STANLEY HAND TOOLS

14

For over 160 years professionals have turned to Stanley for quality hand tools. Through these years, they have depended on the Stanley name for innovative design and durability. Our engineering and manufacturing experience is unsurpassed in the industry. All products are developed according to strict ergonomic guidelines standards and offer special advantages such as enhanced shock absorption, comfort grip and reduced slip.

Stanley offers a complete line of Measuring, Cutting, Fastening, Striking & Struck, Layout, Pliers, Boring and Finishing tools to meet your needs in the workplace.

FATMAX™ LINE OF TOOLS

FatMax™ products are an innovative line of professional, high performance hand tools developed as a direct result of user research. These tools combine innovative design and engineered high performance materials to get the job done faster, better and more efficiently than traditional hand tools.

SAFETY

- Use safety goggles to protect your eyes.
- Always be in a balanced and stable position when using hand tools.
- Disconnect electricity when working on electrical parts.
- Keep grease off holding surface of a tool.
- Keep tools clean to prevent slippage and possible injury.
- Never expose tools to excess heat. This could alter the temper and ruin the tool.

STANLEY
FatMax®
BladeArmor™

First 6" are reinforced with Blade Armor™ coating.

FATMAX® TAPE RULES—1-1/4" WIDE BLADE REINFORCED WITH BLADE ARMOR™ COATING

- Blade Armor™ coating is a patented industrial thermoplastic coating. It's on the first 6" of the FatMax® Tape Rules for maximum durability and reduced blade breakage.
- 1-1/4" wide blade (25% wider) with 11' of stand-out.
- Easy to read graphics.
- Mylar® polyester film coating extends blade life .
- Top forward blade lock makes it easier to lock and unlock the blade.
- Exclusive cushion grip built into the case for a comfortable slip-resistant grip and impact resistance.
- High impact, ABS case with rubber over-mold.
- Specially designed, hook grabs on side top or bottom.
- Strong spring for smooth retraction.
- Stainless steel wearplate protects case from being cut by blade.

Product ID No.	Blade Length		Blade Width	Units	Case Color	Case Material	Stud Markings

MAXSTEEL® TAPE RULES

- 9' Stand-out using patented "selective cross curve" technology. (1" blades only)
- Heavier and stronger spring for extra long life and "smooth-as-silk" blade recoil.
- Three rivet, corrosion resistant hook moves to allow for accurate inside/outside measurements. (1" blades only)
- Improved blade readability with high contrast color – easy to read in all light conditions.
- Top forward blade lock design makes it easier to lock and unlock the blade.
- High impact, ABS case with rubber over-mold.
- Mylar® polyester film coating extends blade life.

STANLEY FatMax®

FATMAX® SAW WITH BLADE ARMOR™ COATING

- Blade Armor™ is a composite coating that protects the blade:
 - 2x more rust protection.
 - 6x more abrasion protection.
 - 50% less friction.
- (Compared to Stanley® lacquered saws.)
- +15%* thicker blade for straighter cuts and to reduce binding.
- SharpTooth™ saw technology, utilizes three cutting surfaces and cuts 50% faster than conventional Stanley® handsaws.
- Induction hardened teeth stay sharp 3 to 5 times longer than standard teeth.
- Approximately 60%* thicker handle for grip and comfort.
- Back of saw can be used to mark 45 degree and 90 degree angles.
- Ergonomically designed slip-resistant grip for extended use.

Product ID No.	Blade Length	Points/Inch
20-046	15"	8

*Than conventional hand saws.

STANLEY FatMax®

+15%* Thicker Blade

FATMAX® SAW

- +15%* thicker blade for straighter cuts and to reduce binding.
- SharpTooth™ saw technology cuts 50% faster than conventional saws.
- Induction hardened teeth stay sharp 3 to 5 times longer than standard teeth.
- Approximately 60%* thicker handle for grip and comfort.
- Ergonomically designed slip-resistant grip for extended use.
- Ideal for cutting various types of wood and plastic.
- Patented design.

Product ID No.	Blade Length	Points/Inch
20-045	15"	9

*Than conventional hand saws.

SHARPTOOTH™ SAW

- SharpTooth™ saw technology cuts 50% faster than conventional handsaws.
- Induction-hardened teeth stay sharp 3-5 times longer than standard teeth.
- Ergonomic ally designed handle for better grip and improved comfort.
- Welded handle to eliminate loose screws.
- Reusable blade guard for blade protection.

