SHIM AND TOOLROOM PRODUCTS CATALOG

www.precisionbrand.com

// **YOU HAVE
ALL THE
LITTLE STUFF
THAT KEEPS MY
BIG
STUFF WORKING** //

- Maintenance Superintendent
and longtime Precision Brand® end-user

Inside this catalog you will find many unique, innovative, time-saving products.

The two products featured on the cover of this catalog, Precision Brand® “Branded®” Shim and Tru-Punch® punch and die set are examples of the competitive edge you get from Precision Brand®.

Absolute identification, total confidence at your fingertips!

Precision Brand Products, Inc. shim products are “Branded”, that is, marked with all the information that you need to use the shim, thickness, material type, and even a lot number for full traceability.

Productivity and Quality improvements in seconds!

The Precision Brand® Tru-Punch® punch and die set takes shim fabrication from minutes to seconds. Our unique pilot system consistently ensures perfectly concentric shims in seconds.

Visit our website or scan these QR codes to see for yourself the advantages of our “Branded®” shim and Tru-Punch® punch and die set and all the other innovative products from Precision Brand Products, Inc.

Contents

Precision Brand® Custom Products

Precision Brand® Custom Products

Precision Brand Products

70 years
of delivering
custom product solutions
for your unique
manufacturing problems

Custom Shims and Parts from Precision Brand Products, Inc.

Rapid Prototyping

Prototypes are standard for Precision Brand Products. From print to part we have the experience and resources to quickly fabricate raw material into your precision tolerance prototype.

Small Production and Emergency Production Runs

We understand time is money. Small production runs and emergency short run situations can chew up both. Depend upon Precision Brand® and its resources to quickly get you back into production and making money again.

Unparalleled Quality

Quality is an integral part of our value proposition. For over 70 years, industrial engineers have depended on Precision Brand Products to employ the latest technology in providing custom solutions for their engineered precision tolerance assemblies.

Proven Performance

A large inventory of raw materials, dependable service, rigorous quality control, and engineering standards are all components of our total performance.

Maintenance Kits

- Handy kits for shop toolroom or toolbox

Cotter Pins

UPC No. 12905 – 600 Pcs.

Strong and flexible zinc plated steel pins with one prong extended for easy insertion and bending. Pins also have chisel point ends.

Contents

130	1/16" x 1"
100	1/8" x 1-1/4"
80	1/8" x 2"
150	3/32" x 1"
100	3/32" x 1-3/4"
40	5/32" x 2-1/2"

- On hand when needed saves time and money

Stainless Steel Cotter Pins

UPC No. 12995 – 124 Pcs.

These pins are made from corrosion resistant stainless steel with one prong extended for easy insertion.

Contents

8	1/16" x 3/4"
8	1/16" x 1"
10	3/32" x 3/4"
12	3/32" x 1"
12	3/32" x 1-1/2"
8	3/32" x 2"
12	1/8" x 1"
8	1/8" x 1-1/4"
8	1/8" x 1-1/2"
10	1/8" x 2"
8	5/32" x 1-1/2"
8	5/32" x 2"
6	3/16" x 1-1/2"
6	3/16" x 2"

- Plastic compartment boxes are easy to store

Clevis Pins

UPC No. 13965 – 83 Pcs.

Pins are made from cold formed low carbon steel. Plated finish extends life and chamfered end and hole allow for easy insertion.

Contents

6	3/16" x 1"	4	5/16" x 1-3/4"
7	1/4" x 1"	3	5/16" x 2"
4	1/4" x 1-1/4"	2	5/16" x 2-1/4"
7	1/4" x 1-1/2"	2	5/16" x 2-1/2"
4	1/4" x 1-3/4"	2	5/16" x 2-3/4"
6	1/4" x 2"	5	3/8" x 1"
3	1/4" x 2-1/4"	4	3/8" x 1-1/2"
3	1/4" x 2-1/2"	2	3/8" x 2"
6	5/16" x 1"	2	1/2" x 1-1/2"
4	5/16" x 1-1/4"	2	1/2" x 2"
5	5/16" x 1-1/2"		

Roll Pins

UPC No. 12925 – 300 Pcs.

Made of flexible spring steel, cold rolled, hardened and tempered. Chamfered ends simplify insertion.

Contents

1/16", 5/64", 3/32", 1/8", 5/32", 3/16", 7/32", 1/4", 5/16" & 3/8" diameters. Four lengths included for each diameter.

Metric Roll Pins

UPC No. 12960 – 287 Pcs.

Made of flexible spring steel, cold rolled, hardened and tempered. Chamfered ends simplify insertion. All sizes in millimeters.

Contents

1.5, 2, 3, 4, 5, 6, 8 and 10 millimeter diameters in various lengths from 6 to 80 millimeters.

Stainless Steel Roll Pins

UPC No. 12990 – 300 Pcs.

These stainless steel roll pins have chamfered ends for ease of insertion.

Contents

1/16", 3/32", 1/8", 3/16", 1/4", 5/16", 3/8" diameters. Various lengths included for each diameter.

O Rings

UPC No. 12930 – 300 Pcs.

Made of BUNA-N 70 durometer rubber compound. Creates a tight seal for fluid or gas connections.

Contents

140 pcs. of 1/16" body, 80 pcs. of 3/32" body and 80 pcs. of 1/8" body. Various sizes are included for each body size.

Metric O Rings

UPC No. 13995 – 350 Pcs.

Made of BUNA-N 70 durometer rubber compound. These metric size rings create a tight seal for fluid or gas connections.

Contents

125 pcs. of 2mm body, 95 pcs. of 2.5mm body and 130 pcs. of 3mm body. Various sizes are included for each body size.

Taper Pins

UPC No. 12907 – 100 Pcs.

Made from low carbon steel. These pins are mainly used for hole alignment in maintenance machinery. They are tapered 1/4" per foot.

Contents

#0, #1, #2, #3, #4, #5, and #6 sizes included. Available in various lengths from 3/4" to 3".

Maintenance Kits

E-Clips

UPC No. 12910 – 265 Pcs.

External clips, made of carbon steel used for positive retention of pulleys, sprockets, springs and bearings on shafts and rods.

Contents

30 1/8"	30 3/8"
20 5/32"	25 7/16"
30 3/16"	20 1/2"
20 7/32"	15 5/8"
30 1/4"	10 3/4"
30 5/16"	5 7/8"

Metric E-Clips

UPC No. 13990 – 255 Pcs.

