The Dominator®

Go Ahead and Whack It!

Dominator tools mean business. With a hardened and tempered steel shaft extending through the handle and strikeable capped end, Dominator delivers the prying power and force you need to take on the toughest jobs.

Some Jobs are Tough; These Tools are Tougher

Dominator is the workhorse of the MayhewPro™ series. Uniquely designed for unparalleled strength and durability, this exclusive collection of professional-grade capped end pry bars and specialty tools stands up to punishment just as easily as it dishes it out.

- Capped end is in direct contact with the shaft and allows the user to strike the tool without damaging the handle
- Patented two-composite handle is ergonomically designed, providing superior comfort and grip

- Hardened, tempered-steel shaft runs from the cutting edge through the handle, delivering maximum durability and prying power

Dominator[®] Pry Bars

- Used for lifting and prying
- Available in both curved and straight blade styles
- Ergonomically designed handle with a capped end that is forged through the handle for unparalleled strength and durability
- Heat treated along the entire length of the steel
- Black oxide finish for additional rust protection
- Made in the USA

Non marring, non sparking USA brass punches and scrapers now offered in an improved smooth polished finish with a double knurled feature for more effective use. Whether the job requires a limited or the widest range of brass tools, Mayhew is the only professional solution to provide the requisite number of tools, within spec and with packaging that withstands typical harsh workplace environments.

Designed to remove gaskets and softer material where there is a concern of damaging the surface or causing sparks.

Non marring, non sparking USA brass punches and scrapers now offered in an improved smooth polished finish with a double knurled feature for more effective use. Whether the job requires a limited or the widest range of brass tools, Mayhew is the only professional solution to provide the requisite number of tools, within spec and with packaging that withstands typical harsh workplace environments.

Used to transfer the force of a hammer blow to a specific location to remove or loosen a part or pin.

THE PROS KNOW

Quality. Dependability. Confidence. When the caliber of the tools is just as important as the skills of the professionals employed, businesses trust Mayhew to get the job done. Since 1856, our punches, chisels, and pry bars have been the go-to tools for OEMs and professional mechanics throughout the country. And while our company has grown to meet the needs of the professional market, as well as those of the do-it-yourself automotive enthusiast, our focus has never changed—leveraging our strength to build your business.
