SKULLERZ
HEAD+EYE+FACE
PROTECTION

// Innovative ventilation system and sculpted rear opening allow the shell to protect and breathe

// Certified forehead and crown coverage means maximum protection from bumps and bangs

// Unique flanged shell flexes for fit and comfort while ribs provide stability and support

// Durable, impact-resistant ABS plastic construction outside; comfortable thermo-formed foam padding inside

EN 812: 2012 CERTIFIED PROTECTION

WHAT IS EN 812?

EN 812 is currently the world's only standard for bump cap design and performance. Certification requires the cap and shell system undergo rigorous testing to prove protection from impact and penetration under various conditions.

Skullerz® 8950, 8960, and 8955 Bump Caps provide certified protection you can count on for those tight spots on the job.