External metric size clips made of steel, used for positive retention of pulleys, sprockets, springs and bearings on shafts and rods.

Contents

35 1.2mm	10 7mm
30 1.5mm	10 8mm
30 1.9mm	10 9mm
25 2.3mm	5 10mm
20 3.2mm	10 12mm
15 4mm	15 15mm
15 5mm	5 19mm
15 6mm	5 24mm

Dowel Pins

UPC No. 12912 – 176 Pcs.

Made from alloy steel, these pins have a plain finish and are used to retain parts in a fixed position or to preserve alignment when extreme accuracy is required.

Contents

Diameters: 1/16", 1/8", 3/16", 1/4", 5/16", 3/8" & 1/2". Available in various lengths from 3/8" to 2".

Housing Rings

UPC No. 12920 – 150 Pcs.

Internal rings with tapered design to maintain constant pressure to prevent slippage of axles, gears and bearings inside machinery housing. Made of zinc plated spring steel.

Contents

15 1/2"	10 1-1/16"
15 5/8"	10 1-1/8"
15 11/16"	10 1-1/4"
15 3/4"	5 1-3/8"
15 13/16"	5 1-1/2"
15 7/8"	5 1-5/8"
10 1"	5 1-3/4"

Metric Housing Rings

UPC No. 13985 – 218 Pcs.

Internal metric size rings with tapered design to maintain constant pressure to prevent slippage of axles, gears and bearings inside machinery housing. Made of black phosphate coated spring steel.

Contents

20 10mm	8 25mm
15 11mm	5 26mm
20 12mm	8 28mm
18 14mm	8 30mm
15 15mm	8 32mm
18 16mm	5 35mm
12 18mm	3 36mm
10 19mm	3 37mm
12 20mm	5 38mm
10 22mm	5 40mm
10 24mm	

Hitch Pin Clips

UPC No. 12915 – 150 Pcs.

Reusable, quick release pins for fast assembly and disassembly. Made of spring steel to maintain tension.

Contents

60 1/16"	#18
30 3/32"	#3
20 3/32"	#7
20 1/8"	#16
15 5/32"	#10
5 3/16"	#6

Snap Rings

UPC No. 12900 – 300 Pcs.

External, spring steel snap rings used to retain pulleys, gears or wheels on shafts. Made of zinc plated spring steel.

Contents

30 1/4"	30 5/8"
20 5/16"	35 3/4"
50 3/8"	10 13/16"
20 7/16"	20 7/8"
50 1/2"	10 1"
20 9/16"	5 1-1/4"

Metric Snap Rings

UPC No. 13980 – 295 Pcs.

External, metric size spring steel snap rings used to retain pulleys, gears or wheels on shafts. Made of black phosphate coated spring steel.

Contents

25 6mm	15 18mm
20 8mm	10 19mm
15 9mm	15 20mm
20 10mm	10 21mm
20 11mm	10 22mm
20 12mm	10 24mm
10 13mm	10 25mm
20 14mm	5 28mm
15 15mm	5 30mm
20 16mm	5 32mm
10 17mm	5 35mm

Retaining Rings

UPC No. 12935 – 140 Pcs.

Similar to housing rings, these external rings accommodate components with large chamfers and radii. Made of zinc plated spring steel.

Contents

20 1/2"	15 3/4"
20 9/16"	10 7/8"
20 19/32"	10 1"
20 5/8"	10 1-1/4"
15 11/16"	

Maintenance Kits

Set Screws

UPC No. 12950 – 200 Pcs.

High grade alloy steel set screws with hexagon recessed heads. Ends have cup points for positive torque.

Contents

- 10 6-32 x 3/16"
- 10 8-32 x 3/16"
- 10 10-24 x 1/4"
- 30 1/4-20 x 1/4"
- 20 1/4-28 x 1/4"
- 20 1/4-20 x 3/8"
- 30 5/16-18 x 3/8"
- 20 5/16-24 x 3/8"
- 20 5/16-18 x 1/2"
- 10 3/8-16 x 3/8"
- 10 3/8-24 x 3/8"
- 10 3/8-16 x 1/2"

Metric Set Screws

UPC No. 12975 – 375 Pcs.

High grade alloy steel metric set screws with hexagon recessed heads. Ends have cup points for positive torque.

Contents

- 25 M3 x 0.5mm x 3mm
- 25 M3 x 0.5mm x 6mm
- 25 M3 x 0.5mm x 10mm
- 25 M4 x 0.7mm x 4mm
- 25 M4 x 0.7mm x 6mm
- 25 M4 x 0.7mm x 10mm
- 25 M5 x 0.8mm x 5mm
- 25 M5 x 0.8mm x 8mm
- 25 M5 x 0.8mm x 12mm
- 25 M6 x 1.0mm x 6mm
- 25 M6 x 1.0mm x 8mm
- 25 M6 x 1.0mm x 10mm
- 25 M8 x 1.25mm x 8mm
- 25 M8 x 1.25mm x 12mm
- 25 M8 x 1.25mm x 16mm

Stainless Steel Set Screws

UPC No. 13935 – 220 Pcs.

Stainless steel set screws with hexagon recessed heads. Ends have cup points for positive torque.

Contents

- 5 4-40 x 3/16"
- 10 6-32 x 3/16"
- 5 6-32 x 1/4"
- 10 8-32 x 3/16"
- 5 8-32 x 1/4"
- 10 10-24 x 1/4"
- 5 10-32 x 1/4"
- 5 10-32 x 3/8"
- 25 1/4-20 x 1/4"
- 20 1/4-20 x 3/8"
- 5 1/4-20 x 1/2"
- 20 1/4-28 x 1/4"
- 25 5/16-18 x 3/8"
- 20 5/16-18 x 1/2"
- 20 5/16-24 x 3/8"
- 10 3/8-16 x 3/8"
- 10 3/8-16 x 1/2"
- 10 3/8-24 x 3/8"

Socket Head Cap Screws

UPC No. 12970 – 190 Pcs.

High grade alloy steel socket head screws with hexagon recessed heads.

