flame-retardant
- Bottom section is flame-resistant
- Detachable bottom section is double-layered, heavy-spun polyester
- Nape piece closes with two buttons
- Top shell: cotton twill
- Lining: brushed 100% polyester fleece (top only)
- Bottom shell: double nylon knit
- Meets 16 CFR 1610, Class 1

400 Winterliner

Code	Old Code	Description	Case Count
14501	3000441	400 Winterliner	3/Pack

Product Features

- Ideal for extreme cold-weather environments
- Full head and neck coverage with extra-long nape and wraparound collar
- Shoulder length that can be tucked into jacket
- Outer shell: cotton twill
- Lining: polyester sherpa
- Meets 16 CFR 1610, Class 1

Wind Jammer IV

Code	Old Code	Description	Case Count
16760	3005346	Wind Jammer IV	3/Pack

Product Features

- Ideal for extreme cold-weather environments
- Long nape and wraparound design provides extra warmth and a snug fit
- Silver with black fastener straps and elastic border stitching
- Meets 16 CFR 1610, Class 1

Flash-Tex* Liners

Flash-Tex* Liners are designed to assist in complying with OSHA 1910.269.

Flash-Tex* Liners – 650 NPR and 695 NPR

Flame-Resistant		Laundering Data		Char Length †	
Outer Shell	Inner Shell	Outer Shell	Inner Shell	Outer	Inner
Nomex® inherently flame-resistant	Proban® durable flame-resistant	FR properties last lifetime	Retains FR properties up to 25 industrial washes or 50 domestic washes	2.4	3.5

***Note**: Data obtained from material manufacturers' testing. For additional technical information, contact Customer Service.*

†The length of brittle residue when material is exposed to thermal energy.

695 NPR Winterliner

Code	Old Code	Description	Case Count
16767	3005355	695 NPR Winterliner	3/Pack

Product Features

- Ideal for very cold-weather environments
- Full head and neck liner with wide wraparound collar
- Universal to fit all head sizes
- Leather/Nomex® tabs attach to hard hats
- Provides protection from electrical arc energy exposure
- Outer shell: Retains FR protection throughout life of the product – 100% Nomex® IIIA
- Inner shell: Flame resistance through 25 industrial washes or 50 domestic washes – 100% Proban® cotton

Nomex® Hood Winterliner

Code	Old Code	Description	Case Count
14504	3000444	Nomex® Hood	12/Pack

Product Features

- 100% Nomex® double-layered, knitted hood provides extra protection around the face
- Full head and neck coverage with extra-wide collar
- Shoulder-length collar can be tucked into jacket
- Can be worn under a hard hat or welding helmet as protection against flame and electrical arcs
- Retains FR protection throughout life of the product

Drybrow Sweatband

Code	Old Code	Description	Case Count
16750	3005334	Drybrow Sweatband Finished dimensions = 8.7" long x 1.6" wide x 5MM thick	25/Bag

Product Features

- Keeps you cool and prevents perspiration from running into your eyes in hot and humid conditions
- Ideal for all applications where workers need to be kept cool and comfortable
- Individually sleeved for increased shelf life and vending machine incorporation

IMPORTANT

- All models are flame-retardant treated unless otherwise noted.
- Flame resistance is the fabric's ability to self extinguish when source of flame or thermal ignition is removed.
- Flame resistance is meaningful only when applied to specific tests used to measure the characteristic.
- 16 CFR 1610, Class I: "Textiles meeting these requirements are generally accepted by the trade as having no unusual burning characteristics." Wind Jammer IV meets 16 CFR 1610, Class I.

Jackson Safety* Hearing Protection

Jackson Safety* Brand Hearing Protection provides quality, comfort and ease-of-use in reusable and disposable styles for excellent attenuation in a wide variety of noise-level environments. For hearing protection solutions, choose from a wide variety of earplugs, clips and passive earmuffs designed to make your workday safer and more productive.

H70	Passive Earmuffs
H20	Reusable Triple Flange Earplugs
H10	Disposable Earplugs

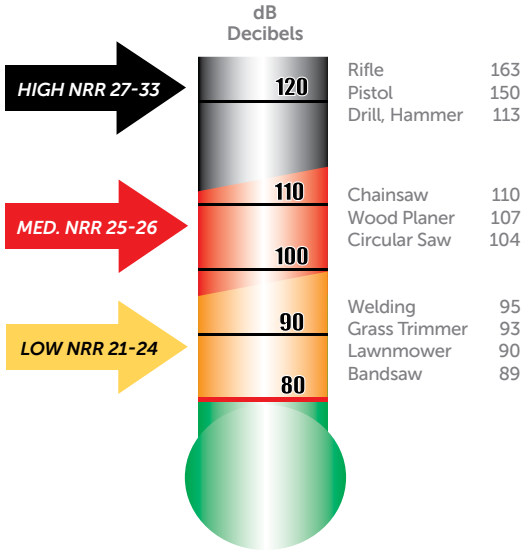
Getting to Know Hearing

Hearing protection should be taken very seriously and protectors, either muffs or plugs, should be comfortable to wear and offer sufficient attenuation to prevent hearing loss based on individual protection needed.

What Level of Protection Do You Need?

All hearing protectors sold by Kimberly-Clark Professional* are tested to the American National Standards Institute (ANSI) S3.19-1974 Standard to receive a Noise Reduction Rating (NRR), which is labeled on all such products as required by the US Environmental Protection Agency (EPA).

This number gives the consumer a method to judge performance among different models of hearing protectors — a higher NRR indicating more effective protection against sound. Some models of hearing protectors have multiple NRR numbers. This reflects the fact that these hearing protectors may be worn with their headbands in different positions.



Jackson Safety* Hearing Protection

Description		NRR	Multiple-Use	Comfort	Fit	Innovative	Type	Fits with Other PPE	Replacement Part
	H20 Reusable Earplugs	26	YES	● ●	●	N/A	Flanged	YES	N/A

67210	Uncorded	31	A(L)	200 Pairs/Box; 8 Boxes/Case
67212	Corded	31	A(L)	100 Pairs/Box; 8 Boxes/Case

Product Features

- Soft roll-down foam
- Smooth "bullet" shape for easy insertion
- High visibility for easy compliance monitoring
- Gravity feed display box

H10 Disposable Earplugs Dispenser and Bulk Pack (500 Pair)

Code	Description	NRR	Class	Case Count
25708	Uncorded	31	A(L)	500 Pairs/Bag; 4 Bags/Case
25709	Dispenser	N/A	N/A	1 Dispenser/Case

Product Features

EARPLUGS:

- Featuring H10 uncorded disposable foam earplugs
- 500 pairs (or 1000 earplugs) packed in a polybag

DISPENSER:

- Wall-mountable and desktop-ready
- Easy, flip open for quick refill
- Clear globe helps to indicate when to refill
- Mounting template and hardware included

H10 Metal Detectable Disposable Earplugs

Code	Description	NRR	Class	Case Count
13821	Corded	31	A(L)	100 Pairs/Box; 8 Boxes/Case

Product Features

- Designed to deliver on performance and comfort and help you improve compliance all through the day
- Distinctive color for easy compliance monitoring
- Individual packaging for hygienic storage, universal size
- Metal embedded in the earplug for easy detection

H20 Reusable Triple Flange Earplugs

H20 Reusable Earplugs

Code	Description	NRR	Class	Case Count
67220	Uncorded	26	A(L)	100 Pairs/Box; 4 Boxes/Case
67221	Corded	26	A(L)	100 Pairs/Box; 4 Boxes/Case

Product Features

- One size fits all
- Ridged for a better grip with insertion and removal
- Soft TPE flanges for comfortable fit and seal

H20 Metal Detectable Reusable Earplugs

Code	Description	NRR	Class	Case Count
13822	Corded	26	A(L)	100 Pairs/Box; 4 Boxes/Case

Product Features

- Designed to deliver on performance and comfort and help you improve compliance all through the day
- Distinctive color for easy compliance monitoring
- Individual packaging for hygienic storage
- Universal size
- Metal embedded in the earplug for easy detection

H70 Passive Earmuffs

H70 Onyx* Earmuffs

Code	Old Code	Description	NRR	Case Count
20771	3015085	Headband Style	23	1/Pack
20772	3015086	Headband Style	26	1/Pack

Product Features

- Lightweight, durable and economical protection for low- or medium-level noise environments
- Ultra-soft ear cushions for comfort and extended wear
- Ball-and-socket pivoting cup attachment provides optimum pressure distribution
- Header bag packaging
- Earmuff is dielectric[1] with no exposed metal parts

H70 Vibe* Earmuffs

Code	Old Code	Description	NRR	Case Count
20773	3015087	Headband, Orange	23	1/Pack
20774	3015089	Headband, Red	26	1/Pack
20775	3015090	Headband, Black	29	1/Pack

20777	3015092	Capmount, Red	25	1/Pack
20778	3015093	Capmount, Black	27	1/Pack

Product Features

- Innovative design with soft padded headband which adjusts to fit most head shapes and sizes
- Dielectric[1], durable thermoplastic material retains shape and pressure for consistent noise reduction
- Various noise levels available in headband and capmount styles
- Clamshell packaging

Also see Safe 2 Protection System on page 75.

[1] *Dielectric means all exposed parts are plastic or rubber*

Jackson Safety*
Respirators

Jackson Safety* Brand Particulate Respirators deliver the protection you expect and the comfort you need for all-day wear.

R30	N99 Particulate Respirator
R20	P95 Particulate Respirator
R10	N95 Particulate Respirator
R05	Disposable Dust Mask

Color-Coded Particulate Disposable Respiratory Protection

Particulate Respirator Filter Definitions — NIOSH 42CFR84:	
N95	95% filter efficiency level effective against particulate aerosols free of oil
N99	99% filter efficiency level effective against particulate aerosols free of oil
P95	95% filter efficiency level effective against all particulate aerosols

Note: The service life of all filters is limited by considerations of hygiene, damage, and breathing resistance.

All filters should be replaced whenever they are damaged, soiled or causing noticeably increased breathing resistance.

