New and Improved

Windsoft®

a touch of tenderness

The newly enhanced Windsoft provides exceptional value and product quality for any away from home setting.

Significant upgrades include:

- ◆ Premium and upscale packaging
- ◆ Softer bath and facial tissues
- ◆ Stronger, more absorbent folded and roll towels
- ◆ Higher recycled content

Folded Towels

◆◆◆ Improved thickness, brightness & color • Consistent coloring • Optimized stacking to reduce storage space

WIN 2360	White 2 Ply Premium Facial Tissue	8 L x 8.3 W	100	30	60	9.5	1.62

A Touch of Tenderness... for our Environment

Preserving our environment is a complex responsibility that we all share. With legislation and regulation emerging across the United States, environmental stewardship has begun to define the products that we use and how we use them.

The United States Environmental Protection Agency (EPA), the government agency whose mission is to protect human health and the environment, has established multiple programs around 3 core priorities: **REDUCE, REUSE, and RECYCLE**.

How can Windsoft help?

- ▶ ALL Windsoft products exceed the EPA recommendations for Recovered Fiber and Post-Consumer fiber.
- ▶ Cores on “roll” products are made from 100% recycled fiber
- ▶ Products are elementally chlorine-free

What is post-consumer fiber?

Post-Consumer fiber refers to material from products that were used by consumers or businesses and would otherwise be discarded as waste.

How can this help me?

Windsoft products are made not only with the highest quality but with our environment in mind.

By exceeding EPA minimum requirements, Windsoft products can help contribute toward sustainable and environmentally conscious cleaning programs.