Contents

- 10 6-32 x 1/2"
- 10 6-32 x 1"
- 10 8-32 x 1/2"
- 10 8-32 x 3/4"
- 10 8-32 x 1"
- 10 10-24 x 1/2"
- 10 10-24 x 1"
- 10 10-32 x 1/2"
- 10 10-32 x 3/4"
- 10 10-32 x 1"
- 10 1/4-20 x 1/2"
- 10 1/4-20 x 3/4"
- 10 1/4-20 x 1"
- 10 1/4-20 x 1-1/4"
- 10 1/4-20 x 1-1/2"
- 10 1/4-28 x 3/4"
- 10 1/4-28 x 1"
- 10 1/4-28 x 1-1/4"
- 10 1/4-28 x 1-1/2"

Metric Socket Head Cap Screws

UPC No. 12980 – 255 Pcs.

High grade alloy steel metric cap screws with hexagon recessed heads.

Contents

- 25 M4 x 0.7mm x 10mm
- 25 M4 x 0.7mm x 12mm
- 25 M4 x 0.7mm x 20mm
- 25 M4 x 0.7mm x 25mm
- 25 M5 x 0.8mm x 12mm
- 25 M5 x 0.8mm x 20mm
- 10 M5 x 0.8mm x 25mm
- 10 M5 x 0.8mm x 30mm
- 10 M6 x 1.0mm x 12mm
- 10 M6 x 1.0mm x 20mm
- 10 M6 x 1.0mm x 25mm
- 10 M6 x 1.0mm x 30mm
- 10 M6 x 1.0mm x 40mm
- 10 M8 x 1.25mm x 20mm
- 10 M8 x 1.25mm x 25mm
- 10 M8 x 1.25mm x 30mm
- 3 M8 x 1.25mm x 40mm
- 2 M8 x 1.25mm x 45mm

Machinery Keys

UPC No. 12955 – 58 Pcs.

Zinc plated steel, square keys have smooth corners for easy insertion into keyways.

Contents

- 3 1/8" x 1/8" x 3/4"
- 3 1/8" x 1/8" x 1"
- 5 3/16" x 3/16" x 3/4"
- 5 3/16" x 3/16" x 1"
- 5 3/16" x 3/16" x 1-1/4"
- 5 1/4" x 1/4" x 3/4"
- 5 1/4" x 1/4" x 1-1/4"
- 5 1/4" x 1/4" x 1-1/2"
- 5 5/16" x 5/16" x 1-1/4"
- 5 5/16" x 5/16" x 1-1/2"
- 5 3/8" x 3/8" x 1-1/4"
- 5 3/8" x 3/8" x 1-1/2"
- 2 1/2" x 1/2" x 1-1/2"

Grease Fittings

UPC No. 12945 – 90 Pcs.

These push type, plated fittings permit lubricant to flow while built-in ball, under spring pressure, prevents dirt from entering.

Contents

- 30 1/8" NPT-Straight
- 5 1/8" NPT-45°
- 5 1/8" NPT-90°
- 30 1/4" 28-Straight
- 10 1/4" 28-45°
- 10 1/4" 28-90°

Metric Grease Fittings

UPC No. 13975 – 95 Pcs.

These metric size, push type, plated fittings permit lubricant to flow while built-in ball, under spring pressure, prevents dirt from entering.

Contents

- 20 6mm x 1mm x Straight
- 10 6mm x 1mm x 45°
- 10 6mm x 1mm x 90°
- 20 8mm x 1mm x Straight
- 10 8mm x 1mm x 45°
- 10 8mm x 1mm x 90°
- 5 10mm x 1mm x Straight
- 5 10mm x 1mm x 45°
- 5 10mm x 1mm x 90°

Electrical Terminals

UPC No. 12985 – 175 Pcs.

High quality terminals and connectors for industrial and automotive applications.

Contents

- 30 Butt Connectors
- 20 Insulated Quick Slide Terminals
- 20 Noninsulated Quick Slide Terminals
- 5 Self-Splicing Connectors
- 40 Spade Terminals
- 60 Ring Terminals

Maintenance Kits

Woodruff Keys

UPC No. 12940 – 250 Pcs.

Precise, zinc plated steel keys used for pulley and drive shaft applications.

Contents

10 1/16" x 3/8"	5 3/16" x 5/8"
20 3/32" x 3/8"	20 1/8" x 3/4"
10 1/8" x 3/8"	10 5/32" x 3/4"
10 1/16" x 1/2"	20 3/16" x 3/4"
20 3/32" x 1/2"	5 1/4" x 3/4"
20 1/8" x 1/2"	5 5/32" x 7/8"
10 3/32" x 5/8"	5 3/16" x 7/8"
30 1/8" x 5/8"	5 7/32" x 7/8"
40 5/32" x 5/8"	5 1/4" x 7/8"

Stainless Steel Woodruff Keys

UPC No. 13970 – 66 Pcs.

Precise, stainless steel keys used for pulley and drive shaft applications where corrosion resistance is a factor.

Contents

5 1/16" x 3/8"	4 3/16" x 5/8"
5 3/32" x 3/8"	4 1/8" x 3/4"
5 1/8" x 3/8"	4 5/32" x 3/4"
5 1/16" x 1/2"	4 3/16" x 3/4"
5 3/32" x 1/2"	4 1/4" x 3/4"
5 1/8" x 1/2"	3 3/16" x 7/8"
4 1/8" x 5/8"	3 1/4" x 7/8"
4 5/32" x 5/8"	2 1/4" x 1"

Wedgies™ Installation Shims

- Wedgies™ Installation Shims are stackable, nonslip, plastic shims used for leveling and stabilizing
- Plastic material means Wedgies™ shims will not shrink, swell or rot

Soft/Flexible Wedgies™ Shims

- Made from vinyl
- Super flexible, absorb vibration, reduce noise, great stabilizing cushion
- Trim easily with one knife stroke

- Available in mini (1.12" x .58" x .16"); standard (1.92" x 1.15" x 0.25") and large (3.54" x 2.36" x .48" DOUBLE WIDE) sizes

Hard/Rigid Wedgies™ Shims

- Made from polypropylene
- Tough and durable, can hold up to 2,000 pounds
- Glue resistant, useful as a clamping pad on angled surface
- Available in mini (1.12" x .58" x .16"); standard (1.92" x 1.15" x 0.25") and large (3.54" x 2.36" x .48" DOUBLE WIDE) sizes