R05 Disposable Dust Mask

R05 Disposable Dust Mask

Code	Description	Case Count	Product Features
12978	Disposable Dust Mask	50/box 20 boxes/case	• Adjustable nosepiece • Ultrasonically bonded straps • Disposable mask for use in environments where respirator usage is voluntary and presents no health hazard • Not a NIOSH approved product

R10 Respirator

R10 N95 Particulate Respirator with Comfort Straps & Dual Valves

Code	Description	Protection	Case Count	Strap Color	Product Features
64260	N95 Particulate Respirator with Comfort Straps and Dual Valves	N95	10/box 8 boxes/case	Blue	• Wide, comfortable, user-preferred head straps • Dual exhalation valves designed and positioned to help reduce eyewear fogging • Adjustable head straps • Soft, comfortable, foam nose pad with a cloth layer • Not made with natural rubber latex • Meets heat and flame resistance per ANSI/ISEA 110-2009 • Recommended for welding applications

R10 N95 Particulate Respirator with Comfort Straps

Code	Description	Protection	Case Count	Strap Color	Product Features
64250	N95 Particulate Respirator with Comfort Straps	N95	20/box 8 boxes/case	Blue	• Wide, comfortable, user-preferred head straps • Adjustable head straps • Soft, comfortable, foam nose pad with a cloth layer • Not made with natural rubber latex

R10 N95 Particulate Respirators

Code	Description	Protection	Case Count	Strap Color	Product Features
64230	N95 Particulate Respirator (No Valve)	N95	20/box 8 boxes/case	Blue	• Comfortable, soft foam nose pad • Highly visible, color-coded straps • Knitted elastic straps ultrasonically attached • Not made with natural rubber latex • Code 64240 meets heat and flame resistance per ANSI/ISEA 110-2009
64240	N95 Particulate Respirator (Single Valve)	N95	10/box 8 boxes/case	Blue	

R20 Respirator

R20 P95 Particulate Respirator

Code	Description	Protection	Case Count	Strap Color	Product Features
64420	P95 Particulate Respirator (Single Valve)	P95	10/box 8 boxes/case	Yellow	• Effective against all oil based and non-oil based particulate aerosols and dust that do not emit harmful vapors • Soft foam nose pad with bendable nose clip • Highly visible, color-coded straps • Knitted elastic straps ultrasonically attached • Not made with natural rubber latex

R20 P95 AG Particulate Respirator with Comfort Straps and Dual Valves

Code	Description	Protection	Case Count	Valve Color
32704	P95 Particulate Respirator with Dual Valves and Nuisance Level Acid Gas Relief	P95	10/box 8 boxes/case	Yellow

Product Features

- Effective against all oil based and non-oil based particulate aerosols and dust that do not emit harmful vapors
- Carbon layer reduces exposure to nuisance levels of acid gases
- Wide, comfortable, user-preferred head straps
- Adjustable head straps
- Not made with natural rubber latex
- Meets heat and flame resistance per ANSI/ISEA 110-2009
- Recommended for welding applications

R20 P95 OV Particulate Respirator with Comfort Straps and Dual Valves

Code	Description	Protection	Case Count	Valve Color
64560	P95 Particulate Respirator with Dual Valves and Nuisance Level Organic Vapor Relief	P95	10/box 8 boxes/case	Yellow

Product Features

- Effective against all oil based and non-oil based particulate aerosols and dust that do not emit harmful vapors
- Carbon layer reduces exposure to nuisance levels of organic vapors
- Wide, comfortable, user-preferred head straps
- Adjustable head straps
- Not made with natural rubber latex
- Meets heat and flame resistance per ANSI/ISEA 110-2009
- Recommended for welding applications

R30 Respirator

R30 N99 Particulate Respirator

Code	Description	Protection	Case Count	Strap Color
64520	N99 Particulate Respirator (Single Valve)	N99	10/box 8 boxes/case	Red

Product Features

- Full perimeter foam inside mask
- Adjustable head straps
- Soft foam nose pad with bendable nose clip
- Highly visible, color-coded straps
- Knitted elastic straps ultrasonically attached
- Not made with natural rubber latex

Fit Test Kit for Particulate Respirators

Qualitative Fit Test with Bitrex & Saccharin Solutions

Code	Description	Case Count
11266	Qualitative Fit Test Kit	1 kit
REPLACEMENT PARTS		
99009	Bitrex Solutions (Threshold & Fit Test)	2 bottles/box
99003	Saccharin Solutions (Threshold & Fit Test)	2 bottles/box
99015	Hood	2 hoods/box
99018	Nebulizers with Extra Valves	2 nebulizers/box

Visit www.kcprofessional.com/fittest for online fit testing instructional video.

Product Features

Qualitative Fit Test includes:

- Bitrex Threshold & Fit Testing solutions
- Saccharin Threshold & Fit Testing solutions
- Nebulizers for threshold and fit testing
- Extra nebulizer valves
- Hood
- DVD, poster and printed materials for helpful tips and instructions on why and how to conduct a Qualitative Fit Test

Welding Safety

Designed to perform in a range of welding conditions, Jackson Safety* Brand Helmets are available in a variety of materials including fiberglass and vulcanized fiber. Choose from a selection of filters — from passive to digital ADF platforms and numerous graphic designs to reflect personal style.

Jackson Safety* Welding Helmets

Passive vs. Auto-Darkening Filter Helmets

Passive helmets offer great protection.
Auto-Darkening Filters offer protection and productivity.

Both passive and Auto-Darkening Filter (ADF) welding helmets provide excellent eye protection. Research shows that ADF helmets also offer impressive productivity gains, as well as greater user comfort.

JACKSON* SAFETY Brand

According to a study[1] comparing the productivity of a passive and an ADF unit:

- 3% of a welder's day is spent lifting and nodding his/her helmet
- An ADF eliminates the need to "lift and nod" the helmet
- Use of an ADF will put $500 per year, per welder, back in the company's pocket
- Use of an ADF can recapture 12 minutes per day in productivity per welder

[1] *Productivity Claim for Welders Using an Auto-Darkening Filter (ADF) Helmet Vs a Passive Helmet (Research Summary). Date: 7/29/2010. Authors: Cerita D. Bethea, Rick Zepp, Sandy Erreger, Martha Tate, Audra Wright*

Our **Auto-Darkening Filter Productivity & Profitability Calculator** can show you just how much money you can save – and how much productivity you can gain – using our ADF welding helmets.

To find out, visit our calculator at:
www.kcprofessional.com/weldingcalculator

Hard Hat Interchange System

Look for this symbol for helmets compatible with the Hard Hat Interchange System

For more information, see page 71.

Added Benefits of an ADF

- **Increased accuracy** because the welder can always see what he's doing, and start in exactly the right spot
- **Increased comfort** by eliminating the repetitive "lifting and nodding" that can cause neck strain
- **Increased protection** from injuries caused by welding, chipping or grinding in the proximate area
- **Increased peace of mind** because even if the ADF should not become active during an arc, it still protects eyes from serious damage
- **Increased productivity** by eliminating the time it takes to lift and nod the helmet before and after each weld

5 YEAR WARRANTY

- *Registration needed to be eligible for 5-year warranty*
- *5-year warranty only for ADFs with Balder* Technology*

Jackson Safety* Auto-Darkening Filter (ADF) Warning

- Provides limited eye protection. Additional protective devices are required for full eye coverage and protection.
- Should not be worn to protect from other hazards including, but not limited to, airborne dusts or mists, liquid splashes, impact hazards and sports activities.

The selection and use of welding personal protective equipment must be based on a hazard assessment of the wearer's work environment conducted by the wearer, or for an industrial environment, an appropriately trained individual for your employer or organization in accordance with OSHA regulations 29 CFR 1910.133 and ANSI Standard No. Z87.1. Make sure the ADF is installed properly into the helmet shell and is clean. If the ADF is scratched or damaged, do not use it and replace it with a new one. Do not use the ADF without the Jackson Safety* Brand Internal and External Safety Plates. To clean, wipe only with a soft cloth. Do not immerse ADF in liquids.

Jackson Safety*

Welding Helmet Selection Guide

Welders at all experience levels know the value and essential protection requirements of the right helmet and filter for the right job. That's why we provide a range of welding helmets and filters with features that are just right for you.

Follow the easy-to-use selection guide below to find the helmet and filter with features that best suit your needs, experience and budget.

With Balder* Technology!

BALDER® TECHNOLOGY

See the difference with Balder* Technology

Balder* Technology has achieved the highest rating for optical quality and the best classification for "angular dependence." 1 / 1 / 1 / 1 rating for Optical Quality, Light Scattering, Homogeneity, Angular Dependence. That means it gives the welder the flexibility to see clearly at many different angles. With Jackson Safety* ADF Welding Helmets with Balder* Technology you get: A clear view from various angles which can reduce eye fatigue and the need to move, adjust and refocus, and superior optical quality that allows you to do your best work.

Welding Helmet Styles

Jackson Safety* Welding Helmets come in a variety of styles and types of helmets to suit your welding needs. The three different types of shells highlight the varying levels of performance within the Jackson Safety* Welding Helmet product line.

HSL 100

- Narrow shell design is perfect for work in tight spaces
- Extended front increases throat protection from sparks, slag and other physical hazards

Halo X (HLX)

- Ultra lightweight shell – only weighs 6 ounces
- Lightweight shell helps reduce neck tension
- Hydraflex* Shell provides the ultimate in flexibility and durability

BH3*

- Curved front cover plate offers reduced heat build-up, reflections and fogging than the HSL-100
- Aerodynamic shell designed for better fume deflection than the HSL-100
- Smooth, rounded perimeter for increased comfort
- Quick and easy replacement of safety plates

Welding helmet designs and colors are an extension of your personality. Jackson Safety* Welding Helmets come in solid colors as well as several graphic hoods. Select the helmet design that's right for you.

- Four independent sensors positioned to reduce possibility of blockage during weld
- Replaceable lithium batteries (included) with low-battery indicator
- Versatile 3-N-1 built-in function: Weld, Torch, Grind
- Amber view lens allows for enhanced clarity of weld puddle
- Technology allows unit to detect welds less than 5 amps
- Built-in mag lens holder
- Meets ANSI Z87.1 – 2010 standards and CSA Compliant

Insight* Digital Variable ADF Welding Helmet

Code	Description	Units/Case
46129	HSL 100 Welding Helmet with Insight* Variable ADF — Black	1
46138	HLX 100 Welding Helmet with Insight* Variable ADF — I²	1
46131	HLX 100 Welding Helmet with Insight* Variable ADF — Black	1
46130	HLX 100 Welding Helmet with Insight* Variable ADF — Arc Angel	1
46100	HLX 100 Welding Helmet with Insight* Variable ADF — Gold Wings	1
46101	HLX 100 Welding Helmet with Insight* Variable ADF — Stars & Scars	1
46109	HLX 100 Welding Helmet with Insight* Variable ADF — Flaming Butterfly	1
46108	HLX 100 Welding Helmet with Insight* Variable ADF — Metal	1
46128	Insight* Variable ADF Cartridge	1
41594	Insight* Clear Internal Safety Plate	10
41589	Insight* Clear Safety Plate Kit	10

Product Features

- Features variable shade 9-13
- Sensitivity and delay adjustments
- Compatible with HLX 100 and HSL 100 shell
- Meets ANSI Z87.1 – 2010 standards and CSA Compliant
- 4 independent sensors
- Digital controls

Nitro* Variable ADF Welding Helmet

Code	Old Code	Description	Units/Case
36633	—	Black Nitro* Helmet with Nitro* ADF	2
21931	3018230	Blue Nitro* Helmet with Nitro* ADF	2
21947	3018384	Nitro* ADF Cartridge – 90 x 110mm	1
22603	3020692	Nitro* 3-Sensor Lens Kit – 5 Front and 2 Rear Safety Plates	10
24549	3024208	Nitro* Replacement Parts – Retainer, Lens Spacer, Screws & Safety Plate	1
20696	3014866	370 Replacement Headgear	1

Product Features

- Offers welders outstanding features at an economical price point
- Features variable shade 9-13, sensitivity and delay adjustments
- Lightweight – only weighs 1 pound fully assembled
- Three independent sensors
- Solar-powered
- Meets ANSI Z87.1 – 2010 standards and CSA Compliant

Element* Variable ADF Welding Helmet

Code	Old Code	Description	Units/Case
23282	3023293	Element* Welding Helmet Variable ADF – 90 x 110mm	4
29127	3023295	Element* Lens Kit – 5 Front and 2 Rear Safety Plates	10
23442	3023376	Element* Replacement Headgear	6