15-335	Crosscut	20"	9
15-334	Crosscut	15"	9

SHARPTOOTH™ SAW

- Aggressive 3-sided tooth design cuts wood 50% faster than conventional handsaws.
- Induction-hardened teeth stay sharp 3-5 times longer than standard teeth.
- Hard wood handle with large hand opening for comfort when wearing gloves.
- Ideal for cutting plastic; PVC, ABS piping.

Product ID No.	Blade Length	Points/Inch
15-087	20"	9
20-065	26"	12

HARDTOOTH™ HANDSAW

- Special square and mitre feature built into saw handle enables user to draw 45° and 90° lines using the back of the blade.
- Induction hardened teeth stay sharp 3 to 5 times longer than standard teeth.
- Contoured sturdy handle designed for comfort and control. Protective full-length sleeve.

Product ID No.	Description	Blade Length	Points/Inch
15-355	Crosscut	20"	10

SHARPTOOTH™ TOOL BOX SAW

- Aggressive 3-sided tooth design cuts wood 50% faster than conventional handsaws.
- Induction-hardened teeth stay sharp 3 to 5 times longer than standard teeth.
- Hardwood handle design allows for the back of the saw blade to be used for marking 45° and 90° angles.
- Total length of 18" fits conveniently in most tool boxes.
- Hardwood handle.
- Ideal for cutting plastic; PVC, ABS piping.

Product ID No.	Blade Length	Points/Inch
15-086	15"	12

SHARPTOOTH™ TECHNOLOGY UTILIZES THREE CUTTING SURFACES.

FatMax®

FATMAX® JABSAW

- SharpTooth™ technology cuts 50% faster than traditional tooth designs.
- Cuts on both the push and pull strokes.
- Sharpened tip easily punches through drywall.
- Hardened and tempered blade for durability.
- Blade can cut through cement board.
- Ideal for drywall, wood and plastic.
- Slip-resistant grip to comfort.
- Handle structure designed for strength and durability.

Product	
ID No.	Blade Length
20-556	6-1/4"

CUSHION GRIP WALLBOARD SAW

- Fully hardened, tempered blade is designed to be strong and durable.
- Teeth designed to cut fast and won't clog.
- Sharp tip for plunge cuts.
- Blade is epoxy bonded to handle for a secured fit and long life.
- Ergonomically designed, curved handle is cushioned for comfort and extended use.

Product	
ID No.	Blade Length
15-556	6"

WALLBOARD SAW

- Designed especially for plasterboard.
- Make cut-outs for electric outlets, etc.
- Self starting; point-sharpened for plunge cuts.

Product

15-206	6"

SHARPTOOTH™ DRYWALL SAW

- Aggressive tooth design makes fast, smooth cuts in drywall.
- Induction-hardened teeth hold up against abrasive drywall materials.
- Hard wood handle.
- Tapered nose to push/punch through drywall.

Product		Blade Length		Points/Inch
ID No.	Inches	mm		
15-025	15"	380		8

CUSHION GRIP MULTI SAW

- Ergonomically designed curved handle is cushioned for comfort and prolonged use.
- Accepts standard reciprocating blade or hacksaw blade.
- Ideal for close quarter sawing.
- Large tension nut makes securing the blade quick and easy.
- Sold with wood and metal blades.

Product		Blade Length	
ID No.	Inches	mm	
20-220	6"	150	

SHARPTOOTH™ MINI UTILITY SAW

- 12 point induction hardened teeth stay sharp 3 to 5 times longer than standard teeth.
- Aggressive 3-sided tooth design cuts wood 50% faster than conventional handsaws.
- 10" blade is ideal for access in tight spaces and cutting a variety of materials such as plastic, pipe, particle board, and wood.
- Hardwood handle is contoured to fit the hand comfortably.
- Compact 15-1/2" overall length fits conveniently in most tool boxes.

15-022A	10"	15

SHARPTOOTH™ TECHNOLOGY UTILIZES THREE CUTTING SURFACES.

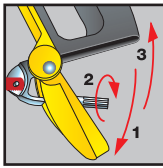

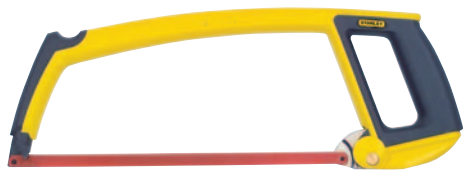

FatMax®

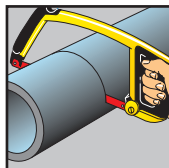

FATMAX® HIGH TENSION HACKSAW

- One piece durable body for prolonged life, allowing for extra high tension.
- Tension: 330 lb. (30000 psi).
- Quick and easy blade change with pre-tensioning.
- Comes with a bi-metal blade 24 tpi.
- Power load sliding tension, gives extra leverage to help increase tension and better control when releasing the blade.
- Thumb-dial adjustable tension mechanism with quick change features allows for tension memory – no resetting after each blade change.
- Ergonomically designed contoured handle and front thumb grip to give better control.
- Large cutting capacity – up to 5" of extra deep cutting.