Replacement Punches, Pins & Pilots (complete set only)	40115

- **“THE BIG” TruPunch™** by PRECISION BRAND can accommodate O.D. sizes up to 1-1/4"
- Four punch sizes: 7/8", 1", 1-1/8" and 1-1/4"
- Four I.D. pilot sizes: 3/4", 7/8", 1" and 1-1/8"
- Works in conjunction with PRECISION BRAND's TruPunch® #40110 (see above), I.D. pilots are interchangeable to allow for 77 O.D. and I.D. shim combinations
- Cut brass, copper, aluminum, rubber and plastic effortlessly up to .020" thick
- Cut steel up to .015" thick
- Cut stainless and blue tempered shim up to .010" thick

“THE BIG” TruPunch™ Punch & Die Set

Description	UPC No.
Complete “THE BIG” TruPunch™ Punch & Die Set	40200
Replacement Punches, Pins & Pilots (complete set only)	40215

- **“METRIC 10” TruPunch®** by PRECISION BRAND is the first “true metric” self-centering punch & die set
- Ten punch sizes: 3mm, 4mm, 5mm, 6mm, 7mm, 8mm, 10mm, 12mm, 16mm and 20mm
- Nine I.D. pilot sizes: 3mm, 4mm, 5mm, 6mm, 7mm, 8mm, 10mm, 12mm and 16mm
- This set is able to produce 44 different I.D. and O.D. shim combinations
- Cut steel, brass, copper, aluminum, rubber and plastic effortlessly up to .635mm thick
- Cut stainless and blue tempered shim up to .25mm thick

“METRIC 10” TruPunch® Punch & Die Set

Description	UPC No.
Complete “METRIC 10” TruPunch® Punch & Die Set	40300
Replacement Punches, Pins & Pilots (complete set only)	40315

Punch & Die Set

- Traditional style punch & die set
- Economical way to make washers, shims and gaskets
- Cut steel, brass, copper, aluminum, rubber and plastic up to .025" thick
- Cut stainless and blue tempered shim up to .010" thick
- Clear plastic top plate is marked with accurate center lines
- Nine punch sizes: 1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 5/8" and 3/4"

Punch & Die Set

Description	UPC No.
Complete Punch & Die Set	40105
Replacement Punches (complete set only)	40100

Punch & Die Stand

(Die sold separately)

- PRECISION BRAND Punch & Die Stand provides solid support for consistent shim and washer fabricating
- Custom fit, sturdy steel die stand holds dies from any of the Precision Brand sets: 40105, 40110, 40200 and 40300
- Stand allows for easy access to cut shims and washers
- Decreases possible damage to punches

Punch & Die Stand

Description	UPC No.
Die Stand	40999

WATCH TRUPUNCH DEMO

- PRECISION BRAND Music Wire is spring tempered and made from high carbon steel alloy
- High tensile strength and high fatigue resistance
- Applications include springs, wire forms, control linkages, armature binding, ceramic cutting and a variety of industrial uses
- Most wire is available in **cut-and-straightened** lengths and in bulk quantities as a special order
- PRECISION BRAND Stainless Steel Wire is spring tempered, full hard, 300 series stainless steel wire
- Excellent corrosion resistant qualities and smooth finish
- Same applications as Music Wire
- .006" to .078" are packaged in easy to use pull-type dispenser boxes

SLIP Plate® Dry Film Lubricant

SLIP Plate® brand products are the original, premium, dry film graphite lubricant. Graphite lubricants are an environmentally friendly, lubrication solution where traditional oil and grease may fail or are not recommended. Features include: repels water, sleet, snow, and dirt; keeps its lubricity to -70°F to +350°F; electrically and thermally conductive; effective lubrication under extreme pressure; reduces buildup of particles and corrosion; molecularly bonds to metal surfaces.

SLIP Plate®, MowerGUARD™ and Black ICE™ are trademarks of Superior Graphite.

SLIP Plate®, 12 Ounce Aerosol

Original, dry film lubricant that goes on like paint. Produces a slick barrier between metal surfaces. Helps reduce corrosion and prolong equipment life. Lubricates in extreme environments and is stable from -75 to +450°F. Naturally hydrophobic — repelling rain, snow, and mud. SLIP Plate® Aerosol is an environmentally safe alternative to petroleum films and greases. It reduces sliding friction and buildup and molecularly bonds to metal surfaces.

- SLIP Plate® aerosol products cannot be shipped via air transportation

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
SLIP Plate® Aerosol - 12 oz	12	33203	45531	13.00
SLIP Plate® Aerosol - 12 oz	6	33203G	45532	7.00

SLIP Plate® #1

Heavy-duty, dry film graphite lubricant that solves sliding friction problems. Contains the highest concentration of friction fighting graphite. Produces a durable coating with greater lubricity. Naturally hydrophobic — repelling rain, snow, and mud. SLIP Plate® No. 1 helps reduce rust and corrosion while prolonging equipment life. Common applications are: front end loaders, graders, auto transport carriers, fork lifts, dumpsters, chutes, trailer hitches, and skid steer buckets.

- SLIP Plate® #1 products cannot be shipped via air transportation

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
SLIP Plate® #1 - 1 quart	6	330050S	45533	17.00
SLIP Plate® #1 - 1 gallon	4	330150S	45534	41.00
SLIP Plate® #1 - 5 gallon	1	33008	45535	48.00

SLIP Plate® #3

Fast drying, graphite film coating. Can be sprayed using conventional spray equipment. Reduces wear and sliding friction problems. Will not attract and trap dust, dirt, or grit. Extreme temperature environments do not affect performance. SLIP Plate® No. 3 provides lasting protection from rain, snow, and mud, helping to reduce the development of rust and corrosion. Common applications are: grain wagons, dump trucks, gravity bins, corn picker heads, dust collectors, augers, chutes, and slides.

- SLIP Plate® #3 products cannot be shipped via air transportation

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
SLIP Plate® #3 - 1 gallon	4	33215	45536	36.00
SLIP Plate® #3 - 5 gallon	1	33208	45537	48.00

SLIP Plate® #4

An excellent abrasion and corrosion resistant coating. Extends the working life of tools and equipment where slip friction is present. Forms a durable graphite film. SLIP Plate® No. 4 is an environmentally friendly, dry film, graphite lubricant coating that can be used as an alternative to petroleum-based lubricants. Common applications are: fertilizer spreaders, shovels, garden tools, wheelbarrows, and post hole diggers.