Product Features

- Features an economical lens for the consumer welder
- Solar-powered
- Features variable shade 9-13, sensitivity and delay adjustments
- Two independent sensors
- Meets ANSI Z87.1 – 2010 standards and CSA Compliant

Journeyman Variable ADF Welding Helmet

Code	Old Code	Description	Units/Case
16626	3004394	Journeyman Variable 9-12 Cartridge Only	1
24083	3023641	Journeyman Lens Kit – 5 Front and 2 Rear Safety Plates	1

Product Features

- Variable shade 9-12
- Single sensor with Auto Off feature
- Requires 2 AAA batteries (included)
- Meets ANSI Z87.1 – 2010 standards

SmarTIGer* Variable ADF Welding Helmet with Balder* Technology

Black

Torch Dancer

Code	Old Code	Description	Units/Case
46140	—	SmarTIGer* Welding Helmet with Balder* Technology – Black	1
46139	—	SmarTIGer* Welding Helmet with Balder* Technology – Torch Dancer	1
37245	—	SmarTIGer* Magnification Lens Holder	1
37249	—	SmarTIGer* Internal Safety Plate	100
37247	—	SmarTIGer* External Safety Plate	100
20696	3014866	370 Replacement Headgear	1

Product Features

- Internal adjustable shade 9-13
- Internal adjustable sensitivity
- Aerodynamic shell designed for better fume deflection than the HSL-100
- Lightweight
- Auto On ADF is always ready to weld
- Meets ANSI Z87.1 High Impact 2010 standard and CE certified

Solera Fixed Shade 11 ADF Welding Helmet

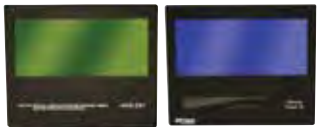
Code	Old Code	Description	Units/Case
16376	3004006	Solera ADF Cartridge Fixed Shade 11 – 2 x 4	1
24083	3023641	Solera Lens Kit – 5 Front and 2 Rear Safety Plates	1

Product Features

- Features an economical lens for the consumer welder
- Solar-powered
- Fixed shade 11 lens with one centered sensor
- Meets ANSI Z87.1 – 2010 standards

Element* Fixed Shade 10 ADF Welding Helmet

Code	Old Code	Description	Units/Case
23286	3023294	Element* Welding Helmet – Fixed Shade 10 ADF – 3.50 x 4.33	4
23440	3023375	Element* Lens Kit – 5 Front and 2 Rear Safety Plates	10
23442	3023376	Element* Replacement Headgear	6



Product Features

- Features an economical lens for the consumer welder
- Solar-powered
- Fixed shade 10 lens with two independent sensors
- Meets ANSI Z87.1 – 2010 standards, CSA Compliant and CE Certified

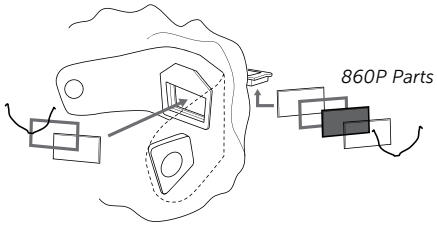
Specialty Welding Helmets

860P Leather Welding Helmet

Code	Old Code	Description	Units/Case
14531	3000506	860P Leather Welding Helmet – 2 x 4.25 Lift Front, Black	4
26035	3000507	860P-2 Leather Welding Helmet – 2 x 4.25 Lift Front	1
16073	3002759	Replacement Safety Plate – 2 x 4.25	25
14556	3000621	117A Replacement Headgear	6
24557	3024222	860P Parts Kit	1

Product Features

- Features a tough yet pliable leather covering
- Ideal for use in overhead welding applications or when working in tight spaces
- 14531 meets ANSI Z87.1 – 2010 standards and CSA Compliant



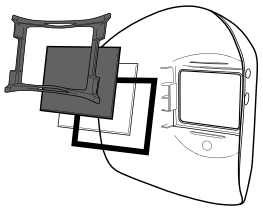
860P Parts Kit

H500 Fiberglass Handshield

Code	Old Code	Description	Units/Case
14967	3002469	H500 Fiberglass Welding Handshield – 5.25 x 4.25	4
16078	3002760	Replacement Safety Plate – 5.25 x 4.25	25
24526	3024136	H500 Parts Kit	1

Product Features

- For quick inspections, providing guidance and monitoring robotic welds
- Designed for high-heat applications
- Features fiberglass helmet with injection-molded plastic handle
- Must purchase a filter prior to use (See page 110)
- Meets ANSI Z87.1 – 2010 standards



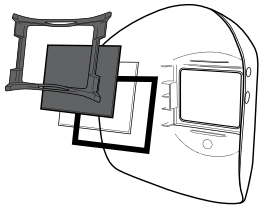
H500 Parts Kit

H100-A Fiberglass Welding Helmet

Code	Old Code	Description	Units/Case
14962	3002463	H100-A Fiberglass Welding Helmet – 4.5 x 5.25	4
16078	3002760	Replacement Safety Plate – 4.5 x 5.25	25
14956	3002454	170 Replacement Headgear	12
24526	3024136	H100-A Parts Kit	1

Product Features

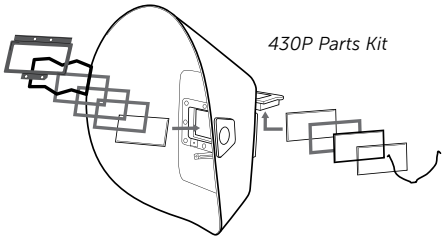
- Features compact design for use in welding in close quarters
- Designed for high-heat applications
- Hard hat adaptable using 86-M (3002435)
- Must purchase a filter prior to use (See page 110)
- Meets ANSI Z87.1 – 2010 standards



H100-A Parts Kit

430P Fiber Shell Welding Helmet

Code	Old Code	Description	Units/Case
14528	3000499	430P Fiber Shell Welding Helmet – 2 x 4.25 Lift Front	4
16073	3002759	Replacement Safety Plate – 2 x 4.25	25
14556	3000621	117A Replacement Headgear	6
24528	3024139	430P Parts Kit	1



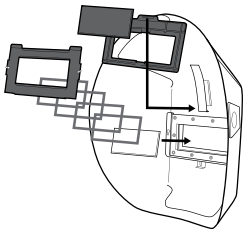
430P Parts Kit

Product Features

- Features a lightweight vulcanized fiber shell for comfortable yet cool, heavy-duty welding
- Made of 10% recycled fiber content
- Not suited for damp environments or overhead welding
- Lift front provides flexibility so user does not have to raise hood
- Meets ANSI Z87.1 – 2010 standards

490P Fiber Shell Welding Helmet

Code	Old Code	Description	Units/Case
14532	3000509	490P Fiber Shell Welding Helmet – 2 x 4.25 Quick Slide	4
16073	3002759	Replacement Safety Plate – 2 x 4.25	25
14556	3000621	117A Replacement Headgear	6
24551	3024210	490P Parts Kit	1



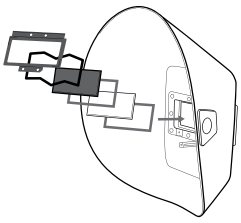
490P Parts Kit

Product Features

- Features a lightweight vulcanized fiber shell for comfortable yet cool, heavy-duty welding
- Made of 10% recycled fiber content
- Not suited for damp environments or overhead welding
- Quick-slide filter plate holder is ideal for tight work environments
- Meets ANSI Z87.1 – 2010 standards

411P Fiber Shell Welding Helmet

Code	Old Code	Description	Units/Case
14527	3000496	411P Fiber Shell Welding Helmet – 2 x 4.25	4
16073	3002759	Replacement Safety Plate – 2 x 4.25	25
14556	3000621	117A Replacement Headgear	6
24530	3024141	411P Parts Kit	1



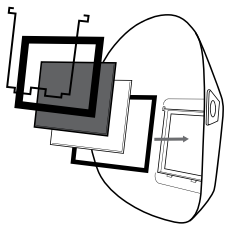
411P Parts Kit

Product Features

- Features a lightweight vulcanized fiber shell for comfortable yet cool, heavy-duty welding
- Made of 10% recycled fiber content
- Not suited for damp environments or overhead welding
- Fixed front with aluminum frame filter plate holder
- Meets ANSI Z87.1 – 2010 standards

451P Fiber Shell Welding Helmet

Code	Old Code	Description	Units/Case
14529	3000500	451P Fiber Shell Welding Helmet – 4.5 x 5.25	4
16078	3002760	Replacement Safety Plate – 4.5 x 5.25	25
14556	3000621	117A Replacement Headgear	6
24565	3024236	451P Parts Kit	1



451P Parts Kit

Product Features

- Features a lightweight vulcanized fiber shell for comfortable yet cool, heavy-duty welding
- Made of 10% recycled fiber content
- Not suited for damp environments or overhead welding
- Meets ANSI Z87.1 – 2010 standards

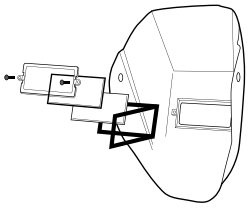
Passive Welding Helmets

HSL 1 Passive Welding Helmet

Code	Old Code	Description	Units/Case
14979	3002503	HSL 1 Passive Welding Helmet Black – 2 x 4.25	4
15121	3002579	HSL 1 Passive Welding Helmet Black – 2 x 4.25 (Bulk)	10
16073	3002759	Replacement Safety Plate – 2 x 4.25	25
20696	3014866	370 Replacement Headgear	1
15971	3002641	HSL I Parts Kit	12

Product Features

- Narrow shell design is perfect for work in tight spaces
- Extended front increases throat protection from sparks and slag and other physical hazards
- Hard hat adaptable using 187-S (15968)
- Meets ANSI Z87.1 – 2010 standards and CSA Compliant



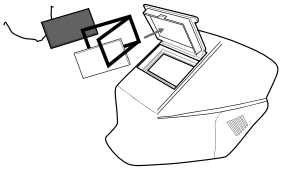
HSL 1 Parts Kit

HSL 2 Passive Welding Helmet — Lift Front

Code	Old Code	Description	Units/Case
14982	3002507	HSL 2 Passive Welding Helmet Black – 2 x 4.25 Lift Front	4
15132	3002580	HSL 2 Passive Welding Helmet Black – 2 x 4.25 Lift Front (Bulk)	10
14983	3002508	HSL 2 Passive Welding Helmet Blue – 2 x 4.25 Lift Front	4
14984	3002509	HSL 2 Passive Welding Helmet Red – 2 x 4.25 Lift Front	4
14986	3002512	HSL 2 Passive Welding Helmet Black with 187 Blades – 2 x 4.25 Lift Front	4
14972	3002490	HSL 2 Passive Welding Helmet Black with 386 Cap Adapter – 2 x 4.25 Lift Front	4
16073	3002759	Replacement Safety Plate – 2 x 4.25	25
20696	3014866	370 Replacement Headgear	1
24523	3024132	HSL 2 Parts Kit	1