Product ID No.	Depth of Throat	Blade Length
20-031	5"	12"

QUICK RELEASE LEVER FOR FAST BLADE CHANGES

5" OF LARGE CAPACITY CUTTING

HIGH TENSION HACKSAW

- Single action blade tensioning device is easy to use, retains tension memory and can be adjusted to apply varying pressure to the blade.
- Unique, quick-release lever allows for fast blade changes (less than 15 seconds).
- Rigid metal internal I-beam construction adds stability and strength.
- Molded bi-material, impact-resistant composite frame absorbs more shock.
- Large cutting capacity – up to 5 inches of extra deep cutting.
- Ergonomically designed contoured handle and front thumb grip to give better control.
- Heavy duty steel reinforced core increases cutting speed.
- 45° and 90° cutting angles for added flexibility of cutting needs.
- Patented design.

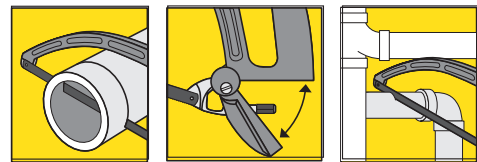

Product ID No.	Depth of Throat	Blade Length
20-115	5"	12"

HIGH TENSION HACKSAW

- Rugged design for heavy-duty use.
- Fully adjustable tension – holds blade up to 32,000 p.s.i., which provides longer blade life and fast, accurate cuts.
- Blade storage in frame. Quick-release, blade-changing mechanism in handle, maintains tension setting.
- Tension guide on handle lever. Hacksaw or reciprocating blades extended out nose of frame can be locked into place for tight clearance work.

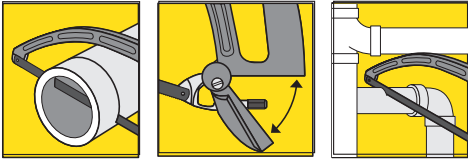

Product ID No.	Depth of Throat	Blade Length
15-113	5"	12"

HIGH TENSION-LOW PROFILE HACKSAW

- Unique arc shape frame allows for cutting in tight, hard-to-reach areas.
- 4" depth of throat allows for efficient cutting of large PVC pipes.
- Heavy duty, die cast aluminum I-beam frame for strength and durability.
- 45° and 90° cutting angles for added flexibility of cutting needs.
- High tension knob allows for easy blade tension adjustment.
- Ergonomically designed handle for comfortable use.
- Patented design.

Product ID No.	Depth of Throat	Blade Length
20-001	4"	12"

COMPOSITE HACKSAW

- Patented Design.
- I-beam frame construction.
- Frame made from high impact polymer with steel core.
- Sloped nose for access into tight, hard-to-reach places.
- 4" depth of cut.
- Ergonomically designed, slip-resistant grip.
- Easy open lever for quick and easy blade change.
- High tension blade for straight accurate cuts.
- 12" fixed blade frame.

Product ID No.	Depth of Throat	Blade Length
15-892K	4"	12"

RUBBER GRIP HACKSAW

- Rigid steel frame with molded cushion grip.
- D-shape guard protects hand and knuckles.
- Frame is adjustable for 8", 10" and 12" blades.
- Allows blade to be faced in four directions.
- Furnished with 10" standard carbon steel blade; 24 teeth per inch.

Product ID No.	Depth of Throat	Blade Length
15-265	3-7/8"	10"

ADJUSTABLE HACKSAW

- Rugged plated steel frame.
- Fits 10" and 12" blades.
- Comfort pistol grip handle.

CLAMPING MITRE BOX

- Ergonomically designed, slip-resistant grip for maximum comfort and control.
- Induction hardened teeth stay sharp 3-5 times longer than other leading back saws.
- Simple angle adjustment for most applications.
- Quick, simple cam clamp to hold work for accuracy.
- Precision design for smooth accurate cuts in wood as well as metal.

Product

ID No.