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
SLIP Plate® #4 - 1 gallon	4	336150S	45538	41.00
SLIP Plate® #4 - 5 gallon	1	33608	45539	48.00

SLIP Plate® MowerGUARD™

Graphite undercoating for mower decks. Designed specifically for lawn maintenance equipment. Produces a slick and durable barrier on the lawnmower. Reduces sliding friction and grass-clipping buildup. SLIP Plate® MowerGUARD™ as part of a regular maintenance schedule will extend the life of equipment and help reduce maintenance costs, saving time and money. Common applications are: lawnmowers, tractor decks, shovels, rakes, and garden hand tools.

- SLIP Plate® MowerGUARD™ products cannot be shipped via air transportation

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
SLIP Plate® MowerGUARD™ - 12 oz	12	34002	45570	8.00

SLIP Plate® Black ICE™

Fast drying, graphite dry film lubricant. Combines a solvent cleaner with a friction reducing mineral. SLIP Plate® Black ICE™ first cleans the surface, and then deposits a layer of pure, lubricous graphite powder. Engineered to not build up on the surface. It delivers graphite powder where it is specifically needed and performs in extreme environments. Common applications are: rifles, shotguns, hand guns, ammo magazines, fire hydrants, stand pipes, and hinges.

- SLIP Plate® Black ICE™ products cannot be shipped via air transportation

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
SLIP Plate® Black ICE™ - 6 oz	12	36002	45580	8.00

SLIP Plate® Superflake™ Hot Oven Chain Lubricant

A unique, natural graphite that offers superior lubricity to chain pins and bushings under extreme conditions. Water-based emulsion effectively carries graphite to lubricate entire chain. Unique binder system creates a very durable coating. Penetrates very tight spaces. Use on nonfood contact surfaces only. Hot Oven Chain Lubricant is water-based and is prone to freezing in temperatures below 32°F.

- Avoid freezing — limited shipping during winter months

Description	Case Qty.	Superflake™ Case No.	UPC No.	Lb. Wgt.
Superflake™ Hot Oven Chain Lube - 1 gallon	4	37115G	45590	41.00
Superflake™ Hot Oven Chain Lube - 5 gallon	1	37108	45591	45.00

SLIP Plate® Superflake™ Cold Oven Chain Lubricant

A unique, natural graphite that offers superior lubricity to chain pins and bushings under extreme conditions. Light oil based suspension effectively carries graphite. Unique binder system creates a very durable bond. Prolongs the life of chain while reducing noise. Use on nonfood contact surfaces only.

- SLIP Plate® Superflake™ Cold Oven Chain products cannot be shipped via air transportation

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
Superflake™ Cold Oven Chain Lube - 1 gallon	4	37015G	45592	41.00
Superflake™ Cold Oven Chain Lube - 5 gallon	1	37008	45593	39.20

Tube-O-Lube® Graphite Powder

A unique, natural form of milled graphite powder. Designed to lubricate locking mechanisms, firearms, and bolt and screw threads. Popular for household tasks, hobbies, and musical instruments. Use wherever a grease or wet lubricant won't work.

Description	Case Qty.	Case No.	UPC No.	Lb. Wgt.
Tube-O-Lube® Graphite Powder	48	31646G	45500	2.00

SLIP Plate® Penetrant Plus

Can be applied to both nut and bolt threads to aid in assembly of parts. Reduces friction on threads that can lead to premature thread failure and damage. A recommended lubricant solution for adjustment nuts and bolts on equipment. SLIP Plate® Penetrant Plus Aerosol is a 2-in-1 graphite-based product. When applied to nuts and bolts, it aids in breaking up corrosion and releases the bolt for proper operation. Common applications are: nuts, bolts, hinges, bearings, latches, pulleys, and gears.

- SLIP Plate® Penetrant Plus products cannot be shipped via air transportation

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
SLIP Plate® Penetrant Plus	6	35001G	45550	8.00

SLIP Plate® Chain & Cable

A 2-in-1 lubricant that penetrates deeply into cables and lubricates the tight spaces in chain linkages. Concentrated delivery of the lubricant directly to the area reduces overspray. SLIP Plate® Chain & Cable Aerosol combines a solid and a wet lubricant. It produces a friction-reducing layer that lasts longer, protecting better than traditional petroleum wet film lubricants that only coat the outermost surface and evaporate over time. Common applications are: bike chains, steering cables, winches, garage door chains, and throttle cables.

- SLIP Plate® Chain & Cable products cannot be shipped via air transportation

Description	Case Qty.	SLIP Plate® Case No.	UPC No.	Lb. Wgt.
SLIP Plate® Chain & Cable	6	35201G	45551	7.00

WATCH TOOL BLACK DEMO
IN UNDER 2 MINUTES

Tool Black®

PRECISION BRAND Tool Black® imparts a tough, dull black, protective finish to most ferrous metal parts (not stainless steel). It is a fast, inexpensive alternative to black oxide. No special ventilating system is required and all components are VOC free. Tool Black® is ideal for blackening prototypes and repair parts, along with architectural and design projects. Tool Black® is available in liquid and gel formulations and is designed to be used at room temperatures as a cold application. For nonferrous metal parts (Aluminium, Brass, Copper, etc.) use PRECISION BRAND ABC Blackener™.

Tool Black® Liquid

Liquid solution is best used for small, immersible parts. One pint of Tool Black® Liquid has the capacity to blacken 25-35 square feet of surface area; however, coverage varies with application technique. Tool Black® Liquid is available in one pint and one quart bottles. Kit consists of: one pint Metal Polish/Cleanser, one pint Tool Black® Liquid, and one pint Prevent®.

- Tool Black® Liquid cannot be shipped via air transportation

Description	Case Qty.	Case UPC No.
One complete Tool Black® Liquid Kit (contains one pint bottle of each Tool Black® Liquid, Metal Polish/Cleanser & Prevent®)	1 Kit	45126

One quart Tool Black® Liquid	6 Bottles	45110
One pint Prevent® with trigger sprayers	6 Bottles	45116
One pint Metal Polish/Cleanser	6 Bottles	45106

Tool Black® Gel

Gel formula offers a more controllable, blackening option with no drips or runs on vertical surfaces. Best for larger areas, one pint of Tool Black® Gel has the capacity to blacken 20 square feet of surface area; however, coverage varies with application technique. Kit consists of: one pint Metal Polish/Cleanser, one pint Tool Black® Gel and one pint Prevent®.