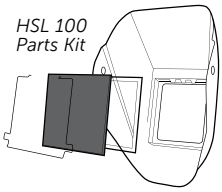
Product Features

- Narrow shell design is perfect for work in tight spaces
- Extended front increases throat protection from sparks, slag and other physical hazards
- Hard hat adaptable using 187-S (15968)
- Meets ANSI Z87.1 – 2010 standards and CSA Compliant



HSL 2 Parts Kit

HSL 100 Passive Welding Helmet



HSL 100 Parts Kit

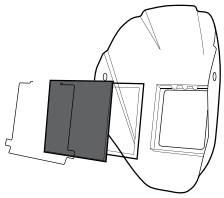
Code	Old Code	Description	Units/Case
14975	3002498	HSL 100 Passive Welding Helmet Black – 4.5 x 5.25	4
15134	3002581	HSL 100 Passive Welding Helmet Black – 4.5 x 5.25 (Bulk)	10
14976	3002499	HSL 100 Passive Welding Helmet Blue – 4.5 x 5.25	4
14977	3002500	HSL 100 Passive Welding Helmet Red – 4.5 x 5.25	4
14978	3002502	HSL 100 Passive Welding Helmet Black with 187 Blades – 4.5 x 5.25	4
14973	3002491	HSL 100 Passive Welding Helmet Black with 386 Cap Adapter – 4.5 x 5.25	4
16642	3004736	Replacement Light Leak Gasket	2
16078	3002760	Replacement Safety Plate – 4.5 x 5.25	25
20696	3014866	370 Replacement Headgear	1
24550	3024209	HSL 100 Parts Kit	1
15974	3002647	Magnifier (Cheater Lens) Adapter	12

Product Features

- Narrow shell design is perfect for work in tight spaces
- Extended front increases throat protection from sparks, slag and other physical hazards
- Hard hat adaptable using 187-S (15968)
- ADF adaptable
  - NexGen*
  - Professional Variable
  - Insight*
- Meets ANSI Z87.1 – 2010 standards, CSA Compliant

HLX 100 Passive Welding Helmet — Ultra Lightweight

I²



Halo X Parts Kit

Code	Old Code	Description	Units/Case
20499	3013594	HLX 100 Passive Welding Helmet – I² - 4.5 x 5.25	2
20508	3013597	HLX 100 Passive Welding Helmet – Heavy Metal – 4.5 x 5.25	2
24736	3024542	HLX 100 Passive Welding Helmet – Renegade – 4.5 x 5.25	2
24737	3024543	HLX 100 Passive Welding Helmet – Carbon Fiber – 4.5 x 5.25	2
24738	3024544	HLX 100 Passive Welding Helmet – Arc Angel – 4.5 x 5.25	2
24739	3024545	HLX 100 Passive Welding Helmet – Ace of Spades – 4.5 x 5.25	2
34068	—	HLX 100 Passive Welding Helmet – Black – 4.5 x 5.25	2
16078	3002760	Replacement Safety Plate – 4.5 x 5.25	25
20696	3014866	370 Replacement Headgear	1
24550	3024209	Halo X Parts Kit	1
15974	3002647	Magnifier (Cheater Lens) Adapter	12

Product Features

- Ultra lightweight shell – only weighs 6 ounces
- Lightweight shell helps reduce neck tension
- Hydraflex* Shell provides the ultimate in flexibility and durability
- Hard hat adaptable using 187-S (15968)
- ADF adaptable
  - NexGen*
  - TrueSight* II
  - Professional Variable
  - Insight*
- Meets ANSI Z87.1 – 2010 standards and CSA Compliant

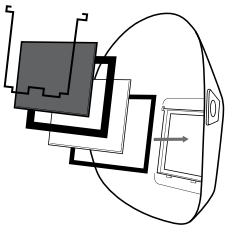
951P Passive Welding Helmet

Code	Old Code	Description	Units/Case
14535	3000512	951P Passive Welding Helmet – 4.5 x 5.25	4
16078	3002760	Replacement Safety Plate – 4.5 x 5.25	25
14556	3000621	117A Replacement Headgear	6
15974	3002647	Magnifier (Cheater Lens) Adapter	12
24548	3024206	951P Parts Kit	1

Product Features

- Lightweight, durable, washable thermoplastic shell
- ADF adaptable (AV1105VXL only)
- Meets ANSI Z87.1 – 2010 standards and CSA Compliant



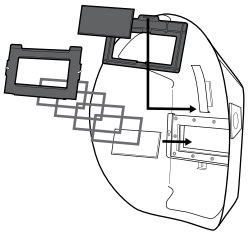
951P Parts Kit

990P Passive Welding Helmet

Code	Old Code	Description	Units/Case
14536	3000514	990P Passive Welding Helmet – 2 x 4.25 Quick Slide	4
16073	3002759	Replacement Safety Plate – 2 x 4.25	25
14556	3000621	117A Replacement Headgear	6
24551	3024210	990P Parts Kit	1

Product Features

- Lightweight, durable washable thermoplastic shell
- Quick slide adjustment conveniently switches from clear to shade #10
- Meets ANSI Z87.1 – 2010 standards



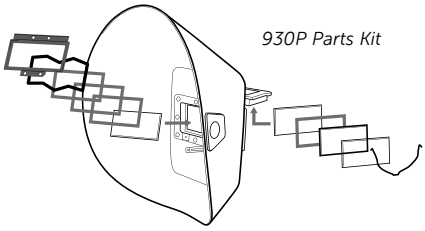
990P Parts Kit

930P Passive Welding Helmet

Code	Old Code	Description	Units/Case
14534	3000511	930P Passive Welding Helmet – 2 x 4.25 Lift Front	4
16073	3002759	Replacement Safety Plate – 2 x 4.25	25
14556	3000621	117A Replacement Headgear	6
24528	3024139	930P Parts Kit	1

Product Features

- Lightweight, durable washable thermoplastic shell
- Lift front filter eliminates need to raise welding helmet
- Meets ANSI Z87.1 – 2010 standards



930P Parts Kit

Powered Air Purifying Respirator (PAPR)

Airmax Elite* Powered Air Purifying Respirator (PAPR)

Code No.	Description
40839	Airmax Elite* PAPR with BH3* Air Headtop
REPLACEMENT PARTS	
40840	Airmax Elite* BH3* Air Headtop complete with storage bag
40880	Airmax Elite* Blower Unit Kit (blower unit, belt, breathing hose, airflow indicator, battery and charger)
40885	BH3* Air Grand GDS ADF
40884	BH3* Air Helmet Shell (includes cover plates and flexi face seal)
40887	BH3* Air Flexi Face Seal (2 pack)
40882	BH3* Air 375 Headgear
40881	BH3* Air Sweatband (2 pack)
40879	Airmax Elite* Blower Unit (no battery)
40878	Airmax Elite* HE Filter (6 pack)
40876	Airmax Elite* Filter Cover and Spark Arrester Mesh (2 pack)
40877	Airmax Elite* Pre-filter (10 pack)
40864	Airmax Elite* Lithium Ion Battery
40863	Airmax Elite* Battery Charger
40846	Airmax Elite* Breathing Hose with Flame-retardant Cover
40841	Airmax Elite* Waist Belt
41345	Airmax Elite* Airflow Indicator

Product Features

- BH3* Air Welding Helmet features variable auto-darkening filter with Balder* Technology. The Balder* Technology provides superior optical viewing clarity from any angle along with one of the largest ADF viewing areas of 3.78" x 2.70"
- Variable ADF with grind mode. Adjustable shades 6-8 (grind) and 9-13 via external knob
- Flame-retardant face seal around welding helmet protects against sparks
- Lightweight blower with advanced control system to maintain constant airflow rate throughout the charge of the battery
- Audible and vibrating alarms signal welder when need for new filter or battery change. Blower unit display also provides visual status of the battery charge and level of filter clogging
- Three-layer filter provides NIOSH-approved HE filtration from particulate contaminants. The pre-filter extends the operating life of the main filter by capturing coarse particles. The spark arrester helps protect the main filter from damage by sparks and welding spatter
- Breathing Hose with flame-retardant cover is protected against sparks and flexes with the welder during use
- Rechargeable lithium ion battery is the newest battery technology that provides 8 hours of power
- "Smart" Battery Charger indicates when charging and when complete without overcharging the battery
- Adjustable belt accommodates personal sizing from 25" to 62"

Product Code	Lens	Filter	Initial Flow Rate	Actual Flow Rate	Battery Life	Charging Time	Charges	Alarms	Certification	Blower Dimensions	Weight
40839	Variable ADF with grind mode: • Shades 9-13 cut/weld • Shades 6-8 grind	HE	Meets the NIOSH minimum flow rate of >170 LPM / 6+ CFM	200/240	Lithium Ion 8 Hours	< 4 hours	Maintains 300 charges of power	Audible and Vibration	NIOSH 42 CFR Part 84	L: 9.0" W: 5.0" H: 2.5"	3.2 lb (blower, filter, breathing hose, battery) 1.8 lb (helmet)

Airmax* Powered Air Purifying Respirator (PAPR)

Code	Description
12993	Airmax* PAPR with Variable ADF, 8-hr Lithium Ion Battery
REPLACEMENT PARTS	
13042	Blower Unit Complete (blower unit, belt, airflow indicator, breathing hose)
13039	Airmax* Welding Headpiece (with plenum)
13053	HE Filters (6 pk)
13046	Battery Charger
13043	ADF Protective Plates (5 fronts, 2 backs)
13965	Face Seals (3 pk)
13051	Lithium Ion Battery — 8-hr
13332	Blower Unit Only
13044	Breathing Hose
13057	Waist Belt
33631	Headgear
33632	ADF Replacement Lens

Product Features

- For welding applications
- Jackson Safety* W40 series variable auto-darkening filter
- Flame-retardant face seal
- Battery "smart" charger
- Lightweight blower unit
- Audible alarm
- Breathing hose with flame-retardant cover
- Single filter
- Lightweight lithium ion battery
- NIOSH-Approved
- CSA Z94.3-2007 Compliant

Welding Accessories

Helmet Bag

Code	Old Code	Description	Units/Case
18935	3010811	Welding Helmet Bag	10

Product Features

- Made of heavy-duty denier fabric with drawstring closure
- Features velcro close front lens pocket and two side mesh tool pockets
- Fits all Jackson Safety* Helmets

Black Quilted Shop Cap

Code	Old Code	Description	Size	Units/Case
14575	3000699	365 Shop Cap	6-3/4"	12
14576	3000700	365 Shop Cap	6-7/8"	12
14577	3000701	365 Shop Cap	7"	12
14578	3000702	365 Shop Cap	7-1/8"	12
14579	3000703	365 Shop Cap	7-1/4"	12
14580	3000704	365 Shop Cap	7-3/8"	12

Product Features

- Available in sizes 6-3/4" to 7-3/8"
- Not fire-retardant
- Made of high-grade quilted cotton with sateen sweatband

187-S Mounting Blades

Code	Old Code	Description	Units/Case
15968	3002634	187-S Mounting Kit	12

Product Features

- Securely attaches a welding helmet to safety cap
- Positive locking device keeps the helmet in any position

187-S Can Be Used With	SC-6	Sentry III*	Charger*	SC-16

Replacement Headgear

370 Headgear

Code	Old Code	Description	
20696	3014866	370 Headgear	1
32187		Replacement Sweatband	2 packs of 24