20-800	Back Saw
20-809	Blade Replacement

CLAMPING MITER BOX

- Uniquely designed honeycomb base and cam shaped pins secure work for accurate cuts.
- Hassle free — just twist cam pins to securely hold material to base while cutting.
- Cuts miters on 45° and 90°, face angle 45°, and all new 22 1/2° angles (for octagonal shapes) popularly used on architectural details such as bay windows.
- Molded-in storage compartments to hold cam pins and pencil.
- Two cam pins included.
- Molded lip on base edge for easy use without mounting.
- Two screw holes on each side to secure base to work top.
- Built in saw stop to prevent cutting into miter box.

Product	
ID No.	Length
11-411	1-3/4"

HIGH PERFORMANCE UTILITY BLADE

- Made of high chromium steel.
- This blade will last 80% longer and deliver 20% more initial sharpness than the Stanley 11-921 blades.
- Suited for drywall, roofing, paper cutting and other heavy duty applications.
- For fiber material, we recommend the 11-921 "1992" blade.

11-950

EXTRA HEAVY DUTY UTILITY BLADE

- For cutting thick, dense sheet materials.
- For use with fixed blade knives only.

11-931

1992® HEAVY DUTY UTILITY BLADE

- For general purpose cutting.
- Precision-honed edge for consistent and extended cutting life.
- Fits most standard utility knives.

11-921

ROUND POINT UTILITY BLADE

- Reduces risk of accidental cuts and reduces damage to interior contents when cutting open cartons.

11-987

1991® REGULAR DUTY UTILITY BLADE

- Regular duty utility blade for light sheet materials, paper and cardboard.

11-911

SINGLE EDGE RAZOR BLADE

- Steel-backed high carbon steel blade fits all standard razor blade tools.
- Replacement blades for Stanley® 28-100 and 28-500 scrapers.

11-515/28-510

1996™ HOOK BLADE

- Edge protection blade for cutting and trimming roofing materials, linoleum, carpet, fabric, cartons and sheet materials without damage to surfaces below.

11-961

LARGE HOOK BLADE

- Similar to 11-961, but with deeper hook for cutting thicker materials.

CABLE TACKER

- Heavy-duty steel construction for fastening any low voltage wire or cable up to 1/4" diameter.
- Uses 9/32"-9/16" Stanley CT10 or Arrow® T-25 cable staples.
- Cushion grip and convenient handle lock.
- Wire guide for fast, sure placement of staples.
- Curved driver to protect wire from damage.
- Convenient handle lock for storage.

Product ID No.	Description
CT10C	Cable Tacker

HEAVY-DUTY SHARPSHOOTER ELECTRIC STAPLE/NAIL GUN

- Heavy-duty design with more driving power.
- Uses Stanley Sharpshooter or Arrow T-50 heavy-duty staples and two sizes of brads.
- All metal drive channel for better penetration.
- Dual power (Hi or Lo) for hard or soft materials.
- Flush-nose design for stapling in tight spots.

Product ID No.	Description
TRE500	Sharpshooter Electric Staple/Nail Gun

HEAVY-DUTY SHARPSHOOTER STAPLE GUN

- Easy squeeze staple gun operates as a staple gun, nailer, cable tacker and screen/canvas specialty tool.
- Two sided, dual function attachment includes functions as a cable tacker on one side and a screen/canvas attachment on opposite side.
- Dual power lever (Hi/Lo) for hard or soft materials.
- Drives Stanley Sharpshooter or Arrow T-50 heavy-duty narrow crown staples and two sizes of brads.

Product ID No.	Description
TR200	Sharpshooter Staple Gun

CABLE STAPLES

- Fits wire up to 1/4".
- For use on low voltage wiring only.

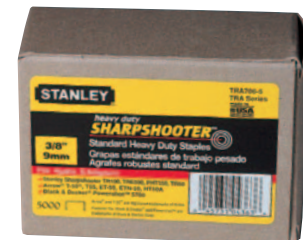

Product ID No.	Size	Count
CT106	3/8" Cable Staples	1000
CT109	9/16" Cable Staples	1000

HEAVY-DUTY SHARPSHOOTER HAMMER TACKER

- Contractor quality-designed to last over 200,000 cycles.
- Full rubber grip to absorb shock and protect hands.
- Loads two full sticks of Stanley Sharpshooter or Arrow T-50 heavy-duty staples (1/4"-3/8").
- Heavy-duty steel construction.
- For fast installation of carpeting, roofing materials or insulation.

Product ID No.	Description
PHT150C	Sharpshooter Hammer Tacker

STAPLES

- Staples fit all major brands of staple guns.
- Color-coded tabs for quick selection.
- Heavy-duty staples in multiple sizes (3/8", 9/16" and 1/2").
- High quality, precision made in USA.