- Tool Black® Gel cannot be shipped via air transportation

ABC Blackener™

A cosmetic blackener developed for use on most nonferrous materials. It may be applied by either immersion or brush-on technique. One quart of ABC Blackener™ has the capacity to blacken 30-40 square feet of surface area; however, coverage varies with application technique. Kit consists of: one quart ABC Blackener™ and one quart ABC Sealant™.

- ABC Blackener™ cannot be shipped via air transportation

- PRECISION BRAND Feeler Gage is made from 1/2" wide spring steel stock, close grain C1095 high carbon steel
- Material is ground and polished to precision tolerances
- Used in manufacturing, maintenance and tool & die operations wherever setting close spacing or checking extremely tight tolerances is required
- Thicknesses are clearly etched every 6" in decimal and metric
- Feeler Gage stock is packaged in 5" or 12" flat lengths, 25 feet coils and in convenient assortments
- Also available in bulk quantities
- Other sizes or thicknesses are available on special order

Flat Length Feeler Gage

- 5" or 12" long x 1/2" wide
- 12" lengths are individually wrapped for protection and convenience
- Ends are rounded and edges are smooth for safety
- Each piece has a 3/16" hole at one end except for .001", .040" and .050" thicknesses

Coiled Feeler Gage

- 25 feet long x 1/2" wide
- .001" to .023" coils are conveniently packaged in dispenser boxes
- Easily cut to desired length

* Package of 6 pieces only.

Metric Steel Feeler Gage

- PRECISION BRAND brings you “true” metric feeler gage
- Made of C1095 close grain, high carbon spring steel
- Each blade is clearly etched with thickness
- Feeler Gage stock is packaged in 127mm or 305mm flat lengths, 7.6M coils and in a convenient assortment
- Also available in bulk quantities

Flat Length Feeler Gage

- 127mm or 305mm long x 1/2" wide
- Ends are rounded and edges are smooth for safety

Coiled Feeler Gage

- 7.6M long x 1/2" wide
- Easily cut to desired length

Stainless Steel Thickness Gage

- PRECISION BRAND Stainless Steel Thickness Gage is made from 1/2" wide 300 series stainless steel
- Used in manufacturing or maintenance of a technical nature where stringent, corrosion resistant and low magnetism material is needed to check extremely tight tolerances or close spacing
- Material is a good conductor and will withstand high temperatures
- Industries which use this product are aircraft, power/utility, food, automotive and marine
- .001" to .031" blades have size etched on the material; .0005" blades have size marked on blade package
- Bulk material also available
- Other thicknesses available on special order

Brass Thickness Gage

- PRECISION BRAND Brass Thickness Gage is made from 1/2" wide 260 alloy
- Used in manufacturing and maintenance of highly technical markets where nonmagnetic, and noncorrosive product would be needed to check extremely close spacing
- When inserted, material should not cause a spark
- Ideal industries: computer, mining & electronics
- Blades have size etched every 6" in decimal and metric
- Bulk material also available
- Other thicknesses available on special order

Steel Feeler Gage Assortments

- Contains twenty 1/2" wide blades
- Packaged in a sturdy, vinyl case that helps prevent rust and extends blade life
- Individual blade pockets
- Conveniently folds flat
- Each blade is clearly etched with size in metric and decimal
- Ends are rounded and edges are smooth for safety

Poc-Kit® Assortment 5" Long Blades

UPC No. 19740/PBP No. 19G20
Contains 20 Thicknesses:

Fan Blade Assortment

UPC No. 19821

- Contains twenty-five 3" long by 1/2" wide blades
- Heavy-duty swivel holder
- Rounded ends for safety
- Sizes etched on each blade
- Packaged in poly bag
- Contents: .0015", .002", .003", .004", .005", .006", .007", .008", .009", .010", .011", .012", .013", .014", .015", .016", .018", .020", .022", .024", .025", .028", .030", .032", .035"

Metric Steel Feeler Gage Assortment

- PRECISION BRAND brings you "true" metric feeler gage in a convenient assortment
- Made of C1095 close grain, high carbon spring steel
- Assortment contains twenty 12.7mm (1/2") wide x 127mm (5") long blades
- Each blade is clearly etched with thickness
- Packaged in a sturdy vinyl case with individual blade pockets
- Assortment conveniently folds flat
- Ends are rounded and edges are smooth for safety

Metric (Steel) Poc-Kit® Assortment

UPC No. 09740
Contains 20 Thicknesses:

.05mm	.40mm	.75mm
.10mm	.45mm	.80mm
.15mm	.50mm	.85mm
.20mm	.55mm	.90mm
.25mm	.60mm	.95mm
.30mm	.65mm	1.00mm
.35mm	.70mm	

Plastic Thickness Gage Assortments

- Contains thirteen blades riveted together for on-site convenience
- Made of the highest quality plastic material
.001" to .005" - Polyester
.0075" to .030" - Vinyl
- 1/2" wide blades are available in 5" & 12" lengths
- Color indicates thickness
- Packaged in a sturdy vinyl case
- Metric and decimal sizes are noted on the vinyl case
- Noncorrosive, nonconductive, nonsparking and nonmarring
- Individual blades also available on special order

Plastic Thickness Gage Fan Blade Assortments

Stainless Steel Poc-Kit® Assortment

- PRECISION BRAND Stainless Steel Thickness Gage is made from 1/2" wide 300 series stainless steel
- Contains twenty 5" long x 1/2" wide blades
- Contains sixteen different thicknesses; duplicate blades have been included on the four most commonly used thicknesses
- Packaged in a sturdy, vinyl case which extends blade life
- Individual blade pockets
- Conveniently folds flat
- Each blade is clearly etched with size in metric and decimal
- Ends are rounded and edges are smooth for safety

316 Stainless Steel Shim Stock

- PRECISION BRAND 316 Stainless Steel Shim Stock is made from a soft (annealed) temper material
- Type 316 Stainless Steel has better corrosion resistance to most chemicals, salts and acids and most marine atmosphere because of an addition of 2.0 to 3.0% molybdenum
- Fabrication characteristics of type 316 are similar to type 302 or 304. Type 316 is used extensively in chemical and food processing equipment, photographic, pharmaceutical, marine, and textile finishing equipment.
- Branded® Shim is fully traceable and quickly identifiable — thickness, material type and lot number printed right on the shim material