370 Replacement Headgear for:

HSL-1	Nitro*	NexGen*	BH3*
HSL-2			TrueSight* II
HSL-100	SmarTIGer*		

Product Features

- Three-position slider adjusts distance of the lens from your eyes for precise vision
- Removable Comfort Cradle is a pivoting headpad that conforms to any head for the highest degree of comfort
- Oversized ratchet with soft rubber grip allows for easy adjustment when wearing gloves
- Crown Strap Adjustment allows the headgear to be raised or lowered for maximum comfort and performance
- Sweatband helps absorb perspiration and prevents sweat from interfering with vision
- Vertical lock-in eliminates helmet creeping
- Lock-nut feature keeps the components together even when bracket is loosened

117A Headgear

Code	Old Code	Description	
14556	3000621	117A Headgear	6
32187		Replacement Sweatband	2 packs of 24

117A Replacement Headgear for:

951P	860P
990P	430P
930P	490P
	411P
	451P

Product Features

- Teeth are automatically disengaged during adjustment
- Air-cushioned cloth sweatband is washable and durable

170 Headgear

Code	Old Code	Description	
14956	3002454	170 Headgear	12
14958	3002459	Replacement Sweatband	12

170 Replacement Headgear for:

H100-A

Product Features

- 170 features 45 head size adjustments and 5 crown adjustments
- Lower ratchet strap for added comfort and strength
- Ratchet eliminates "backing off" with push and turn design
- For use with H-Series fiberglass helmets

Element* Replacement Headgear

Code	Old Code	Description	
23442	3023376	Element* Replacement Headgear	6

Element* Replacement Headgear for:

Element* Shade 10	Element* Variable

Product Features

- Teeth are automatically disengaged during adjustment

Filters

Kimberly-Clark Professional* has a large selection of top-quality polycarbonate lenses for welding helmets and cutting goggles. To prevent surface damage to welding filter plates and auto-darkening lenses, clear safety plates should always be inserted in front for protection. Be sure to use the correct filter shade for the job. Refer to the suggested shade guide below.

Wilson*
Welding Curtains and **High-Temperature Fabrics**

With the addition of the Wilson* Brand, Kimberly-Clark Professional* now offers a comprehensive range of curtains, pads and covers from a variety of high-temperature and fire-resistant specialty materials. All Wilson* products are electronically welded or sewn for superior quality and long-lasting protection.

The Wilson* Brand has made significant contributions to advancing industrial barrier protection since the 1950s. As the Brand recognized for originating the first transparent form of barrier welding protection, we're pleased to feature Wilson* in our trusted line of safety products.

Welding Curtains

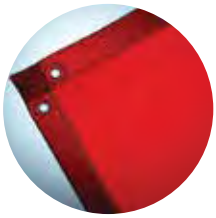
Kimberly-Clark Professional* Welding Curtains and Screens are designed to address the challenges of employee safety and workplace productivity relative to a wide range of high-heat applications. Actual finished size on standard orders may vary 3" in height and width.

All Wilson* Welding Curtains meet or exceed California State Fire Marshall (CFM) requirements for flame resistance. **These fabrics are not intended for use in lieu of visors, goggles, eyewear or welding helmets. Clear/colorless See-Thru Curtains available in 14-Mil and 40-Mil are not intended for welding or ultraviolet filtration.**

- Transparent curtains feature secure side hemming done by an electronic welding process for added strength and durability
- Plastic grommets are placed 8" apart on one width side and 16" apart on both height sides providing improved wear and less possibility of separation
- Standard sizes, custom orders and roll goods are available

See-Thru Welding Curtains

Wilson* Orange 14-Mil See-Thru Welding Curtain



Code	Old Code	Description

36311	6848-40	6′ x 8′ Clear/Colorless Barrier Curtain
36280	61060-40	6′ x 10′ Clear/Colorless Barrier Curtain

Product Features

- Heavy-duty colorless vinyl
- For general industrial barrier protection
- Grommeted and ready-to-hang *(tubing or framing not included)*
- Custom sizes available
- **Not to be used for welding**

Wilson* Instant Curtain

Code	Old Code	Description
36328	IC60-25	5′ See-Thru Orange, 14-mil
36330	IC72-25	6′ See-Thru Orange, 14-mil
36331	IC72-50	6′ See-Thru Gold, 14-mil
37197	IC72-60	6′ See-Thru Green, 14-mil

Product Features

- 75′ long with plastic grommets every 8″ on one width side (no hems)

Customize your own welding curtain by cutting from bulk transparent welding-curtain material.

Welding/ Safety Screens

Wilson* Stur-D-Screen[1]

- Allows for a variety of configurations to fit multiple work environments
- Square 19-gauge steel tubing, bolted corner clamps and platform "T" legs reduce slipping and twisting of the unit
- Black powder-coated enamel finish is rust- and abrasion-resistant
- Package includes square steel frame, brackets, platform "T" legs, and lacing ties
- Pre-drilled for casters

Wilson* Stur-D-Screen[1] and recommended curtains with each frame size

Per OSHA recommendations, allow 1′ clearance at floor for all framing configurations.

[1] Temperatures and applications are intended as a guideline only and not a guarantee of performance. Kimberly-Clark Professional recommends the use of welding blankets in multiple layers to attain proper molten-metal and radiant-heat protection. It is the user's responsibility to monitor the activity and use of blankets/high-heat roll goods at all times*

ANSI/FM 4950-Certified
High-Temperature Fabrics

Wilson* High-temperature Fabrics protect equipment and employees working near hazardous operations such as flame cutting, welding, grinding and spraying. Available as blankets, hanging curtains or roll goods, Wilson* Fabrics are designed to withstand temperatures ranging from 600°F–2000°F.[2] All high-temperature fabrics meet minimum specification standards for flame resistance (NFPA-701). Welding blankets are hemmed on all four sides using durable, heat-resistant thread and feature grommets in each corner and on 36" centers.

Choosing the right high-heat material

Temperature ratings are based on recommended uses and information provided herein is intended as a guideline only. Kimberly-Clark Professional* recommends the use of welding blankets in multiple layers to attain proper molten-metal and radiant-heat protection. It is the user's responsibility to monitor the activity and use of all blankets and roll goods at all times.

CHOOSING THE RIGHT HIGH-HEAT MATERIAL

All Wilson Blankets listed are FM-Approved

Light-Use Protection

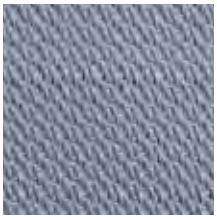
Wilson* Weld-O-Glass 18-oz Fiberglass Blanket, Uncoated

Code	Old Code	Description
36290	6636-1850	6′ x 6′ 18-oz Fiberglass Blanket, Uncoated
36305	6848-1850	6′ x 8′ 18-oz Fiberglass Blanket, Uncoated
36364	8864-1850	8′ x 8′ 18-oz Fiberglass Blanket, Uncoated
36144	1850-40	Roll Goods, 40″ x 50 yards
36145	1850-60	Roll Goods, 60″ x 50 yards

Product Features

- **ANSI/ FM-4950** certified for use in vertical applications (1.4.3) with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Roll goods sold in 50-yard increments: minimum order is 1 roll or 50 yards
- Color: Beige

Wilson* Weld-O-Glass 15-oz Fiberglass Blanket, Acrylic Coated



Code	Old Code	Description
37605	5525-3001	5′ x 5′ 15-oz Fiberglass Blanket, Acrylic Coated
36310	6848-3001	6′ x 8′ 15-oz Fiberglass Blanket, Acrylic Coated
37192	1010100-3001	10′ x 10′ 15-oz Fiberglass Blanket, Acrylic Coated

Product Features

- **ANSI/ FM-4950** certified for use in vertical applications (1.4.3) with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Color: Gray

Wilson* Weld-O-Glass 16-oz Fiberglass Blanket, Polyurethane Coated

Code	Old Code	Description
36148	2000TP-38	Roll Goods, 38″ x 50 yards
36149	2000TP-60	Roll Goods, 60″ x 50 yards

Product Features

- **ANSI/ FM-4950** certified for use in vertical applications (1.4.3) with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Roll goods sold in 50-yard increments: minimum order is 1 roll or 50 yards
- Color: Red

Medium- to Heavy-Use Protection

Wilson* Weld-O-Glass 24-oz Fiberglass Blanket, Uncoated

Code	Old Code	Description
36323	900FC-38	Roll Goods, 38″ x 50 yards

Product Features

- **ANSI/ FM-4950** certified for use in vertical applications (1.4.3) with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Extra fabric weight offers added durability and protection
- Roll goods sold in 50-yard increments: minimum order is 1 roll or 50 yards
- Color: White

Wilson* Weld-O-Glass 24-oz Fiberglass Blanket, Acrylic Coated

Code	Old Code	Description
36293	6636-2624	6′ x 6′ Fiberglass Blanket, Acrylic Coated
36308	6848-2624	6′ x 8′ Fiberglass Blanket, Acrylic Coated
37609	8864-2624	8′ x 8′ Fiberglass Blanket, Acrylic Coated
36171	2624-40	Roll Goods, 40″ x 50 yards

Product Features

- **ANSI/ FM-4950** certified for use in vertical (1.4.3) applications with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Roll goods sold in 50-yard increments: minimum order is 1 roll or 50 yards
- Color: Yellow

Wilson* Weld-O-Glass 24-oz Fiberglass Blanket, Vermiculite Coated

Code	Old Code	Description
37597	4624-906	4′ x 6′ Fiberglass Blanket, Vermiculite Coated
37598	4832-906	4′ x 8′ Fiberglass Blanket, Vermiculite Coated
36217	5525-906	5′ x 5′ Fiberglass Blanket, Vermiculite Coated
36302	6636-906	6′ x 6′ Fiberglass Blanket, Vermiculite Coated
36318	6848-906	6′ x 8′ Fiberglass Blanket, Vermiculite Coated

Product Features

- **ANSI/ FM-4950** certified for use in vertical applications (1.4.3) with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Color: Black

Wilson* Weld-O-Glass 18-oz & 36-oz Silica Blanket, Uncoated

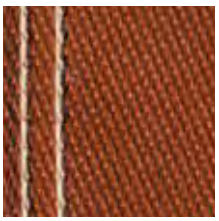
Code	Old Code	Description
37599	51050-21900	5′ x 10′ Silica Blanket, Uncoated, 18-oz
36291	6636-21900	6′ x 6′ Silica Blanket, Uncoated, 18-oz
36306	6848-21900	6′ x 8′ Silica Blanket, Uncoated, 18-oz
37600	51050-23700	5′ x 10′ Silica Blanket, Uncoated, 36-oz
36165	21900-38	Roll Goods, 38″ x 50 yards, 18-oz

Product Features

- **ANSI/ FM-4950** certified for use in vertical (1.4.3; 18-oz) or horizontal (1.4.2; 36-oz) applications with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- 18-oz for medium-duty protection
- 36-oz for heavy-duty protection
- Roll goods sold in 50-yard increments: minimum order is 1 roll or 50 yards
- Color: Tan