Product ID No.	Size	Count
TRA706	3/8" Staple	1000
TRA708	1/2" Staple	1000
TRA709	9/16" Staple	1000

OVERSTRIKE STEEL PROTECTION PLATE

FATMAX® HICKORY HAMMERS

- Head designed for larger striking surface and better overall balance.
- Over-strike steel protection plate to help reduce handle wear and tear. (51-403 only)
- Forged and heat treated head for durability.
- Rim-tempered chamfered edge helps reduce chipping.
- Checkered face design to provides nail grip.
- Specially-designed magnetic nail starter for one-hand nail setting.
- Double wedge head-to-handle assembly for extra secure fit.
- Ergonomically designed axe-style hickory handle for a balanced swing and better leverage.
- Contoured hand-grip provides better control and prevents hammer from slipping.
- High quality hickory handle.

Product ID No.	Description	Weight		Overall Length	
		Oz.	Grams	Inches	mm

FATMAX®

Shock absorbing end caps

Magnetic versions have stronger holding power than conventional strips

FATMAX® LEVELS

- Level accuracy of 0.0005 in/in (0.5mm/m).
- Aluminum structure for increased durability.
- Top-read center vial for easy readability.
- Block vials for maximum accuracy and durability.
- Highly visible accents to easily find level on worksite.
- Shock absorbing end caps and overall design to maintain accuracy.
- Superior magnetic holding power (Magnetic versions only).
- Hang hole for easy storage. Hand hole with soft grip for comfort.
- Seamless one-piece extrusion for rugged use.
- Milled working surface for improved accuracy.
- Non-marring side bumpers for use against finished surfaces

	Inches	mm
47-064	8-7/16"	214

IntelliTools®

INTELLISENSOR® DIGISCAN

- Detects and differentiates wood, metal and live wires simultaneously through drywall, tile, plaster and other common wall materials
- Easy to read LCD display for visual and audio detection of stud edge and center positions.
- Locates wood studs and live AC wires in both standard (3/4") and Deep Read modes (1 1/2")
- Automatic calibration in both standard and Deep Read mode.
- Pencil line to easily note location of stud edges.
- Heavy duty ABS construction for durability.
- Automatic shut off.

Product ID No.	Description
77-250	Stud Sensor

INTELLISENSOR® STUD SENSOR

- Detects and locates studs and joists.
- LED display and buzzer indicates stud edge and center position for accurate marking.
- Pencil hole marker.
- High Impact ABS case.
- Automatic calibration.

Product ID No.	Description
77-110	Stud Sensor

NONCONTACT TEMPERATURE READER

- Easy to use—just point, shoot and read.
- Instant readings in Fahrenheit or Celsius.
- Accurate digital readout (+/- 2% or +/- 2°C [+/- 2° F]).
- Temperature range: -18 to 260° C (0 to 500° F).
- Laser aiming for more precise readings.

Product ID No.	Description
ETSTL1	Temperature Sensor

INTELLIMEASURE® DISTANCE ESTIMATOR WITH LASER POINTER

- Ultrasonic measurer with laser pointer.
- Safe, visible red laser pointer to precisely locate point to be measured.
- Greater accuracy in readings 50' range and accurate to +/- .5% of reading.
- Measuring time: 2-6 seconds. Readings may be taken from top or bottom of the case.
- Incorporates: areas and volume calculation, memory storage and recall, automatic summing of measurements.
- Digital display gives readings in both English and metric graduations.
- Data input accompanied by beep when buttons pressed.
- Low battery indicator.
- Automatic shut off.

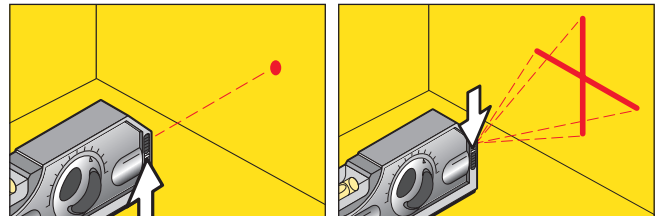

Product ID No.	Description
77-007	Ultrasonic Measurer with Laser Pointer

FATMAX® LEVEL WITH LASER

- Use to trim porches and deck posts to uniform heights; align wall tiles, align cabinets and plumb/level windows and frames.
- 5mW power.
- Wave length 635-670nm.
- Laser class IIIA.
- System accuracy +/- 1/4" @ 100'.
- Shock absorbing end caps with non-marring bumpers.
- Extra large comfort grip.
- Complete kit includes: Fatmax™ LevelLaser, Beam Line Spreader, Beam Cross Line, Carrying Case, Reflective Laser Target, Instruction Manual.

