## 1. Identification of the Substance/Preparation and of the Company/Undertaking

Product identifier Product Type Product Name Product Code	Hard metal articles, inserts, drills, mills <b>WP25CT article</b> WA1136-6
Туре	This article doesn't contain hazardous substances or mixtures intended to be released under normal or reasonably foreseeable conditions of use, Not applicable, article
Other means of identification Synonyms	Hard Metal, Cemented WC, Tungsten Carbide
Recommended use of the chemical	and restrictions on use
Recommended use	Mining Tools, Construction Tools, Round Tools, Metalworking Tools, Metallurgical Products, Inserts, For use in industrial installations only
Uses advised against	Do no re-sharpen tools without using appropriate safety and extraction systems to avoid dust exposure. Return tools to Kennametal for reconditioning services.
Details of the supplier of the safety	data sheet

**Appropriate Engineering Controls** 

Engineering Controls	Showers Eyewash stations Ventilation systems.
Individual protection measures, su	ch as personal protective equipment
Eye protection	Wear safety glasses with side shields (or goggles).
Skin protection	Wear impervious gloves and/or clothing if needed to prevent contact with the material. Gloves should be replaced regularly and if there is any sign of damage to the glove material.
Hand protection	Protective gloves.
Respiratory Protection	If exposure limits are likely to be exceeded or if irritation or other symptoms are experienced, NIOSH/MSHA or EN 136 approved respiratory protection should be worn.
Hygiene Measures	Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Keep away from food, drink and animal feeding stuffs. Avoid contact with skin, eyes and clothing. Wash hands before breaks and at the end of workday.