Heavy-Duty Protection

Wilson* Weld-O-Glass 17-oz & 32-oz Fiberglass Blanket, Silicone Coated



Code	Old Code	Description
36175	3101R-38	17-oz Roll Goods, 38″ x 50 yards
36176	3101R-60	17-oz Roll Goods, 60″ x 50 yards
37592	1010100-3000R	10′ x 10′ 32-oz Fiberglass Blanket, Silicone Coated
36173	3000R-38	32-oz Roll Goods, 38″ x 50 yards
36174	3000R-60	32-oz Roll Goods, 60″ x 50 yards

Product Features

- **ANSI/ FM-4950** certified for use in vertical (1.4.3) applications with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area ***(Codes 36175 & 36176)***
- **ANSI /FM-4950** certified for use in horizontal applications with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; protects machinery and prevents ignition of combustibles such as wood that are located adjacent to the underside of the blanket. Certified roll goods feature the ANSI FM imprint every 3′ along the edge ***(Codes 36173, 36174 & 37592)***
- Roll goods sold in 50-yard increments: minimum order is 1 roll or 50 yards
- Color: Red

Wilson* Weld-O-Glass 15-oz Carbonized Acrylic Felt Blanket

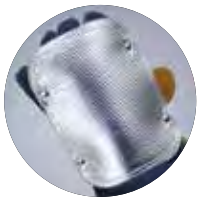
Code	Old Code	Description
37594	3309-5180	3′ x 3′ 15-oz Carbonized Acrylic Felt Blanket
37596	4624-5180	4′ x 6′ 15-oz Carbonized Acrylic Felt Blanket
36210	5525-5180	5′ x 5′ 15-oz Carbonized Acrylic Felt Blanket
36320	6636-5180	6′ x 6′ 15-oz Carbonized Acrylic Felt Blanket
36313	6848-5180	6′ x 8′ 15-oz Carbonized Acrylic Felt Blanket
36208	5180-72	Roll Goods, 72" x 50 yards

Product Features

- **ANSI/ FM-4950** certified for use in horizontal applications (1.4.1) with severe exposures such as that resulting from molten substances or heavy horizontal welding. Designed to prevent the ignition of combustibles that are located adjacent to the underside of the pad
- Service temperature 1800°F, intermittent service temperature to 3000°F
- Designed for horizontal, vertical or angled-plane use
- Roll goods sold in 50-yard increments: minimum order is 1 roll or 50 yards
- Color: Black

Accessories

Back-Hand Pad



Code	Old Code	Description
36680	BHP06	Back Hand Pad (10/pack; no pack splits)

Product Features

- Glove protector helps to extend glove life and performance, 5.5" x 13"
- Double-layer protection with Wilson* Aluminum Mylar Aluminum (AMA) top and high-temperature glass fabric bottom sewn and riveted for added durability

Welding Umbrella

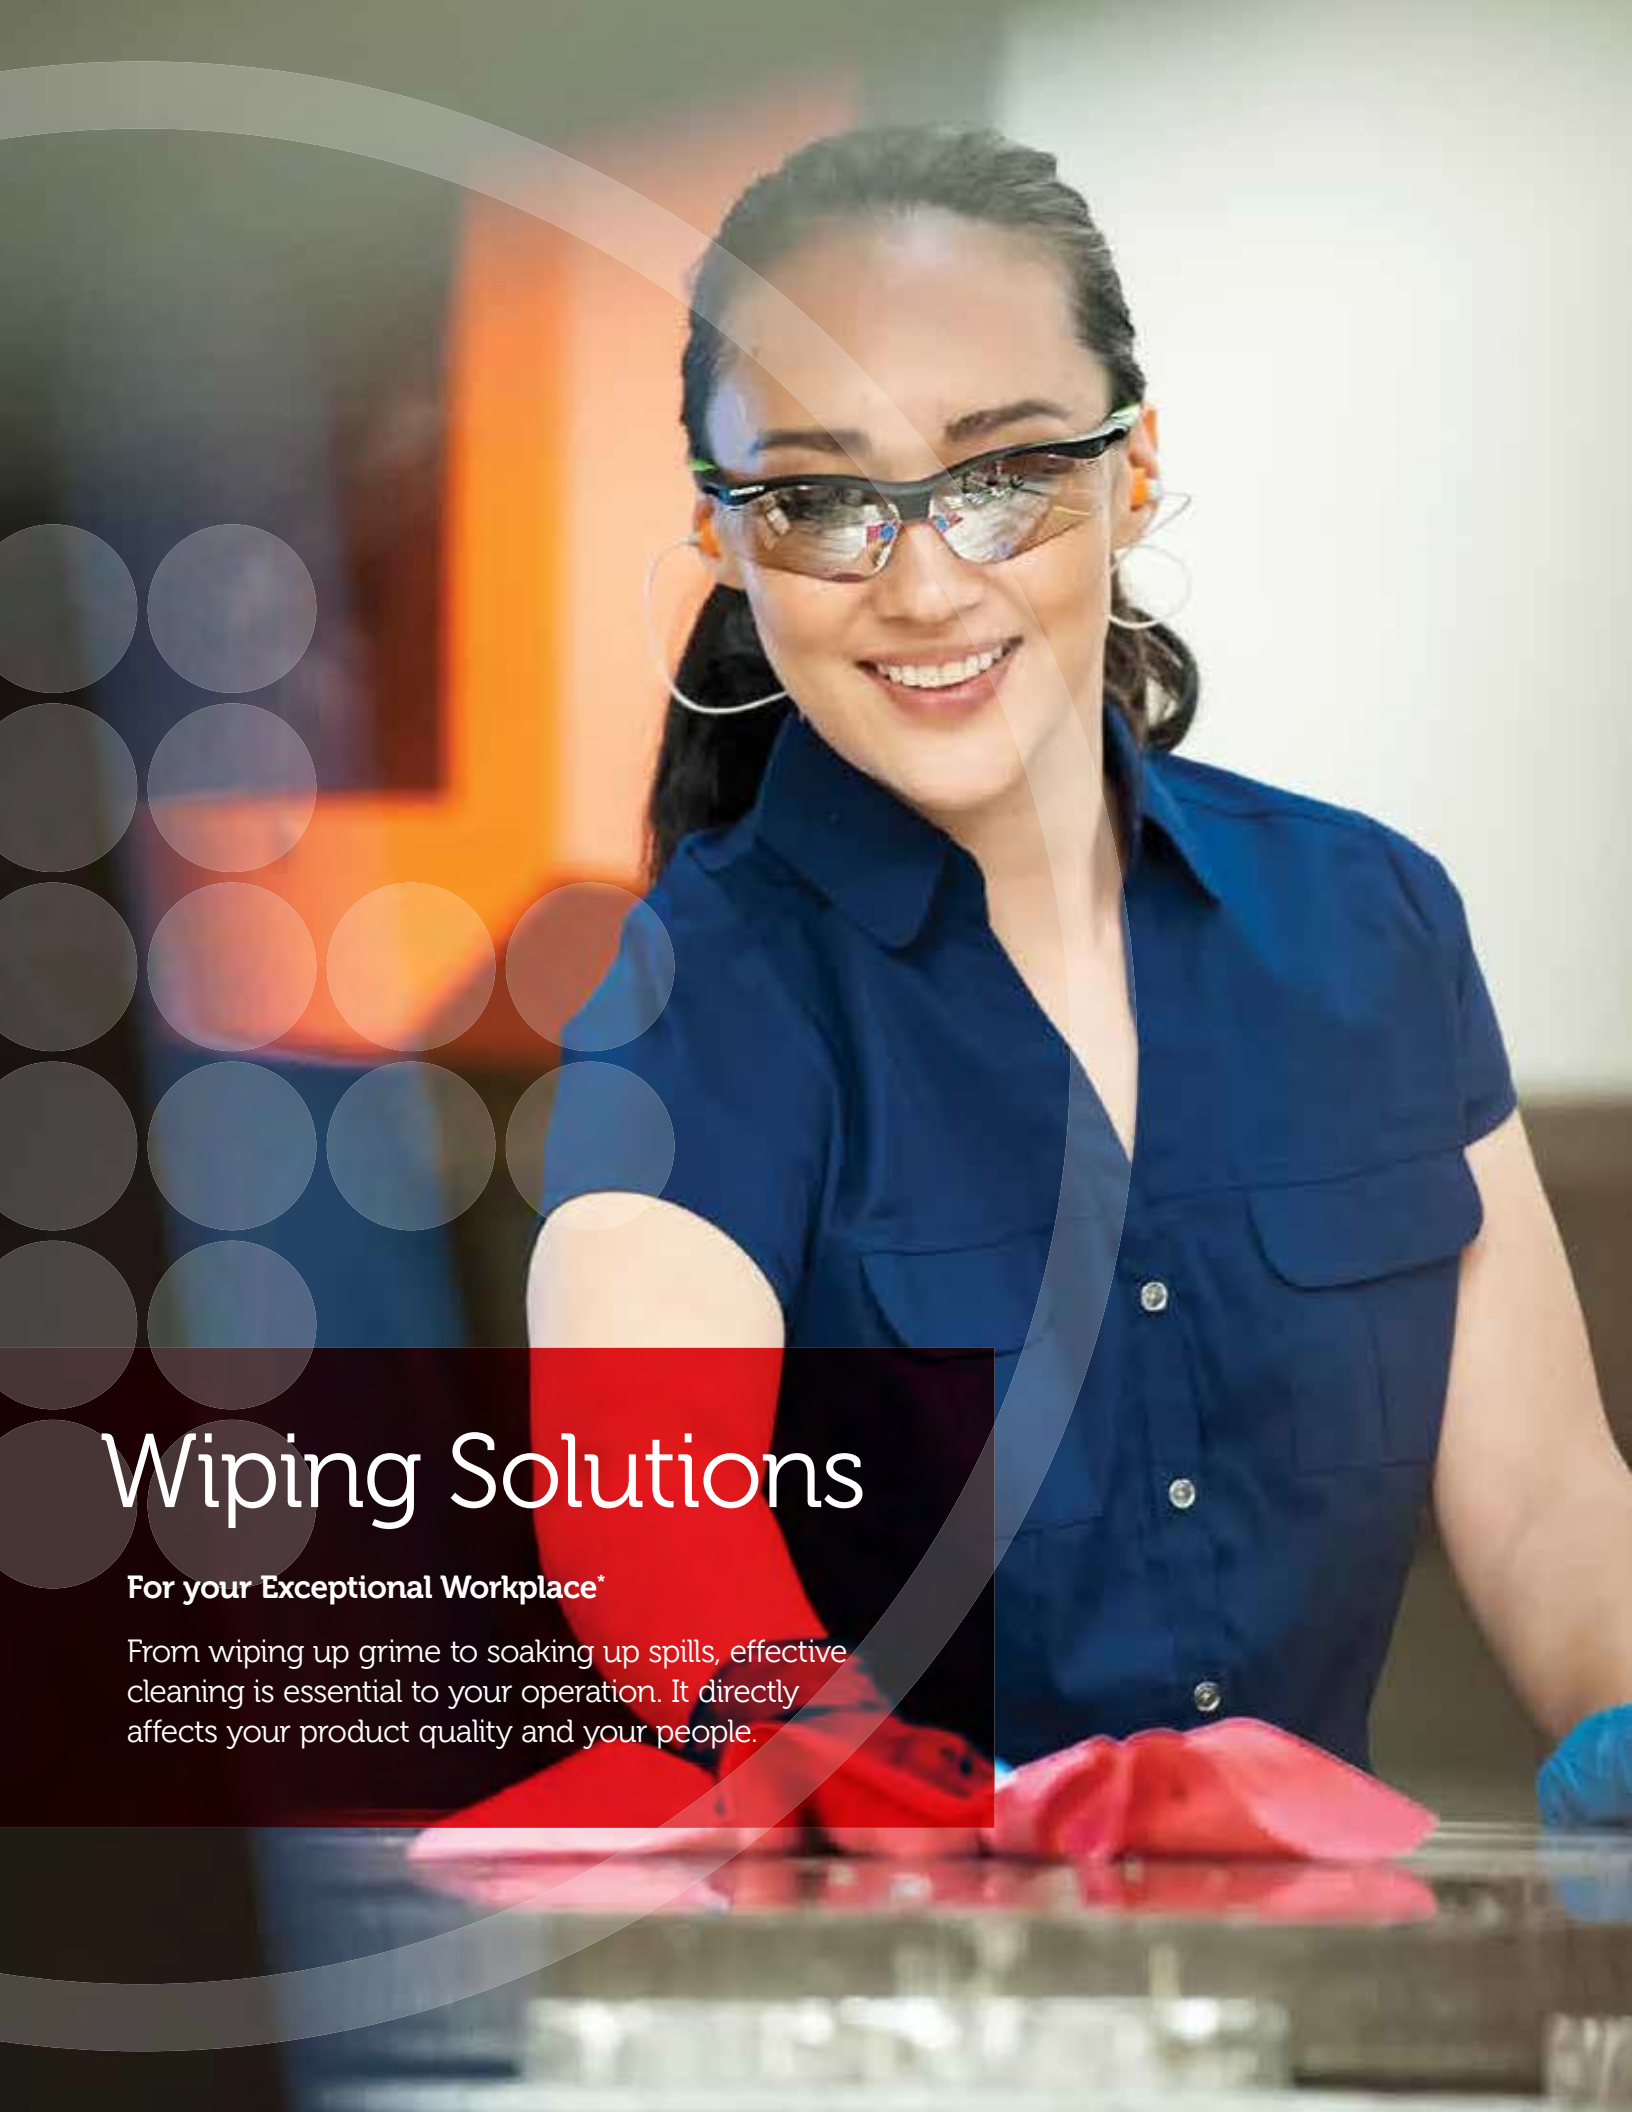
Code	Old Code	Description
36684	UM6500	Blue Welding Umbrella, 6.5′ x 7′
36683	UB750-150	Yellow Welding Umbrella, 7.5′ x 7′
37653	—	Heavy-duty Green Canvas Welding Umbrella, 6.5′ x 7′
37652	—	Heavy-duty Green Canvas Welding Umbrella, 7.5′ x 7′
36685	UMST4X4	Umbrella Stand, 4′ x 4′ cross-shape, folds for easy storage