Product ID No.	Description	Size
43-700	Level Laser	24"

INTERNAL ROTATING VIAL (90° TO 0° TO 90°) WITH DETENTS AND BUILT IN SWITCH TO CHANGE LASER DOT TO CROSS BEAM.

INTELLIPOINT™ — PLUS LEVEL

- Aluminum base for added strength and accuracy.
- Base fitted with 1/4-20 threaded insert for tripod mounting.
- Accurate to 1/4" over 100 ft.
- Projects eye-safe Class 3a Laser dot visible on almost any surface.
- Rotating vial that operates through 180°.
- Made of tough ABS plastic.
- Built in dot to cross lines lens.

Product ID No.	Description
77-009	Level Laser

TRIPOD

- Aluminum construction.
- Allows for hands-off use of IntelliLevel™ Laser Rail and other products that require a tripod.
- Extendible legs.
- Easy to use leveling feature.
- 5/8-11 tripod thread.

Product ID No.	Description
77-005	Tripod

FLAT NOSE PLIERS

- Non-serrated, flat jaws for grasping and bending without marring work piece.
- Spring loaded handles for ease of use.
- Forged steel construction.
- Rust resistant finish.
- Double dipped handle for comfort.
- Meets or exceeds ANSI standards.

Product ID No.	Length	
	Inches	mm
84-122	5"	127

LINESMAN PLIERS

- Hardened cutting edges for durability.
- Serrated jaw for additional grip and leverage.
- Forged steel construction.
- Rust resistant finish.
- Double dipped handle for comfort.
- Meets or exceeds ANSI standards.

Product ID No.	Length	
	Inches	mm
84-112	7"	177
84-113	8"	203

MINI END NIPPER PLIERS

- End cutting jaw design for pulling or cutting small tacks and staples.
- Spring loaded handles for ease of use.
- Forged steel construction.
- Rust resistant finish.
- Double dipped handle for comfort.
- Meets or exceeds ANSI standards.

Product ID No.	Length	
	Inches	mm
84-125	4"	102

DIAGONAL PLIERS

- Hardened cutting edges for durability.
- Forged steel construction.
- Rust resistant finish.
- Double dipped handle for comfort.
- Meets or exceeds ANSI standards.

SURFORM® PLANE

- Resilient enough for use on materials that would dull a traditional bench plane blade.
- Manufactured with metallic gray, die-cast alloy body.
- Handle made of high impact polymer.
- Fitted with replaceable (10"/250mm) blade.

Product ID No.	Overall Length		Width	
	Inches	mm	Inches	mm
21-296	12-1/2"	315	1-5/8"	41

SURFORM® POCKET PLANE

- One handed tool.
- Ideal for end-grain work, sheetrocking and smoothing edges of laminates.
- Manufactured with a metallic gray, die-casting alloy body.
- Includes thumb screw tension for quick blade replacement.
- Fitted with a replaceable (5-1/2"/140mm) fine cut.

Product ID No.	Overall Length		Width	
	Inches	mm	Inches	mm
21-399	5-1/2"	140	1-5/8"	41

SURFORM® FLAT FILE

- Superb tool for use as a rasp on wood, plastic, soft metals and many other materials.
- Manufactured with a metallic grey, die-cast alloy body.
- Handle made of high impact polymer.
- Fitted with a replaceable (10"/250mm) blade.

Product ID No.	Overall Length		Width	
	Inches	mm	Inches	mm
21-295	17-3/8"	400	1-5/8"	41

SURFORM® SHAVER TOOL

- Compact and effective lightweight polypropylene molded body.
- Curved blade for increased stock removal.
- The blade also has side cut teeth for shaving in corners.
- Works on the pull stroke.
- Simple, click-on blade replacement.

Product ID No.	Overall Length		Width	
	Inches	mm	Inches	mm
21-115	7-1/4"	184	1-5/8"	41

SURFORM® ROUND FILE

- Especially useful for enlarging holes and smoothing curved surfaces.
- Ideal for pipe installations in MDF, chipboard, drywall or laminates.
- Front grip can be removed when used in small holes.
- Manufactured with high impact polymer handle and thumb support.
- Fitted with a replaceable (10"/250mm) round blade.