Color Coded Shim (Plastic Material)

- PRECISION BRAND Color Coded Shim is made from a high quality plastic material
- Eliminates need for micrometer, saves time and reduces error
- Used for gaskets, special parts and various manufacturing applications
- Easy to cut
- Resists oil
- Minimal compression during use
- Nonconductive to electricity
- Thickness indicated by shim color
- For precut Plastic Slotted Shim used in light duty alignments, see our website: www.precisionbrand.com
- For Plastic Arbor Shims, see page 40

Slotted Shim 300 Series Stainless Steel

- PRECISION BRAND Slotted Shim is the best way to solve alignment and leveling problems on motors, pumps, generators, and other plant machinery. These shims are economical, safe, and accurate
- Available in six sizes to cover most applications
- 300 series stainless steel resists rust and corrosion
- Each shim marked with thickness in decimal and/or metric
- Shim thickness tolerances meet or exceed industry standards
- Shims conform to standard bolt and stud sizes
- 6" & 8" sizes are available in thicknesses from .001" to .500"

Sof' Shoe® Shim

Sof' Shoe® Shim Slot Sizes

Size A 2" x 2"	Size B 3" x 3"	Size C 4" x 4"	Size D 5" x 5"
5/8"	7/8"	1-1/4"	1-5/8"

- Sof' Shoe® shim cures angular soft foot and extends bearing and motor life
- Sof' Shoe® shim is made of a proprietary elastomer which has unique flow and set characteristics to fill irregular gaps
- Sof' Shoe® shim is an inexpensive alternative to milling the base or foot, hand cutting graduated shims, replacing base or rebuilding base with poured epoxy
- Each Sof' Shoe® shim thickness has a 12 percent flat compression under standard bolt torque, yet will absorb the angularity of nearly half its thickness
- Sof' Shoe® shim is stable to 250°F
- Flat sheets are also available on special order

Laminated Stainless Steel Arbor Shims

- Made of annealed type 302 stainless made with .002" laminations
- Peel off layers to needed thickness
- Corrosion resistant
- Allows you more accuracy on-site
- I.D./O.D. Tolerances +/- .008 (+/- .010 for .125" thickness)
- Composition 3, Type 1, Class 1

Arbor Spacers & Shims

SHIMS do not have a keyway,
SPACERS do have a keyway

- Made of high quality low carbon, cold rolled, full hard, steel shim
- Keyways conform to American standards
- Packaged in air tight poly bags, 10 pieces per bag (except assortments)
- Special sizes, materials and bulk quantities available on request
- Used for fast, accurate spacing of milling cutters, gang cutters, saws, slitting blades and grinding tools
- Tolerances:
ID: $+.011"/-.000"$
OD: $+/- .002"$

* 5 per package.

** Assortments contain one each of 18 different thicknesses.

Plastic Arbor Shims

- PRECISION BRAND Plastic Arbor Shims are used for light duty spacing
 - Used for fast, accurate spacing of milling cutters, gang cutters, saws and grinding tools
 - Easy identification because the color tells the thickness
 - Corrosion resistant
 - Nonmagnetic
 - 10 pieces per package
 - Larger and thicker shims are available on special order
- Tolerances:
ID: +.005"/-.015"
OD: +.005"/-.005"

- Shims quickly adjust height of sharpened die button
- Easily extends the “life” of a die button
- Saves time over hand punching custom shims
- Large I.D. accommodates multiple size die openings and reduces the risk of “slug stacking”
- Hardened steel maintains precision thickness under heavy pressure
- .005" thickness is made from 1095 blue tempered spring steel
- .015" and .032" thickness is made from 1075 tempered spring steel
- Available in assortment and refill packages

Shoulder Screw/Stripper Bolt Shims

(Lengthening & Shortening Shims)

Lengthening Shims

Shortening Shims

- PRECISION BRAND Lengthening Shims fit over the stripper screw threads and under the shoulder which, in effect, lengthens the stripper screw length
- PRECISION BRAND Shortening Shims are precision die cut to fit with close tolerances around the shoulder screw shank to fit under the screw head
- Fits six different shoulder screw sizes from 1/4" to 3/4" diameter
- .005" shims are precision die cut from 1095 blue tempered spring steel
- .015" and .032" shims are die cut from 1075 tempered spring steel

Tool Wrap

- PRECISION BRAND Tool Wrap is made of Type 321, or Type 309, soft annealed, stainless steel
- Helps protect from scale and oxide buildup during heat treating in atmospheric furnaces
- Eliminates decarburization buildup
- Protects the surface of air hardening tool steels
- Cut-to-fit stainless steel tool wrap creates an airtight envelope around your part
- Can be cut, folded and crease-sealed with ease
- 321 can be used in furnaces up to 2000°F (1093°C)
- 309 can be used in furnaces up to 2240°F (1227°C)
- Realize the benefits of a vacuum furnace at a fraction of the cost

Hot Melt Coating

- PRECISION BRAND Hot Melt Strippable Protective Coating protects tools, gauges and metal parts from nicks, corrosion and abrasions during storage and shipping
- Packaged in convenient 5 lb. bags
- Available in two formulas: TYPE 1 and TYPE 2
- Five transparent colors: amber, clear, red, green and blue
- Poly bag packaging means easy handling and storage
- Easy to use, coating is presliced into manageable pieces
- Other colors and types available on special order
- Set time is less than 60 seconds
- To remove, coating peels right off
- Melting temperature:
TYPE 1 = 340-350°F
TYPE 2 = 320-340°F

Standard Series Hose Clamps

100% INTERLOCK
CONSTRUCTION FEATURES:
One piece housing which
directly locks into the band.
Spot weld free design.

Engineered for Tough Installation

- Rounded edges to protect the hose
- Efficient three-piece construction
- No spot welds to corrode
- Easily installed with screwdriver, nut driver or socket wrench
- Screws feature deep slots for quick installation
- Meets or exceeds SAE torque specifications
- Sold in box quantities of 10
- Bulk quantities also available

B-H Series Partial Stainless

This clamp has a 1/2" stainless steel band with plated 5/16" slotted hex head screw and housing. It is recommended for most applications.

B-HS Series All Stainless

The 1/2" band and housing components are all stainless steel. The slotted 5/16" hex head screw is made from 400 series stainless steel. It is recommended for good corrosion resistance and extra strength.