Product Features

- Provides protection from rain or sunlight
- Lightweight aluminum frame and tilt mechanism with water and fire-resistant fabric

Welding Curtain Hooks

Code	Old Code	Description	Quantity
36687	WIL100	Heavy-duty hooks for use with welding curtains. Fit 1-1/2" - 2" outside diameter pipe	10/pack (No pack splits)



Wiping Solutions

For your Exceptional Workplace*

From wiping up grime to soaking up spills, effective cleaning is essential to your operation. It directly affects your product quality and your people.

WypAll* **Wipers**

Kimberly-Clark Professional* is committed to creating exceptional workplaces that are safer, healthier and more productive.

It starts with giving you exactly the right wiper for the job, whether it's heavy-duty parts cleaning — or a delicate task in the lab.

A good product "fit" ensures quality performance, safety and efficiency. It's also how we improve productivity, with no extra wipers or effort needed to complete each task.

So choose your wiper based on your specific needs — and count on Kimberly-Clark Professional* to help you make your workplace truly exceptional.

Take the WypAll* X Wiper Challenge

Replace your current wiper solution with WypAll* X Wipers for 60-days. If you don't see a 20% savings in your costs, we will reimburse you the difference between the cost of your product and our product up to $1,000 in free product of your choice.

60 days 20% savings guaranteed

Which wiper is right for you?

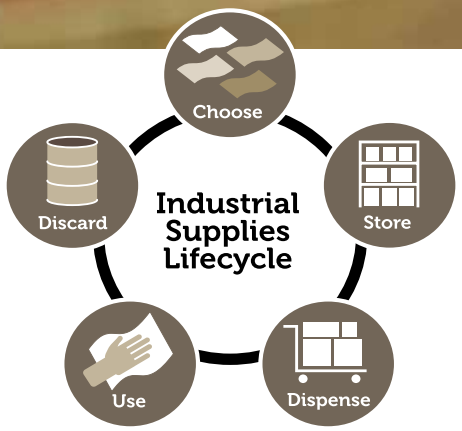
Consider the Cost, Waste and Inefficiency of Rags



Rags may seem like a good wiping choice. But think about what you're really getting — and ask yourself these questions:

- *How many of the rags we buy are unusable and are just thrown away? Why are we paying for rags we can't use?*
- *How much valuable space do we devote to storing those big bulky rag containers?*
- *Is walking back and forth to the rag barrel (and taking time to choose a rag) hurting worker productivity?*
- *How many rags are used to complete a wiping task?*
- *How many pounds of heavy rags are we paying to dispose of?*

Rags are sold by weight but are inconsistent in size, fabric and shape. They add to your landfill waste and associated costs. They can even leave residue on parts, creating quality issues.

This small change can make a big impact:

Simply switch to WypAll* Wipers. When you compare the lifecycles of WypAll* Wipers and rags, you'll discover opportunities to:

- Consume less
- Reduce waste
- Cut costs[1]

Take a look at these 5 important ways WypAll* Wipers outperform rags. Then find out how easy it is to make the switch.

[1] Comparisons based on average WypAll* Wiper usage versus average rag usage.

WypAll* Wipers vs. Rags

CHOOSE

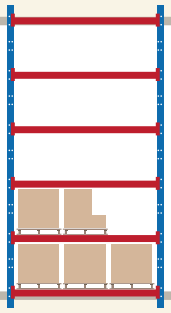
WypAll* Wipers are contaminant-free and provide consistent size, shape and quality with each individual wiper.

It's a mystery!

You never know what you'll get in a box of rags.

A box of rags – who knows what you'll get.

STORE



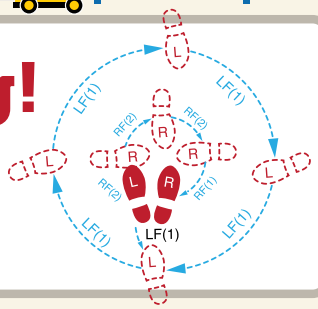
68% less space!

WypAll* Wipers require 68% less storage space than rags.

DISPENSE

No more dancing!

Moving from work to the rag dispenser, selecting a just-right rag, then going back to work. *What a waste!*



USE

WypAll* Wipers absorb **more than 2x** the amount of water as rags.

DISCARD

WypAll* Wipers reduce waste by **78%** versus rags

WypAll* Wipers will help you reduce waste, improve productivity, and increase the overall efficiency of your operation.

WypAll* X90 Cloths

When protecting the process is critical, reach for the toughest!

WypAll* X90 Cloths are designed for the toughest jobs around your facility. With their innovative design, WypAll* X90 Cloths have the highest fluid capacity of any product in the WypAll* Brand line and can lift as well as release fluid.

WypAll* X90 Cloths deliver superb fluid handling which allows you to complete clean wiping applications like never before. When you need durability, cleanliness and high fluid capacity, reach for WypAll* X90 Cloths.

- Low lint
- Low extractables for very clean solvent wiping
- Contain no glues, adhesives or binders
- Outstanding fluid capacity and release
- Soft and durable for repeated use
- Blue color will not dye bleed

Save money with less wasted solvent!

WypAll* X90 Cloths **release 90% of the solvent they absorb,** outperforming rags and reducing your solvent spend!

WypAll* Waterless Cleaning Wipes

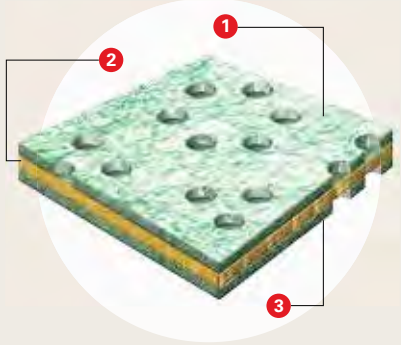
Waterless Cleaning Wipes remove grease from hands, tools and machinery

WypAll* Waterless Cleaning Wipes are a powerful and portable pre-saturated cleaning system designed for on-the-go tasks where dry wiping simply isn't enough.

- Great for cleaning hands, tools, machines, non-porous work surfaces, dirty parts and any other tough jobs wherever they are
- Wipers won't damage tools, equipment or parts
- Ideal for manufacturing, maintenance, engineering, transportation and on-the-go service professionals

WypAll* Waterless Cleaning Wipes

Tough on grime, easy on skin



1. Textured surface and advanced cleaning agent efficiently break down and dissolve stubborn dirt and grime
2. Absorbent layer soaks up and holds the dirt preventing it from returning to the hands
3. Smooth surface cleans off any remaining dirt, while leaving the skin coated with moisturizers

WypAll* Waterless Cleaning Wipes

Scott® Presaturated Wipes for the Office and Schools

Help prevent the spread of germs

Scott® Surface Wipes are ideal for classroom, office or home cleaning. Gentle ingredients make this wipe acceptable for use by anyone, including children to keep work and play surfaces clean.

Scott® Disinfectant Wipes are alcohol- and bleach-free and are ideal for cleaning, disinfecting and deodorizing.

Most surface disinfectants work for the moment. But bacteria can be quickly reintroduced just by touching and handling the surface again. Scott® 24 Hour Sanitizing Wipes kill 99.9% of bacteria for 24 hours even after multiple touches†.

Scott® Presaturated Wipes

Code No.	Description	Color	Size (inches)	Size (centimeters)	Put-Up	Dispenser		Country
41524	24 Hour†† Sanitizing Wipes	White	7.87" x 6.69"	20cm x 17cm	12/50	774039		USA only
42532	24 Hour†† Sanitizing Wipes	White	7.87" x 6.69"	20cm x 17cm	12/50	774039		Canada only

† EPA Reg. No. 9402-17

†† Residual Self-Sanitizing: To sanitize for 24 hours against Staphylococcus aureus, Enterobacter aerogenes, and Community-Associated Methicillin Resistant Staphylococcus aureus (CA-MRSA) on hard, non-porous, non-food contact surfaces. Directions for Wipes: Use enough wipes to thoroughly treat surfaces to remain visibly wet for 5 minutes. Air dry. No rinsing required. Directions for Spray: Spray 6-8 inches from surface until thoroughly wet. Let stand for 5 minutes. Wipe dry. No rinsing required.

Kimtech Prep* Wipers

For critical tasks in healthcare and clean manufacturing environments

From preparing surfaces for painting at an automotive manufacturer to cleaning and disinfecting surfaces in healthcare facilities, Kimtech Prep* Wipers are ideal for tasks where precision and reliability are essential.