Product ID No.	Overall Length	
	Inches	mm
21-297	15-3/4"	400

BLADES FOR SURFORM® TOOLS

Product ID No.	Length	Fits Tool(s)	Shape	Type of Cut	Applications
21-398	5-1/2" (140 mm)	21-399	Flat	Fine cut	Use on hardwoods,
21-393	10" (254 mm)	21-295, 21-296	Flat	Fine cut	end grain, plywood, chipboard, and plaster.
21-299	10" (254 mm)	21-295, 21-296	Half Round	Regular cut	Use on woods, vinyl,
21-291	10" (254 mm)	21-297	Round	Round cut	plaster, linoleum,
21-515	2-1/2" (64 mm)	21-115	Flat	Curved cut	autobody fillers, and
21-293	10" (254 mm)	21-295, 21-296	Flat	Regular cut	soft metals.

BAILEY® LOW ANGLE PLANE

- Grey cast iron base with side and bottom precision ground.
- Durable epoxy coating for long-lasting protection.
- Hardened, tempered, and precision ground tool steel cutter for cutting edge durability.
- Exact depth and lateral cutter adjustment for precise shaving.
- Quick release cam-lock for easy blade removal.
- Machined finger grips in sides provide for easy single-handed use.
- The 13-1/2° low angle cutter ensures that vibration is kept to a minimum for a fine finish. Ideal for planing end grain, and plastic materials.

Product ID No.	Length	Cutter Width	Type
12-960	6"	1-3/8"	Low Angle Block Plane

BAILEY® BENCH PLANE SMOOTH PLANE NUMBER 4®

- Grey cast iron base with side and bottom precision ground.
- Durable epoxy coating for long-lasting protection.
- Hardened, tempered, and precision ground tool steel cutter for cutting edge durability.
- Fully machined and polished double iron cutter and lever.
- Frog seat is machined for precise mouth adjustment.
- Exact depth and lateral cutter adjustment for precise shaving.
- Solid brass cutter adjustment knob for accuracy and durability.
- Quick release cam-lock for easy iron removal.
- Kidney shaped hole in lever cap prevents accidental slippage of cutter.
- Contoured and polished high impact polymer handles and knobs.

Product ID No.	Length	Cutter Width	Type
12-904	9-3/4"	2"	Smooth Plane Number 4®

BAILEY® BLOCK PLANE

- Grey cast iron base with side and bottom precision ground.
- Durable epoxy coating for long-lasting protection.
- Hardened, tempered, and precision ground tool steel cutter for cutting edge durability.
- Exact depth and lateral cutter adjustment for precise shaving.
- Quick release cam-lock for easy blade removal.
- Machined finger grips in sides provide for easy single-handed use.
- Fully adjustable cutter resting at 21°.

Product ID No.	Length	Cutter Width	Type
12-920	6-1/4"	1-5/8"	Block Plane

BAILEY® BENCH PLANE JACK FORE, PLANE NUMBER 5®

- Grey cast iron base with side and bottom precision ground.
- Durable epoxy coating for long-lasting protection.
- Hardened, tempered, and precision ground tool steel cutter for cutting edge durability.
- Fully machined and polished double iron cutter and lever.
- Frog seat is machined for precise mouth adjustment.
- Exact depth and lateral cutter adjustment for precise shaving.
- Solid brass cutter adjustment knob for accuracy and durability.
- Quick release cam-lock for easy iron removal.
- Kidney shaped hole in lever cap prevents accidental slippage of cutter.
- Contoured and polished high impact polymer handles and knobs.

Product ID No.	Length	Cutter Width	Type
12-905	14"	2"	Jack Plane Number 5®

SMOOTH PLANE

- Grey cast iron base with sides and bottom machined smooth and true.
- Durable epoxy coating for long-lasting protection.
- Hardened and tempered tool steel cutter for cutting edge durability.
- Cutter is fully adjustable for depth of cut and alignment.
- Quick release cam-lock for easy blade removal.
- Contoured polymer handles and knobs.

Product ID No.	Length	Cutter Width	Type
12-204	9-3/4"	2"	Smooth Plane Number 4®

WOOD HANDLE WALL SCRAPERS

- High carbon blade—hardened, tempered, taper ground and polished.
- Full tang blade permanently fastened to solvent resistant hardwood handle.

Product ID No.	Blade Type	Blade Width	
		Inches	mm
28-539	Flexible	3"	76
28-543	Stiff	3"	76

PLASTIC HANDLE WALL SCRAPER

- Steel blade hardened, tempered and polished.
- Full tang blade permanently fastened to shatter-resistant nylon handle.

Product ID No.	Blade Type	Blade Width	
		Inches	mm
28-139	Stiff	3"	76

WOOD HANDLE PUTTY KNIVES

- High carbon blade—hardened, tempered, taper ground and polished.
- Full tang blade permanently fastened to solvent resistant hardwood handle.