B-HSP Series All 300 Series Stainless Steel

This high quality 300 series 1/2" band and housing is matched with a 300 series 5/16" slotted hex head screw. This clamp is highly corrosion resistant, well suited for marine applications and is low in magnetic permeability.

Miniature Series Hose Clamps

Micro Seal® Miniature Hose Clamps

- Seven sizes – the widest selection in the industry
- Small enough to install in very tight places
- Strong enough to give a tight, lasting seal that won't shake loose
- Applications: hose and tubing, fuel lines, air lines, fluid lines, etc.
- Sold in box quantities of 10
- Bulk quantities also available

M-P Series Partial Stainless

The 5/16" band is made of a 300 series stainless steel, and the housing and 1/4" hex head screw are made from a plated carbon steel.

M-S Series All Stainless

The 5/16" band and housing are made of a 300 series stainless steel with a 400 series 1/4" hex head screw.

M-HSP Series All 300 Series Stainless

The 5/16" band, housing and 1/4" hex head screw are made from a 300 series stainless steel.

Critical Connection Hose Clamps (Metric Smooth Band)

- Short housing saddle is weld free and keyed into the band
- The smooth form evens the pressure around the hose
- Pressed tooth form and rounded, raised band edges prevent damage to the hose
- More efficient sealing at lower torque
- Sold in box quantities of 10

Standard Series

- 9mm band and housing are 400 series stainless steel
- 6mm screw is zinc plated carbon

Miniature Series

- 7.5mm band and housing are stainless steel
- 5mm slotted hex head screw is zinc plated carbon

All Stainless Military Hose Clamps

- Manufactured to military standard A-A-52506-B for low pressure type "F" clamps and Federal Specification WW-C-440B
- One-piece, spot weld free housing
- 1/2" 300 series stainless steel band and housing
- 5/16" 300 series stainless steel hex head screw
- Sold in box quantities of 10

WaveSeal 360™ Hose Clamps

WaveSeal 360™ is a registered trademark of Ideal Clamp Products, Inc.

- Unique expansion and contraction creates a steady 360° seal in response to changing temperatures and works well with nonuniform hoses

- The two inward pointed ridges form points of high pressure, and between them a low pressure center that creates an O-ring effect

All Stainless Steel WaveSeal 360™ Clamps

- All stainless steel
- 5/16" hex head screw
- 9/16" band width (14.29mm)
- Recent leak pressure tests show that the WaveSeal 360™ clamp performed better in thermal cycling than typical constant tension clamps, Belleville spring or spring-loaded T-bolt styles
- Further testing revealed WaveSeal 360™ performs even better over time when compared to other leading brands in the same category
- Sold in box quantities of 10

Common Uses

- Hydraulic systems – construction, agricultural, and telecommunications equipment
- Cooling systems – heater hose, radiator hose and heat exchanger
- Charged Air systems – cold and hot side diesel turbo charger, and air intake

Create-A-Clamp

- A quick, easy way to solve almost any clamping problem
- Allows you to economically mount, secure or position as you would with ordinary worm drive clamps in a maintenance environment
- Made of a 300 series stainless steel band, housing and adjustable splices
- The 5/16" hex head screw is made of a 400 series stainless steel

Create-A-Clamp

Each Box Contains:	UPC No.
Complete set includes: 50 ft. of 1/2" Wide Banding 20 Fasteners 10 Splices	41500
Complete set includes: 50 ft. of 1/2" Wide Banding 50 Fasteners 10 Splices	41600
Banding only - 50 ft.	41100
Splices only - 10 pieces	41610
Fasteners only - 20 pieces	41620

Quick Release Hose Clamps

- The swivel action design of the screw allows for fast and easy adjustments
- These clamps are critical in closed areas where a clamp must be disengaged for installation and removal

QR-H Series - Partial Stainless

- 1/2" 300 series stainless steel band and housing
- 5/16" zinc plated hex head screw
- 400 series stainless steel bridge

QR-HS Series - All Stainless

- 1/2" 300 series stainless steel band and housing
- 5/16" 400 series stainless steel hex head screw
- 400 series stainless steel bridge
- Sold in box quantities of 10

Unicoil™ Hose Benders/Supports

- Unicoil™ allows you to bend straight hose into any shape and keep it in place
- Helps keep hoses away from hazards, prevents hose kinks and reduces fatigue from repeated bending
- Fast and easy to use, requires no special tools
- Stainless steel construction will not rust
- Works above or below ground and underwater
- Unicoils™ are reusable...can be bent, straightened and re-bent

Threaded Rod

- PRECISION BRAND Threaded Rod is made from high quality low carbon steel
- Stainless Steel, high strength B-7 Alloy and Left Hand Threaded Rod are also available
- National Coarse (NC) or National Fine (NF) threads
- Threads are rolled under high pressure for greater strength
- Available in plain oil finish and electro zinc plated
- Other materials, sizes, lengths and special threading available on special order

Drill Rod

- PRECISION BRAND Drill Rod rounds are made of annealed, ground and polished, general purpose tool steel
- Used for punches, tools and dies, drills, taps, arbors, roller bearings, dowel pins and a variety of machine parts where high strength and long life are required
- Excellent finish, strength and machinability makes drill rod ideally suited for power drive shafts and applications where accuracy and straightness are required
- Stocked in 3 feet lengths
- Available in Water Hardening (W-1) and Oil Hardening (O-1) grades
- Other grades and sizes, including metric are available on special order

Water Hardening/W-1

Color Coded with red ends

- Made from a 1095 steel
- Most popular type
- Most versatile and least expensive
- Tough hardening quality affords optimum response to heat treatment and provides toughness and maximum wear resistance in service
- High carbon content allows it to be used without heat treatment for many maintenance applications
- Fine grained, electric furnace melt, commercial grade tool steel

Oil Hardening/O-1

Color Coded with yellow ends

- Made from a 1085 steel
- Electric furnace melt tool steel
- Nonshrinking, general purpose tool steel
- Excellent toughness and machinability characteristics

Conversions

1 inch (") = 25.4 millimeters (mm)

1 inch (") = 2.54 centimeters (cm)

1 foot (') = .30481 meters (m)

How to Convert

Inches to millimeters = x 25.4

Inches to centimeters = x 2.54

Feet to meters = x .30481

Millimeters to inches = ÷ 25.4

Centimeters to inches = ÷ 2.54

Meters to feet = ÷ .30481