Kimtech Prep* Scottpure* Critical Task Wipers

- Low-lint rayon/polyester spunlace
- Clothlike softness
- Excellent absorbency
- Low extractables

Kimtech Prep* Kimtex* Wipers

- Low-lint polypropylene construction
- Perfect for use with grease and oils
- Great for cleaning and prep on surfaces and parts
- Acid-, base- and solvent-resistant

Kimtech Prep* Wipers for the WetTask* Wiping System

- Choose the Kimtech* Wiper that works best for your task and add the chemical solution you prefer
- Enclosed system helps eliminate contaminated rags and solutions and helps reduce exposure to chemical vapors and splashes
- Kimtech* Wiper code 36101 is suitable for disinfecting and sanitizing with quaternary amines, bleach and solvent chemicals

Kimtech* Aviation MRO/OEM Wipes

Every day, your aviation operation faces a difficult fact: production and maintenance have to be done exactly right. That's why Kimberly-Clark Professional* is committed to creating Exceptional Workplaces* – healthier, safer and more productive.

To reduce turnaround time and maximize productivity, we've engineered wipes for aviation's specific requirements. Our complete range of aviation wipes is designed to perform in all areas of OEM and MRO operations – from paint surface prep and engine maintenance to general purpose cleaning.

A — Wipes for Abrasive Surfaces
More abrasive-resistant than common aviation wipes such as cheesecloth, Sontara and Veraclean wipes

C — Cleaning Wipes
An easy to implement lean cleaning solution that addresses waste reduction and productivity improvement around general wiping needs

P — Surface Preparation Wipes
Leading edge material for optimum linting and extractables control. The ultimate in aviation precision wiping performance

W — WetTask* System
More controlled dispensing and application of solvent for reduced waste and better overall performance versus traditional bucket/decanter systems and disposable pre-saturated options

What Is Your Process?

■ Good ● Better ▲ Best

Washroom Solutions

At Kimberly-Clark Professional*, we create a world of wellness through solutions that are right for you and your facility.

Trusted Brands
for your Washroom

While people all over the globe are hard at work delivering great products and services that make the world move forward, we are busy transforming those environments. In fact, we are on a mission to create a new standard for the workplace. This means we not only sell great products, but also full-service solutions that truly change your working environment.

We offer two of the most recognized and respected brands in the world: **Kleenex®** Brand and **Scott®** Brand, both of which eliminate the guesswork for you and your employees.

Ready to make your workplace truly exceptional? We are ready to help, because we are dedicated to creating spaces that are healthier, safer and more productive.

Go With The Brand You Know

Kleenex® Brand is America's #1 consumer facial tissue. So it's no surprise that people also prefer Kleenex® Facial Tissue when they're away from home.

Exceptional softness and premium performance encourage tissue use, helping you create a healthier work environment.

Bathroom Tissue Solutions

Better Hygiene, Less Waste

Create a healthier restroom environment with Kleenex® and Scott® Brand bathroom tissue products. Designed to reduce waste, they also directly address good hygiene with enclosed, touchless dispensing options.

A customer favorite is our Coreless Jumbo Roll Tissue (JRT) that provides 15% more tissue per roll than standard cored JRT systems.

Paper Towel Solutions

A Customized Washroom Experience

With a clean, sleek design that fits any washroom environment, the innovative Mod* System has dispensing modules that simply plug and play. The result: a towel dispenser that's totally customized to meet the needs of each washroom within your facility now and into the future.

From manual or electronic hard roll towel dispensing to image-conscious folded towels, our systems offer a full range of hygienic options that deliver trusted Kleenex® and Scott® Brand towels.

Better For The Planet

We offer towels that are FSC® and ECOLOGO® certified and meet EPA standards for minimum post-consumer waste content.

Our towels are designed with Absorbency Pockets*, so fewer towels are used. That means more towels left in the dispenser, more time between refills, less paper waste and, in many cases, less cost for your business.

Promoting Healthier Environments

We have all kinds of ways to address germ "hot spots" — surfaces like door handles and break room tables that many people touch each day. We bring you innovative solutions to break the chain of germ transmission and help you create your own healthy work environment.

The Automatic Door Handle Disinfectant System disinfects the handle between uses, eliminating 99.9% of most common bacteria on the handle surface.

Automatic Door Handle Disinfectant System

Code	Description	Size	Qty/Case	Fits Dispensers
35524 US	Hyso® Aerosol Canister	4.5 oz.	6	35563, 35566, 35578

Scott® 24 Hour†† Sanitizing Solutions

41524 US 42532 CAN	Scott® 24 Hour†† Sanitizing Wipes	50 wipes	12	White

Scott® 24 Hour†† Sanitizing Spray kills 99.9% of bacteria for up to 24 hours†† — even after multiple touches.

†† Residual Self-Sanitizing: To sanitize for 24 hours against Staphylococcus aureus, Enterobacter aerogenes, and Community-Associated Methicillin Resistant Staphylococcus aureus (CA-MRSA) on hard, non-porous, non-food contact surfaces. Directions for Wipes: Use enough wipes to thoroughly treat surfaces to remain visibly wet for 5 minutes. Air dry. No rinsing required. Directions for Spray: Spray 6-8 inches from surface until thoroughly wet. Let stand for 5 minutes. Wipe dry. No rinsing required.

Our Guarantee

Your total satisfaction means everything to us. If, for any reason, our products do not meet your expectations, Kimberly-Clark will reimburse you‡ for your initial purchase, via FREE product, for up to $1,000. For more information on Kimberly-Clark Professional*, visit us online at ***www.KCProfessional.com***.

‡ Guarantee extended to consuming end-user accounts only.

The following information is provided to assist with your buying decisions. Read all instructions and warnings attached to product before use.

It is the responsibility of the user to assess the types of hazards and the risks associated with exposure and then decide on the appropriate personal protective equipment needed for each circumstance. Failure to use only Jackson Safety* designed, produced and tested components, attachments and replacement parts can adversely affect product performance resulting in serious injury.

JACKSON SAFETY* AND KLEENGUARD* APPAREL AND HAND PROTECTION
Apparel or hand protection should be replaced immediately if ripped, torn, abraded or punctured.

Fabrics are not flame-resistant unless specified. Keep away from sparks, flames and sources of ignition. Melting fabric can cause severe burns.

The information provided within this literature refers to the performance of the fabric only, in the laboratory under controlled conditions. Kimberly-Clark makes no representation that its products will provide complete protection from exposure to contaminants. Thin mil gloves are for industrial use only, and are not intended for applications involving direct exposure to hazardous chemicals.

JACKSON SAFETY* EYE PROTECTION
Provides limited eye protection. Additional protective devices are required for full eye coverage and protection.

Does not protect you from all hazards. Even though the lenses in these safety glasses are impact-resistant, they can break and shatter and will not protect you from explosions, all flying debris, and severe impacts. Should not be worn to provide protection from other hazards including, but not limited to, extreme temperatures, high heat, airborne dusts or mists, liquid splashes, sports activities and high-energy optical radiation.

JACKSON SAFETY* FACE SHIELDS
Will not protect against hazards such as, but not limited to, fragmenting grinding wheels, explosive devices, welding rays, corrosive liquids or molten metal. Some face shields do not provide any impact protection. Do not use for protection against lasers, masers, x-rays or gamma rays. Do not use for protection from infrared (IR) or ultraviolet (UV) light unless marked for this protection. Wear only with Jackson Safety* Brand Headgear or Cap Adaptors or other recommended products. Safety eyewear or goggles must also be worn. Do not use solvents for cleaning.

JACKSON SAFETY* RESPIRATORY PROTECTION
Do not use respirators for sandblasting or to protect against asbestos, lead-based paint, pesticides, oil aerosols[1], vapors or gases. Do not wear respirators when conditions prevent a good facial seal. It is important to fit check the respirator each time it is worn. Jackson Safety* Brand Respirators are not for medical use and should never be altered or modified. Powered air-purifying respirators (PAPRs) help protect against certain airborne contaminants. Do not use the PAPR with parts or accessories not specifically identified as compatible and which are included on the NIOSH approval label for the PAPR.

[1] Except R95 or P95

JACKSON SAFETY* HEARING PROTECTION
Jackson Safety* Hearing Protection may be adversely affected by certain chemical substances; avoid the use of solvents and other disinfectants. Regularly inspect for tears or cracks and replace if serviceability is suspected to be affected. Corded earplugs should not be used where there is a risk that the connecting cord could be caught up during use.

HEAD PROTECTION
Use other protection against severe impact hazards, severe penetration, or for blows to the front, side, or rear of head. Jackson Safety* Hard Hats protect the top of head only. Replace hard hat after impact, even if there are no visible signs of damage. Replace headgear after one year, and entire hard hat after five years, even if there are no visible signs of damage. Use only Jackson Safety* Brand Hard Hat Attachments with Jackson Safety* Brand Hard Hats. Other manufacturers' attachments may fit, but have not been tested for safety and effectiveness. Use only Jackson Safety* Brand Replacement Headgear specifically designed for your hard hat model. Headgear from other manufacturers (or Jackson Safety* Brand Headgear designed for other models) will not provide proper impact protection even if it fits in the shell. Do not use for sporting or recreational activities.

WELDING HELMET AND/OR FILTER
Must always be worn with impact-resistant safety spectacles or goggles. Use the specified Jackson Safety* Brand Safety Plate in front of the welding filter. Use the specified Jackson Safety* Brand Internal Safety Plate when using an auto-darkening filter. Keep a safety plate in the fixed portion of a lift-front helmet. Our welding helmets and/or filters are not intended to protect against spatter and rays created during direct overhead welding. Our helmets and/or filters are not suitable for lasers, or low energy (below 5 amps) welding. Our helmets and/or filters are not suitable for oxyacetylene torching or plasma cutting applications unless equipped with the "Torch" mode setting on the auto-darkening filter.

WELDING BLANKETS
Do not use a welding blanket for personal protection. Use only to cover work surfaces for welding. Blanket contains fibrous glass that may cause skin irritation from contact. Wear long-sleeved, loose-fitting clothing when handling. Wash skin with soap and water after contact. Do not use for any purpose other than as a welding blanket. Do not use when wet, because blanket will conduct electricity and heat. Do not allow contact with flammable liquids that would ignite if exposed to sparks.

WELDING CURTAINS
Do not use a welding curtain in place of goggles or other suitable eye protection. Do not use for any purpose other than as a welding curtain.

Kimberly-Clark warrants that its products (1) comply with K-C's standard specifications as of the delivery date to K-C's authorized distributors/direct purchasers and are warrantied for the following periods from end-user's date of purchase (verified by valid sales receipt) (a) five years for Balder* Technology auto darkening filters; (b) two years for all other auto-darkening filters; and (c) one year for powered air-purifying respirators; (2) comply with all K-C labeling representations; and (3) are manufactured in compliance with all applicable federal, state, and local laws in effect at the time and place of manufacture of the products. **THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.** K-C is not liable for any kind of special, incidental, or consequential damages. K-C's liability for breach of contract, tort or other cause of action shall not exceed the product purchase price. Purchasers and users are deemed to have accepted the above warranty and limitation of liability, and cannot change the terms by verbal agreement or by any writing not signed by K-C. To the extent required by applicable law, K-C does not limit its liability for death/injury resulting from K-C's negligence.