Product ID No.	Blade Type	Blade Width	
		Inches	mm
28-540	Flexible	1-1/4"	32
28-541	Stiff	1-1/4"	32

PLASTIC HANDLE PUTTY KNIVES

- Steel blade hardened, tempered and polished.
- Full tang blade permanently fastened to shatter-resistant nylon handle.

Product ID No.	Blade Type	Blade Width	
		Inches	mm
28-140	Stiff	1-1/4"	32
28-240	Flexible	1-1/4"	32

28-142	Stiff	2"	51
28-242	Flexible	2"	51

WOOD HANDLE JOINT KNIVES

- High carbon blade—hardened, tempered, taper ground and polished.
- Full tang blade permanently fastened to solvent resistant hardwood handle.

Product ID No.	Blade Type	Blade Width	
		Inches	mm
28-538	Flexible	5"	127
28-546	Flexible	6"	152

PLASTIC HANDLE JOINT KNIVES

- Steel blade hardened, tempered and polished.
- Full tang blade permanently fastened to shatter-resistant nylon handle.

Product ID No.	Blade Type	Blade Width	
		Inches	mm
28-244	Flexible	4"	102
28-246	Flexible	6"	152

SCRAPER

- Quality tempered steel blade.
- For use by painters and paper hangers.
- Accurately ground bevel edge.
- Full size hardwood handle with lacquer finish.

Product ID No.	Blade Length		Width of Scraping Edge	
	Inches	mm	Inches	mm
28-189	3-13/16"	97	3-1/2"	89

BURN-OFF SCRAPER

- Heavy-duty steel blade bent at a 20° angle for easy paint removal.

Product ID No.	Blade Type	Blade Width	
		Inches	mm
28-170	Bent	3"	76

RETRACTABLE RAZOR BLADE SCRAPER

- Removes paint, glue, putty or adhesives from glass, tile, walls, floors or other smooth surfaces.
- Blade retracts for safe storage. Uses standard single edge razor blades.
- Comes with 5 blades.

Product ID No.	Overall Length	
	Inches	mm
28-500	3-3/4"	95

REFINISHING HAND SCRAPER

- Selection of steel and heat treatment of this blade make it a superior tool.
- For achieving a fine finish on wood.

Product ID No.	Length		Cutter Width	
	Inches	mm	Inches	mm
28-035	5"	127	3"	76

HIGH VISIBILITY MINI-RAZOR BLADE SCRAPER

- Lightweight and economical plastic razor blade scraper.
- Blade reverses for safe storage.
- Uses standard single edge razor blade.
- Great for scraping in hard-to-reach places.

Product ID No.	Overall Length	
	Inches	mm
28-100	1-13/16"	46

SINGLE EDGE RAZOR BLADES

- Steel backed high carbon steel blade fits all standard razor blade tools.
- Replacement blades for 28-100 and 28-500 scrapers.

Product ID No.	Packed	Length		Thickness
		Inches	mm	
28-510	10	1-1/2"	.009"	
11-515	100	1-1/2"	.009"	

WINDOW SCRAPER

- Scrapes paint from windows, mirrors, tiles and other flat surfaces.
- Uses 11-921 Utility Knife Replacement Blade.

Product ID No.	Overall Length	
	Inches	mm
28-593	7"	178

FINE WOODWORKING CABINET SCRAPER

- The cabinet scraper is used for fine finishing of hardwood surfaces or where planing is not advisable, such as veneered boards.
- The cast iron double handle design provides control and efficiency.
- The raised handles protect the user's hands during use.
- Single edged cutter can be tensioned to give coarse or fine settings.

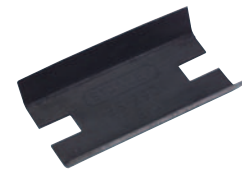

Product ID No.	Length		Cutter Width	
	Inches	mm	Inches	mm
12-080	11-1/2"	288	2-3/4"	70

PAINT SCRAPERS

- Lightweight molded polypropylene contoured paint scrapers.
- Designed for long life comfort.

Product ID No.	Handle Size	Blade Type	Blade Width	
			Inches	mm
28-616	6"	2-Edge	1"	25
28-617	7"	2-Edge	1-1/2"	38
28-619	9"	2-Edge	2-1/2"	64

2-EDGE SCRAPER REPLACEMENT BLADES

- High carbon steel to maintain maximum sharpness.

Product ID No.	Blade Width		Fits Scraper
	Inches	mm	
28-292	2-1/2"	64	28-293, 28-622, 28-619
28-290	1-1/2"	38	28-291, 28-617

(28-631 2 Blades Per Pack)
